COMMONWEALTH OF VIRGINIA

EXECUTIVE AMENDMENTS TO THE 2024–2026 BIENNIAL BUDGET

PART A: OVERVIEW

GLENN YOUNGKIN GOVERNOR

HOW VIRGINIA'S BUDGET IS DEVELOPED AND ADOPTED

Virginia has a biennial (two-year) budget system. The biennial budget is enacted into law in even-numbered years, and amendments to it are enacted in odd-numbered years. For example, the current budget for the 2024-2026 biennium was adopted by the 2024 General Assembly and amendments to 2024-2026 biennial budget will be considered by the General Assembly during its 2025 session.

Governor Youngkin will present his amendments to the 2024-2026 biennial budget in the following pages.

Developing the Commonwealth's budget is a process that takes many months, involving participation from state agencies, the legislature, and the public. The process includes five distinct phases: agency budget preparation, budget development, Governor's and secretarial review, legislative action, and budget implementation.

PART A: INTRODUCTION

This section contains a summary of how Virginia's budget process works, an economic forecast outlining the status of Virginia's economy, and a revenue forecast reviewing the Commonwealth's fiscal outlook, including projected revenues on which the preceding budget amendments are based.

PART B: OPERATING BUDGET

Part B presents the Governor's proposed amendments to the operating budget. This section is organized by the three branches of government: Legislative, Judicial, and Executive. The Executive Department section is also organized by secretarial area.

| For each branch of government or <u>secretarial area</u> you will find: | | | | | |
|---|--|--|--|--|--|
| Overview | The branch's major functions of government or secretarial area. | | | | |
| Agency Listing | A listing of each agency within the branch of government or secretarial area. | | | | |

|------------------------------------|--|--|--|--|--|--|--|
| Agency Name | Agency's official name. Please click on the agency's name, highlighted in blue, to be directed to the agency's detailed budget page. Only summary information is found in the Secretarial Area overview. | | | | | | |
| Agency Operating Budget Summary | The Governor's operating budget amendments for the 2024-2026 biennium, including agency historical funding data and capital outlay amendments. The categories relating to funding are general fund and nongeneral fund. Table notes: all figures represent dollars rounded to millions; due to rounding, figures may not add exactly; figures in parenthesis are negative amounts; agencies appear in the same order as in the budget bill; and the values in the personnel costs category may exceed the sum of the general fund and nongeneral fund categories for addenda items. Personnel cost totals do not reflect any adjustments to any other budget category. | | | | | | |
| Authorized Position Summary | A summary of an agency's authorized position level broken out by fund source (general and nongeneral). The table also reflects total proposed position amendments for the 2024-2026 biennium. | | | | | | |

| Capital Budget Summary | The Governor's capital budget amendments for the 2024-2026 biennium detailed by funding source: general fund, nongeneral fund, and bond proceeds. |
|---------------------------------------|---|
| Operating Budget Changes | Bullet items briefly describe specific budget recommendations for specific agencies. If the Governor has no specific recommendations for an agency, nothing appears after the Authorized Position Summary. This section is broken down into three categories: (1) introduced budget technical changes, (2) introduced budget non-technical changes, and (3) introduced budget savings. Following each bullet item, amounts and positions recommended are designated GF (general fund) or NGF (nongeneral fund). References to positions are to full-time equivalent (FTE) positions. Positions are only mentioned in the initial year affected by the budget amendment. |
| Recommended Capital Budget Changes | Bullet items briefly describe any amendments to previously approved capital construction projects or funding for new projects. Following each bullet item, amounts recommended are designated general fund, nongeneral fund, or bond proceeds. |

PART C: OTHER REPORTS

Part C provides the reader with detailed information on studies and evaluations, Aid to Localities, and Workforce Development. This section also provides the reader with tax-supported debt information and information on actions impacting state transfers. Please note: the Studies and Evaluations report is available for view online at https://rga.lis.virginia.gov/

| This section has four main co | omponents: |
|-------------------------------|--|
| Studies and Evaluations | Various studies, evaluations, and assessments of agencies or agency programs that were conducted in the two most recent fiscal years. Please note: the most recent studies and evaluations can be found on the DLAS website at: https://rga.lis.virginia.gov/. |
| Aid to Localities (ATL) | The Governor's recommendations for funds that go directly to localities for locally-operated programs or are spent by the Commonwealth on behalf of localities for specific programs. |
| Supplemental Information | Information of tax-supported debt capacity and per capita appropriations. |
| Miscellaneous Transfers | Review of actions affecting state debt, revenue transactions, interfund transfers, working capital advances and loans, and required deposits into the general fund. |

