

COMMONWEALTH OF VIRGINIA
EXECUTIVE AMENDMENTS TO THE
2008 – 2010 BIENNIAL BUDGET

PART C:

OTHER REPORTS

STUDIES AND EVALUATIONS

The Code of Virginia requires the Governor’s Executive Budget to supply a “listing of all activity, program-related, agency or departmental evaluations performed in the previous two years, (July 1, 2006 - June 30, 2008), with guidance indicating the manner in which the public can gain access” to the studies. Studies are grouped by secretarial area, and then by agency. Three main sources are used to compile the information listed below:

- **Legislative Information System (LIS).** LIS catalogues studies, evaluations and reports. LIS can be accessed via: leg2.state.va.us or toll free at (888) 892-6948.
- **Joint Legislative Audit and Review Commission (JLARC).** JLARC is authorized by the Code of Virginia to prepare and record studies and reviews. These studies and reviews may be accessed at: jlarc.state.va.us or (804) 786-1258.
- **Other studies and evaluations.** Several other reports are accessible via individual agency websites, which are listed with the associated report.

Please note: the term “date” refers to the year of publication.

AID TO LOCALITIES

The Code of Virginia requires the Governor's Executive Budget Document to supply the "amount of each primary agency's budget that represents direct aid to localities." In addition, the Department of Planning and Budget includes the recommended Aid to Local School Divisions.

The amount of aid supplied to localities benefits Virginia residents by funding the operations of public schools, police departments, and construction and maintenance of secondary roads. The salaries of local elected officials, such as treasurers, commissioners of the revenue, commonwealth attorneys, sheriffs, and clerks of the courts are funded by the state as well. Local sheriffs' offices and jails receive the largest share of state support for Constitutional officers. The Commonwealth also funds local social services and health departments, programs for community-operated juvenile corrections, and for individuals with mental illness, mental retardation, or substance abuse problems, and a wide range of local activities and services. These include local libraries, improvements to local airports, parks and recreation programs, local emergency services teams, litter control and recycling, and wastewater treatments plants. The majority of the money sent to localities goes to public schools.

The Commonwealth shares with local governments the revenue obtained from certain sources, such as recordation taxes and profits earned from the sale of alcoholic beverages.

In general, "state aid to localities" is defined as:

- any payment made directly to a local government or school division,
- any payment made on behalf of a local government or school division, or
- any payment made to an organization or group that provides a direct benefit to a local government or its residents, such as a public library, planning district commission, or a Community Services Board.

State aid programs and activities are coded in the state accounting system to be monitored and reported to the General Assembly and taxpayers. The tables that follow summarize the recommended aid to localities in the Governor's Executive Budget in two ways:

- ***Aid to localities by agency:*** summarizes the proposed funding given to localities by each state agency, with a total for each secretarial area. The totals represent general and nongeneral funds, and reflect the Governor's proposed budget.
- ***Aid to local school divisions:*** identifies the estimated funding distribution for each local school division for the state's share of programs in elementary and secondary education in the Governor's proposed budget.
