

State Aid to Localities

ver one-third of the Commonwealth's operating budget (all funds) either goes directly to localities for locally operated programs or is spent by the state on behalf of localities for specific programs. The majority of the money sent to localities goes to operate public schools. The Commonwealth also directly shares with local governments the revenue from certain sources, such as recordation taxes and profits earned from the sale of alcoholic beverages. The state also shares a portion of its revenue with localities that have police departments.

In addition to funds for public schools, the state gives localities money to construct and maintain secondary roads, and to pay the salaries of local elected officials, such as treasurers, commissioners of the revenue, commonwealth's attorneys, sheriffs, and clerks of the courts and their office staff. Local sheriffs' offices and jails receive the largest share of the state's support for these Constitutional officers. The state funds local departments of social services, local health departments, community-operated juvenile corrections programs, and local programs for individuals with mental illness, mental retardation, or substance abuse problems.

The state also funds a wide range of other local activities and services. These include, but are not limited to, local libraries, improvements to local airports, parks and recreation programs, local emergency services teams, litter control and recycling, and wastewater treatment plants.

In general, "state aid to localities" is defined as:

- any payment made directly to a local government or school division,
- any payment made on behalf of a local government or school division, or
- any payment made to an organization or group that provides a direct benefit to a local government or its residents, such as a public library, planning district commission, or a Community Services Board.

Based on this definition, state aid programs and activities are classified so they can be monitored through the state's financial systems and reported to the General Assembly and taxpayers.

The tables that follow summarize recommended aid to localities in the Governor's Executive Budget for the 2004-2006 budget in several ways:

➤ Aid to localities by agency

Table 1 summarizes the proposed funding paid by each state agency to localities and includes a total for each secretarial area. The amounts contained in the table present the Governor's total recommended funding in his proposed Executive Budget for 2004-2006 biennial budget. The figures represent all funds, amounts from the general fund as well as nongeneral funds. Agencies appear in the same order as in the Budget Bill. See the note to this table on page D-4.

Aid to local school divisions

Table 2 identifies the estimated funding distribution for each local school division for the state's share of programs in elementary and secondary education in the Governor's proposed amendments to the 2003 Appropriation Act and his Executive Budget for the 2004-2006 biennial budget. See the notes to this table on page D-8.

Local savings due to benefit rate reductions

Table 3 identifies the savings localities will realize as a result of the decision to reduce the employer share of retirement by the pooling the liabilities and assets of the two current pools for teachers and state employees. Merging the two pools reduced the employer share of the retirement rate from 7.82 percent to 6.56 percent of salary. This adjustment reduces the local share of retirement costs for Standards of Quality positions by more than \$20 million annually. Because of the additional costs of this action to the Comonwealth, this action is contingent upon passage of the Governor's proposed tax reform legislation.

Savings are also listed for the local share of the Group Life premium holiday. See the note to this table on page D-12.

Notes to Table 2:

- Fiscal years 2004, 2005, and 2006 include estimated funding for Standards of Quality (SOQ), incentive-based, and categorical education programs. The estimated funding does not include any federal funds.
- These amounts are estimates only. Final payments will vary and are subject to submitted reimbursements, changes to the formula-driven accounts, and to the availability of appropriation.
- This distribution does not allocate the estimated non-participation used in calculating the appropriations. However, it does include the nongeneral fund distribution for the Virginia Public School Authority (VPSA) technology notes.
- The distribution for fiscal years 2005 and 2006 includes two actions contingent upon passage of the Governor's proposed tax reform legislation: (1) a reduction in VRS contribution rate from 7.82 percent to 6.56 percent by pooling the liabilities and the assets of the "teacher retirement pool" with the state employee pool, and (2) a compensation supplement equivalent to a three percent salary increase on SOQ-related positions starting December 1, 2005. Both of these actions are appropriated in central appropriations and not in Direct Aid to Public Education.

Note to Table 3:

- ➤ This table represents local savings on Standards of Quality (SOQ)-related positions. Such savings were achieved, in part, by pooling the liabilities and the assets of the "teacher retirement pool" with the state employee pool, producing a Virginia Retirement System (VRS) rate reduction from 7.82 percent to 6.56 percent. In addition, extending the group life holiday results in a rate reduction from 0.46 percent to 0 percent, producing further savings.
- ▶ Local savings from VRS and group life rate reductions impact only SOQ accounts. Actual local savings would be realized on all VRS covered positions.
- ▶ Local savings from the VRS rate reduction does not include the K-3 program.
- ► The local savings from the VRS rate reduction is contingent upon the passage into law of the Governor's tax reform legislation.