ECONOMIC FORECAST

The US Economy

Review of FY24

The FY24 U.S. economic forecast was based on the continuation of post-pandemic trends leading to a mild recession from the second to fourth quarter of CY24. Namely, inflation expectations remained persistently high with an atypically high federal funds rates slowing economic growth. Consumer and business confidence was anticipated to decline due to a federal government shutdown, escalating military conflicts around the world, and bank failures, resulting in an economic downturn.

After the Fed raised interest rates seven times during FY23, the higher cost of financing and alleviation of global supply chain issues resulted in moderating inflation. Since September 2022, consumer price inflation has slowed by about 20 basis points each month as measured by year over year change in prices (CPCEI). The June 2024 increase was the smallest in recent years at 2.6 percent and has been steady at 2.7 percent for the past three months. Signaling that it feels inflation is under control, the Fed, eyeing a 3 to 4 percent target interest rate, has cut rates by 75 basis points over its September and November 2024 meetings.

U.S. job growth was stronger than expected in FY24, with total nonfarm employment rising 1.9 percent over the year, although unemployment rose from 3.6 to 4.1 percent. The moderate growth in employment largely came from above-average performance in the healthcare, hospitality, and construction sectors, while jobs in manufacturing and professional/business services grew less than one percent each.

Over the course of the fiscal year, the forecasted recession did not occur with all major industries avoiding net job loss. Labor market and retail spending data showed an economy that continued to be resilient as the Fed's interest rates have eased inflation for the time.

Baseline US Forecast: Slow Growth

The baseline economic outlook is for slow growth over the next two fiscal years, as the delayed effect of tight monetary policy and the depletion of household savings constrain growth in the near term. U.S. real GDP growth accelerated in 2023 despite high interest rates, but the contractionary effects of Fed rate hikes had yet to fully play out, which is why we saw growth beyond our mild recession forecast last fiscal year. This and other headwinds should cause growth to slow in FY25 and FY26, before rebounding in the next biennium. In terms of annual growth rates, we expect real GDP to grow 1.4 percent in FY25 and 1.7 percent in FY26. In the next biennium, economic growth rebounds to 2.2 and 2.0 percent annually, as the impact of Fed rate cuts begins to stimulate further growth and investment.

The Virginia Economy

Review of FY24

With the mild three-quarter recession in the U.S. economy beginning in the fourth quarter of State FY24 not materializing, payroll employment grew steadily in most sectors operating in Virginia during the fiscal year, most notably Education and Health Services (4.6 percent), Construction (2.7 percent), and Leisure and Hospitality (3.0 percent). Relative to the rest of the country, Virginia performed relatively stronger in goods-producing industries, such as Construction and Manufacturing, which grew 1.5 to 2 percentage points more than the national average.

Baseline Virginia Forecast: Slow Growth

In the Virginia baseline forecast, Virginia employment growth modestly outperforms the U.S. in FY25 growth. Growth slows in FY26 following the national slow-growth scenario. This slower growth is driven by national trends playing out within our state as hiring in key industries slows, consumer spending slows, and political tensions spill over to economic conditions.

REVENUE FORECAST

The Commonwealth's total revenue consists of two types of resources: the general fund and nongeneral funds. About two-thirds of state revenues are "nongeneral funds," or funds earmarked by law for specific purposes. For example: motor vehicle sales and motor fuel taxes are earmarked by law for transportation programs; students' tuition and other fees support higher education, and federal grants are designated for specific activities.

General fund revenues are derived from general taxes paid by citizens and businesses in Virginia. Since general fund revenue is not dedicated to any particular purpose and can be used for a variety of government programs, these are the funds that the Governor and the General Assembly have the most discretion to spend.

