

2018-20 Strategic Plan

State Council of Higher Education for Virginia [245]

Mission

The State Council of Higher Education for Virginia (SCHEV) advocates and promotes the development and operation of an educationally and economically sound, vigorous, progressive, and coordinated system of higher education and leads state-level strategic planning and policy development and implementation based on research and analysis.

Vision

The State Council of Higher Education enhances Virginia's already-robust and vigorous higher education system by bringing the institutions together to collectively and collaboratively serve the goals, needs, and interests of the Commonwealth in a way that recognizes, utilizes, and maximizes the distinctive mission of each college and university. SCHEV is committed to ensuring that each institution performs at the highest possible level in terms of quality of instruction and service to students, while fostering an environment of innovative contributions to Virginians' economic and cultural prosperity through research and public service.

Values

Ethics refer to the moral guidelines for employee conduct. Values are the principles and ideals that help employees make judgments about what is most important. As leaders and employees of the Commonwealth and SCHEV, we are guided by ethics and values in our decision-making by:

- Fulfilling all professional duties with honesty and integrity and always acting in a trustworthy and responsible manner.
- Treating all individuals, groups and organizations with dignity and respect at all times.
- Embracing the diversity of people, perspectives and opinions that lead to increased collaboration and innovative thinking.
- Taking pride in the quality of our work, as well as committing to continuous improvement.
- Accepting responsibility and accountability for one's own actions and behaviors.
- Abiding by the Commonwealth's "Standards of Conduct for Employees" and related policies and procedures.

Finance

Financial Overview

The State Council of Higher Education (SCHEV) has a total budget in FY2020 of approximately \$116.6 million (93.7 percent from the general fund). The FY2020 total represents an increase of approximately \$11.5 million (10.9 percent) from the total for FY2019.

The majority of the general fund monies in SCHEV's budget actually flow through the agency as direct student financial assistance -- about \$92.45 million in FY2020. The FY2020 financial-assistance budget represents an increase of \$9.9 million (11.9 percent) from the total for FY2019. In FY2020, the Two-Year College Transfer Grant Program will receive an allocation of \$3.89 million, and the New Economy Workforce Credential Grant Program will receive allocations of \$13.5 million (an increase of \$4.0 million, or 42 percent, over FY2019). The largest student-assistance program is the Tuition Assistance Grant (TAG) program, which will receive \$71.1 million in FY2020.

Also from the general fund, \$9.2 million in FY2020 is provided to support the Virtual Library of Virginia (VIVA) project, and \$307,899 is provided to support the Virginia Women's Institute for Leadership at Mary Baldwin University.

Of SCHEV's \$116.6 million FY2020 budget total, only about \$7.24 million (6.2 percent) goes to support agency operations (staff salaries and fringe benefits, supplies and materials, contractual services, equipment, travel, rent, etc.).

Biennial Budget

	2019 General Fund	2019 Nongeneral Fund	2020 General Fund	2020 Nongeneral Fund
Initial Appropriation for the Biennium	97,787,040	7,277,153	100,251,939	7,277,153
Changes to Initial Appropriation	0	0	9,065,000	0

(Changes to Initial Appropriation will be 0 when the plan is created. They will change when the plan is updated mid-biennium.)

Customers

Anticipated Changes to Customer Base

No changes to the agency's customer base are anticipated in FY2020.

Current Customer List

Predefined Group	User Defined Group	Number Served	Potential Number of Annual	Projected Customer
------------------	--------------------	---------------	----------------------------	--------------------

		Annually	Customers	Trend

Partners

Name	Description
Southern Regional Education Board (SREB)	The SREB operates the Stephen J. Wright Scholars Program, which is a scholarship program for minority students pursuing doctoral degrees; the agency facilitates Virginia's participation in the program.
Dominion Foundation	The foundation underwrites the Virginia Outstanding Faculty Awards (OFA) Program (plaques and monetary gifts), the ceremony, and publicity; the agency administers the program annually.
U.S. Department of Education	The department awards the funds for the Improving Teacher Quality (ITQ) grant and the GEAR UP grant. The ITQ grant is a component of the No Child Left Behind (NCLB) Act; the agency oversees the awarding of these funds, which encourage colleges to work with school systems to improve teaching and administration in secondary schools. As administrator of Virginia's GEAR UP grant, agency staff work with K-12 students in high-poverty school districts to educate them about and prepare them for postsecondary education and training.

Agency Goals

• Promote the strategic management of Virginia's system of higher education.

