Draw Schedule

Overview

The draw section module allows agencies to cash flow their estimated capital expenditures by project and fund code on a monthly basis for the expected life of the project. These estimates are used by Treasury to plan bond issuances that will be cost beneficial for the Commonwealth. The draw schedules are normally prepared in late summer after capital project review but may also be needed at other times during the year.

Quick Guide

AGENCY ANALYST

1. Mouse over the Capital Budget Functional Area menu item. Then, move your cursor over Capital Project Review and select Draw Schedule from the resulting dropdown menu. Once Draw Schedule is selected, the Draw Schedule tab will appear.

2. Complete the Draw Schedule tab as described in the Overview tab instructions.

3. Click Validate to confirm that all Business Rules have been satisfied.

4. Click Submit and select the appropriate action from the available options.

- **Continue Working** - Saves the Draw Schedule work item and returns it to the Available to be Claimed tab in the Work Tray for users with similar credentials to claim.

- **Submit for Agency Review** - Submits the Draw Schedule work item to the first level in the Agency Review workflow step.

  **NOTE:** This submit action will be displayed only if the selected Agency has assigned Agency Review steps.

- **Ready for DPB Bulk Submit** - Submits the Draw Schedule work item to the “holding area” for later submission to DPB in bulk.
NOTE: This submit action will be displayed only if the selected Agency does NOT have Agency Review steps.

- **Void Document** - Voids the Draw Schedule. The work item will be removed from the “Claimed Work Items” and “Available to be Claimed” tabs in the Work Tray, however the work item may still be accessed through the search feature within the Work Tray.

**Draw Schedule Tab**

**Overview**

The purpose of the Draw Schedule tab is to allow users to breakout their projected Capital Project expenditures by month and fund for the selected fiscal year.
Instructions

1. Click on the Draw Schedule tab.

2. Select the Agency of the capital project for which you would like to prepare a Draw Schedule. The active projects for the selected agency will be available for selection in the Project lookup list.

3. Select the Project of the capital project for which you would like to prepare a Draw Schedule.

4. Select the Fiscal Year the Draw Schedule will be conducted using the dropdown arrow within the Year field.

5. Select the Draw Schedule Version from the lookup list.

   In any given Draw Schedule work item there may be several different versions/rounds, make sure to verify you are using the correct version.

6. Select the Fund for which the projected expenditures will be entered in the Draw Schedule grid.

7. The Total Unexpended Budget field will be pre-populated with the total appropriated amount less the total LTD expenditures for the selected fund and capital project.

8. In the Draw Schedule grid, enter the Fiscal Year and monthly projected expenditures for each month (July – June).
9. The **Totals** field is a calculated field which is a sum of all of the expenditure values entered in each month within the Draw Schedule grid for the select fiscal year and fund.

```plaintext
The calculated value displayed within the **Totals** field cannot exceed the **Total Unexpended Budget** amount. The system will prevent users from submitting the Draw Schedule work item to the DPB Review step if this validation is not met.