General fund revenues can primarily be attributed to five major revenue sources. The two largest sources are the individual income tax and the sales and use tax. Other major revenue sources are corporate income taxes, wills, suits, deeds, and contract fees, and taxes on insurance company premiums. Miscellaneous taxes and other revenues also contribute to the general fund.

FY24 revenue collections showed strong growth

In FY 2024, total General Fund revenues grew 5.5 percent to \$29.4 billion, well ahead of the official forecast of a 1.3 percent increase. All major revenue sources except Wills, Suits, and Deeds—mainly recordation taxes—and corporate income taxes exceeded the official forecast. Most of the excess revenues can be attributed to individual non-withholding collections, related to stronger than expected economic performance and timing issues associated with the new Pass-Through Entity Tax (PTET).

The official forecast was based on the Moody's October 2023 U.S. Downside 75th Percentile Scenario, modified by staff for timing and severity, such that a mild three-quarter recession would occur in the fourth quarter of State FY24, with recovery beginning in the second quarter of FY25.

Composition of General Fund revenues

General fund revenues totaled \$29.4 billion in FY24, with two-thirds derived from individual income taxes. The general fund portion of the state sales and use tax accounted for 16 percent, corporate income taxes accounted for six percent. Other major sources include the insurance premiums license tax (two percent) and taxes on wills, suits, and deeds, predominantly recordation taxes (one percent).

Revenue Forecast

Individual Income Taxes

The Virginia Individual Income Tax applies to the entire income of Virginia residents and to income from Virginia sources received by nonresident individuals. Generally, all residents and nonresidents with Virginia taxable income are required to file a return. Individual income tax rates are as follows:

| <u>Income</u> | Tax Rate |
|---------------------|----------|
| \$0 to \$3,000 | 2.00% |
| \$3,001 to \$5,000 | 3.00% |
| \$5,001 to \$17,000 | 5.00% |
| \$17,001 and over | 5.75% |

<u>Withholding</u>: In FY24, withholding receipts increased 4.8 percent to \$16,718.2 million, exceeding the projected revenue figure of \$16,563.5 million by \$154.8 million. This includes a mid-year update to the forecast, which added \$525 million to the withholding forecast.

Non-withholding: Collections of individual non-withholding (decreased by 1.0 percent to \$6,563.7 million, significantly outperforming the projected estimate of \$5,813.8 million.

Refunds: FY24 refunds amounted to \$2,971.5 million, compared to the \$3,314.4 million projected in the forecast. This represents a 17.5 percent decrease from FY23.

Retail Sales and Use Taxes

In general, all sales, leases, and rentals of tangible personal property in or for use in Virginia, as well as accommodations and certain taxable services, are subject to Virginia sales and use tax, unless an exemption or exception is established. The sales tax rate for most locations in Virginia is 5.3 percent which includes both general fund and non-general fund revenues, and the local option 1.0 percent tax. Several areas have an additional regional or local tax. In all of Virginia, food for home consumption (e.g., grocery items) and certain essential personal hygiene items are exempt from the state sales tax but are subject to the 1.0 percent local option sales tax.

Collections of retail sales and use taxes totaled \$4,709.7 million, \$193.9 million over the forecast. This represented a year-over-year decline of 0.5 percent.

Corporate Income Taxes

Corporations that are subject to the state corporate income tax are required to pay an income tax equal to 6.0 percent of the corporation's Virginia taxable income. In FY24, corporate income tax collections totaled \$1,907.1 million, \$306.4 million under the forecast.

Wills, Suits, Deeds, and Contract Fees

Virginia imposes a state tax on the recordation of deeds, deeds of trusts, mortgages, leases, and contracts relating to real estate. This category is comprised predominantly of state recordation taxes. Revenues from wills, suits, deeds, and contract fees came in at \$406.5 million, a 5.6 percent year-over-year decline and \$19.1 million less than the forecast had predicted. High interest rates continued to dampen real estate demand. As interest rates fall over the coming years, this source should rebound from increased purchases and refinancing.

Insurance Premiums License Taxes

Any insurance company with premiums allocated to Virginia on its annual statement is subject to an annual tax on its direct gross premiums income, which includes all premiums, assessments, dues, and fees collected, received, or derived, or obligations taken from business in the Commonwealth during the calendar year, decreased by returns for cancellation and all amounts returned to subscribers or credited to their accounts as savings.

One-third of the revenue from the Insurance Premiums License Tax from the prior year is deposited into the Priority Transportation Fund (a sub-fund of the Commonwealth Transportation Fund) and the remaining revenue from the Insurance Premiums License Tax goes to the General Fund. General Fund revenues from the Insurance Premiums License Tax were \$468.2 million, exceeding the forecast by \$21.9 million. Collections grew 3.8 percent year-over-year.

Revenue Forecast

General Fund revenue collections expected to grow moderately

In the December forecast, the total General Fund, including transfers, would increase by \$2.1 billion in Fiscal Year 2025. The increase from the revenue forecast assumed in the 2024 appropriations act comes mainly from upward revisions to non-withholding collections.

The December 2024 forecast projects year-over-year growth in General Fund revenues of 4.1 percent in FY25 and 2.5 percent in FY26. The forecast incorporates the feedback of the Joint Advisory Board of Economists and the Governor's Advisory Board on Revenue Estimates and reflects proposed policy actions.

Transportation Fund

State transportation revenue comes from several sources including the motor vehicle fuels tax, the motor vehicle sales and use tax, road taxes, vehicle license fees, state sales tax, interest earnings, and other miscellaneous taxes and fees. Money in this fund is used to support highway construction and maintenance and operating costs. Federal, local, and toll revenues are also used to finance transportation programs.

Total transportation revenues totaled close to \$4.9 billion in FY24, an increase of \$54.7 million over the prior year. Revenue collections grew by 1.1 percent, slightly ahead of the Official Forecast of 0.7 percent. The surplus in Commonwealth Transportation Fund collections in FY24 can mainly be attributed to a surge in interest earnings.

Strong growth in motor vehicle sales tax collections, mainly attributable to a surge in new and used vehicles prices, drove the surplus in the Commonwealth Transportation Fund. In addition, higher interest rates resulted in an upturn in interest earnings.

The December 2024 forecast projects year-over-year increases of 3.6 percent in FY25 and 3.3 percent in FY26.

Around 65 percent of state revenue is nongeneral fund

Although most public attention is focused on general fund revenue, over one-half of all revenue in the state budget consists of nongeneral funds that are earmarked by law for specific purposes.

Nongeneral fund revenue collections increased by 1.7 percent in 2024, and are expected to increase by 30.8 percent in 2025, and 2.0 percent in 2026. Nongeneral funds are around 65 percent of total state revenue during the 2024-2026 biennium.

Federal grants and contracts

Federal grants and contracts are the largest single source of nongeneral fund revenue, about 47 percent of the total. Frequently grants do not come to the state as simple cash transfers. The federal government mandates many program requirements as conditions of the grants, and often states must provide matching funds. The Medicaid program for indigent health care is an example of a federal entitlement program that requires a state contribution.

In 2024, federal grants and contracts decreased to \$21.2 billion. This source is projected to increase by 26.8 percent to \$26.9 billion in 2025 and increase by 2.4 percent to \$27.5 billion in 2026.

Institutional revenue

The second largest class of nongeneral fund revenue is institutional revenue. The principle sources of this revenue are patient fees at teaching hospitals and mental health institutions as well as tuition and fees paid by students at institutions of higher education. Institutional revenue collections are expected to be \$10.9 billion in 2025 and \$11.5 billion in 2026.

Master Tobacco Settlement Agreement Funds

The Master Settlement Agreement (MSA) was signed between the major participating cigarette manufacturers and 45 states, the District of Columbia, and five United States' territories on November 23, 1998. The settlement agreement releases participating manufacturers from past, present, and future smoking-related claims of the states in return for an annual cash payment to the states in perpetuity. These payments are to be adjusted over time for several factors, including inflation and changes in volume of domestic cigarette shipments.

The Commonwealth's plan for the use of MSA funds has three elements. First, legislation passed by the 1999 General Assembly (Chapter 880, 1999 Acts of Assembly) earmarked the state's MSA allocation in two separate trust funds. The Tobacco Indemnification and Community Revitalization Fund receives 50 percent of the MSA allocation. This share is used to compensate tobacco growers and tobacco quota holders for the economic loss resulting from quota loss or elimination and to promote economic growth and development in tobacco-dependent communities in the Southside and Southwest regions of the state. The annual amount received by this Fund was securitized and turned into an endowment. Thus, the Fund now receives earnings on this endowment. The Virginia Tobacco Settlement Fund receives the next 8.5 percent of the MSA allocation for the purposes of restricting tobacco use by minors, reducing childhood obesity, and preventing substance use by youth. Programs targeted at minors include but are not limited educational and awareness programs. The final portion of the allocation (41.5 percent) goes to the Virginia Health Care Fund. Appropriation Act language requires that this Fund only be used to cover the state share of Medicaid costs.

For 2025 and 2026, it is anticipated that the Tobacco Indemnification and Community Revitalization Fund may expend up to 10.0 percent of the endowment, an amount estimated at \$43.0 million each year. Over the 2024-2026 biennium, the Virginia Tobacco Settlement Fund is expected to receive \$10.4 million each year and the Virginia Health Care Fund is estimated to take in \$50.8 million annually.

Judicial Department

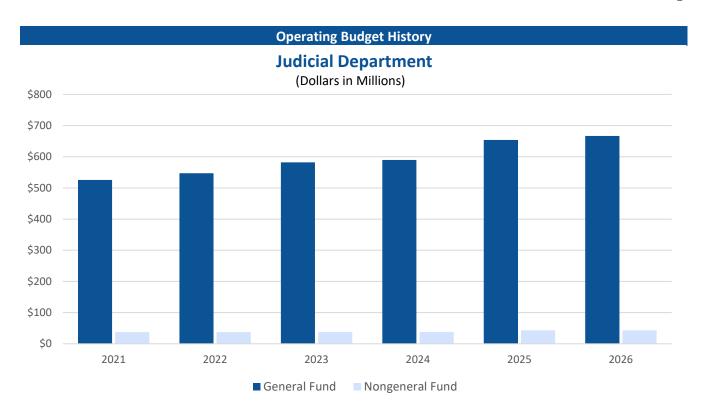

The Judicial Department includes Virginia's system of courts. It has responsibility for legal proceedings for criminal offenses and civil issues, including custody and control of children, divorce and other family matters, traffic offenses, and the appointment of electoral boards. The courts order funding for indigent defense through the "criminal fund," and for involuntary commitments through the "involuntary mental commitment fund." In addition to the court system, the Judicial Department includes other agencies that regulate the legal profession, as well as the Indigent Defense Commission and the Virginia Criminal Sentencing Commission.

Transfer Office of Data Governance and Analytics to the Virginia Information Technologies Agency

Transfers the funding and positions for the Office of Data Governance and Analytics (ODGA) to the Virginia Information Technologies Agency (VITA). The transfer will allow ODGA to achieve economies of scale and fully utilize the existing administrative support structure present at VITA. ODGA is currently funded via charges assessed to state agencies by VITA.

Serve additional children through modified Early Childhood Care and Education program requirements

Makes several changes to requirements for the Child Care Subsidy Program, the Mixed Delivery Initiative, and the Virginia Preschool Initiative in order to increase the number of children served. Changes include updating family copay and work requirements for the Child Care Subsidy Program and the Mixed Delivery Initiative, removing the cap on the local composite index for the Virginia Preschool Initiative beginning in FY 2026, directing attendance requirements to be updated, and limiting new Child Care Subsidy Program enrollment to birth-to-five children and establishing a work group to study options for school age children.

Part B: 2025 Amendments to the Biennial Budget - 2024-2026 Biennium

Amend refund procedures for internet service providers exemption

Amends budget language for refund procedures for internet service providers exemption. This amendment removes existing budget language requiring internet service providers to pay sales tax and subsequently seek a refund for exempt purchases, which is less burdensome to the taxpayer and generate revenues by reducing the amount of refund interest paid.

Operating Budget Changes

Introduced Budget Non-Technical Changes

Fund forecast for services provided to at risk youth

Funds the projected revised forecast for Children's Services Act services. Additionally, language is added to limit growth in state reimbursement for the cost of private day services to 2.5 percent beginning in 2026.

2025 2026
General Fund \$37,042,723 \$68,309,008

Increase administrative budget for essential functions

Provides an increase to administrative funding in order to accommodate increases in contracting costs for information technology and risk management services.

2025 2026 General Fund \$0 \$58,540

Eliminate supplemental funding model

Simplifies the current funding model for reimbursement for services provided through the Children's Services Act by consolidating the separate base and supplemental allocations into a single pool available to reimburse localities for eligible expenses. This change does not impact local match rates.

Allow for an hourly adult day health care rate

Provides authority for the Department of Medical Assistance Services to change the reimbursement methodology for adult day health care from a daily rate to an hourly rate. Any reimbursement rate adjustments must be budget neutral and not necessitate additional expenditures that exceed the amounts currently appropriated for this service.

Authorize final exempt authority to update reimbursement regulations

Provides authority to submit final exempt regulatory packages to repeal existing provider reimbursement regulations (12 VAC 30-70, 12 VAC 30-80, and 12 VAC 30-90) and replace them with text identical to the Medicaid state plan text in effect on March 1, 2025.

Clarify spending on mail room operations

Adds language to identify funding that was previously provided for mail room services. The 2024 General Assembly added funding for the Department of Medical Assistance Services to contract with a vendor to handle all incoming medical assistance-related mail currently directed to local departments of social services. Authority to reappropriate first year balances is also provided should implementation costs run into

Clarify the removal of cost sharing in existing Appropriation Act language

Clarifies that current Appropriation Act language prohibiting cost sharing in Medicaid applies to co-insurance and deductibles.

Clarify third party liability rules

Meets a federal requirement that Virginia has a rule in place to bar liable third-party payers from refusing payment solely on the basis that such item or service did not receive prior authorization under the third-party payer's rules. This policy has already been implemented by the Department of Medical Assistance Services and is not expected to have any fiscal or programmatic impact.

Increase payments for psychiatric and obstetric-gynecological graduate medical residencies

Increases graduate medical education supplemental payments for all qualifying psychiatric and obstetric-gynecological residencies to \$150,000 annually effective July 1, 2026. In addition, program language is updated to reflect the latest information on residency program cohorts.

Modify managed care contract language

Allows the Department of Medical Assistance Services to implement managed care changes in future contract amendments that are currently authorized as part of reprocurement. Language also allows for the competitive procurement of a foster care specialty plan and technical changes necessary to implement authorized behavioral health initiatives.

Update nursing facility reimbursement methodology

Modifies the nursing facility reimbursement methodology described in 12 VAC 30-90-44 to use a Patient-Driven Payment Model instead of Resource Utilization Groups. This change to reimbursement methodology will be implemented in a budget neutral manner no later than October 1, 2025.

Operating Budget Changes

Introduced Budget Technical Changes

Adjust vocational rehabilitation appropriation to reflect increase in grant revenue

Adjusts nongeneral fund appropriation to account for increased revenues in the agency's vocational rehabilitation division. The adjustment reflects the net increase to the federal formula grant award from the Rehabilitation Services Administration since 2020 and does not exceed the base award limit specified in the Appropriations Act. The adjustment also captures increases in average program income received from the Social Security Administration and in vocational rehabilitation grant revenue that is unrelated to the base award and does not require state matching funds.

Provide funding for additional legal assistance

Provides funding for outside legal counsel to increase the Office of the Attorney General's capacity to assist with drafting battlefield easements and conduct legal reviews of battlefield easements drafted by the Department of Historic Resources. It is anticipated that assistance will be needed for 18 to 24 months to address a backlog of easement processing.

Move pass-through funding to the first year

Redistributes a total of \$750,000.00 for the Jefferson School African American Heritage Center and the Center for Local Knowledge Programs and Black Women United for Action from the second year to the first year of the budget.

Modify tribal internship language

Expands allowable uses for funding to provide additional flexibility in its distribution while still serving the recognized needs of the Tribes. The expanded language allows the agency to use the funds to provide grants, consultation, and trainings in addition to paid internships. Currently, internships supported with the funds are for data collection activities.

Independent Agencies

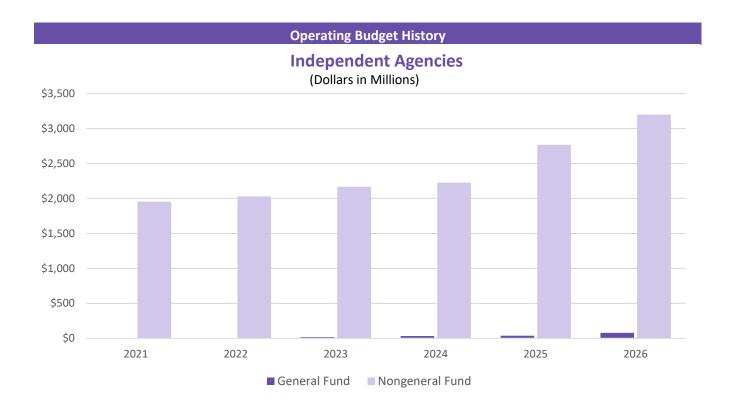

The five independent agencies in the Commonwealth do not report through any of the three branches of state government. They are, however, state agencies and receive their spending authority through the Appropriation Act.

The responsibilities of independent agencies include: protecting the interest of consumers by regulating various businesses; operating the state lottery; administering the Virginia Workers' Compensation Act and the Crime Victims Compensation Program; administering the statewide public employee retirement system; generating revenue through the responsible sale and regulation of alcholic beverages; administer Virginia' medical marajuana laws; and offering tax advantaged college savings programs to make college education more affordable.

Operating Budget Changes

Introduced Budget Technical Changes

Adjust appropriation to align with anticipated revenues and awards Adds additional nongeneral fund appropriation to reflect anticipated settlement revenues and awards to eligible parties. Additionally, language in the table for the Commonwealth Opioid Abatement and Remediation Fund (COAR) is updated to reflect an amendment to appropriate COAR funds in the Department of Education.

COMMONWEALTH OF VIRGINIA

EXECUTIVE AMENDMENTS TO THE 2024–2026 BIENNIAL BUDGET

PART C - OTHER REPORTS

GLENN YOUNGKIN GOVERNOR

AID TO LOCALITIES

The Code of Virginia requires the Governor's Executive Budget Document to show the, "amount of each primary agency's budget that represents direct aid to localities." In addition, the Department of Planning and Budget includes the recommended Aid to Local School Divisions.

The amount of aid supplied to localities benefits Virginia residents by funding the operations of public schools, police departments, and construction and maintenance of secondary roads. The salaries of local elected officials, such as treasurers, commissioners of the revenue, commonwealth attorneys, sheriffs, and clerks of court are funded by the state as well. Local sheriffs' offices and jails receive the largest share of state support for Constitutional officers. The Commonwealth also funds local social services and health departments, programs for community operated juvenile corrections, and for individuals with mental illness, intellectual disabilities, or substance abuse problems, and a wide range of local activities and services. These include local libraries, improvements to local airports, parks and recreation programs, local emergency services teams, litter control and recycling, and wastewater treatment plants. The majority of the money sent to localities goes to public schools.

The Commonwealth shares with local governments the revenue obtained from certain sources, such as recordation taxes and profits earned from the sale of alcoholic beverages.

In general, "state aid to localities" is defined as any payment made directly to a local government or school division; any payment made on behalf of a local government or school division, or any payment made to an organization or group that provides a direct benefit to a local government or its residents, such as a public library, planning district commission, or Community Services Board. However, state aid to localities excludes payments to local governments for the purchase of goods and services provided (such as surplus equipment, services rendered by a locality for rent, or utilities.)

State aid programs and activities are coded in the state's accounting system to be monitored and reported to the General Assembly and taxpayers. The tables that follow summarize the recommended aid to localities in the Governor's Executive Budget in two ways:

Aid to local school divisions:

Identifies the estimated funding distribution for each local school division for the state's share of programs in elementary and secondary education in the Governor's proposed budget.

Aid to localities by agency:

Summarizes the proposed funding given to localities by each state agency, with a total for each secretarial area. The total represents general and nongeneral funds, and reflect the Governor's proposed budget.