Summary and Alignment

The State Council of Higher Education for Virginia's primary mission is to promote the continuous improvement of the Commonwealth's nationally recognized higher education system through state-level strategic planning, coordination and collaboration that recognize the individual missions of the institutions while reflecting and meeting the needs and goals of the Commonwealth as a whole. Virginia statute clearly defines the educational goals and objectives that SCHEV and the public institutions must address, and SCHEV's new state-wide strategic plan articulates broad goals and strategies for the system and the Commonwealth. Many of the duties and activities inherent in this goal are codified in Virginia law. This goal is consistent with SCHEV's mission to promote the development and operation of a sound, vigorous, progressive, and coordinated system of higher education. Ultimately, the responsibility for planning and execution of these duties and responsibilities rests with the Council, which is comprised of 13 members appointed by the Governor. The Council hires a director for the state agency known as SCHEV, which carries out the Council's directives and its mandated activities.

Associated State Goal

Education: Elevate the levels of educational preparedness and attainment of our citizens.

Associated Societal Indicator

Educational Attainment

Objectives

» Promote the strategic management of Virginia's system of higher education.

Description

This objective promotes strategic management through SCHEV's leadership of key constituencies, thereby creating a comprehensive strategic plan for Virginia's higher education system that harnesses multiple resources and that: 1) meets student needs and the Commonwealth's vital interests; 2) promotes the effective coordination of systemwide and institutional academic, financial, and enrollment plans; and 3) serves as a catalyst for policy implementation and collaboration. In Fall 2014 SCHEV staff produced and the Council approved a new statewide strategic plan for Virginia higher education through 2030. The plan sets four goals: 1) provide affordable access for all; 2) optimize student success for life and work; 3) drive change and improvement through investment and innovation; and 4) advance the economic and cultural prosperity of the Commonwealth and its regions. Additional information on the statewide strategic plan is available on the SCHEV website, www.schev.edu.

Objective Strategies

- Develop the statewide strategic plan for Virginia higher education, including goals, strategies, initiatives and performance targets and

measures, and then monitor progress toward achievement of the plan's goals.

Measures

- ◆ Number of public institutions of higher education certified by SCHEV as having met all education-related, financial and administrative performance targets as defined in the Higher Education Opportunity Act and the Appropriation Act.
- ◆ Number of students who complete their credentials on-time.
- ◆ On-time (by November 1) transmission of "cost of education" calculations to the Governor, General Assembly, and public colleges and universities.
- ◆ Percent (level) of overall satisfaction with the agency's annual educational orientation for recent appointees to the governing boards of the public institutions of higher education as reported by attendees.

» **Advocate the interests of Virginia higher education**

Description

SCHEV strives to advocate the interests of Virginia higher education by: 1) communicating higher education interests through research-based reports, public briefings and hearings, and electronic and other communication devices; 2) preparing and presenting testimony on pending legislation affecting higher education, particularly regarding SCHEV priorities (e.g., access, affordability, transfer and articulation, research, etc.) that results in adoption or rejection of advocacy principles; and 3) developing empirically-based resource allocation models to determine the adequacy of the existing funding structure of higher education in Virginia (e.g., base operating adequacy, faculty salary benchmarks, capital outlay space needs assessment, etc.). Further, SCHEV advocates the interest of Virginia higher education by presenting formal funding recommendations to the Governor and General Assembly based on the results of these models.

Objective Strategies

- Develop the roadmap and funding model to support policies established in the Higher Education Opportunity Act of 2011 in order to enable the Governor and the General Assembly to base the biennial budget on the new funding model and policies, thereby aligning ongoing higher education investment with the reform and innovation objectives of statute.

Measures

- ◆ On-time (by November 1) transmission of budget recommendations to the Governor and General Assembly.

» **Enhance the six-year planning and review process to assist state-level and institutional-level determinations regarding higher education policies.**

Description

SCHEV staff coordinates the production, submission and review of public institutions' six-year plans, which the Code of Virginia requires the institutions' boards to develop and adopt in odd-numbered years and to affirm or amend in even-numbered years. Traditionally, these plans include information on planned: (i) academic initiatives (and associated costs); (ii) increases in tuitions and fees (and estimates of non-general fund revenues); and (iii) allocations of student financial aid (including any allocation of tuition revenue thereto); as well as reports of past-year information on research expenditures and intellectual property.

Objective Strategies

- Develop, in collaboration with the group of state officials designated statutorily as reviewers of public institutions' six-year plans, the template for these plans; distribute the template to the institutions and respond to their questions; receive the plans; distribute the submitted plans to the reviewers; schedule meetings between the reviewers and each institution; facilitate/lead each meeting and produce reviewers' feedback in written form; submit this feedback to each institution; receive institutions' responses to the feedback and any updates or amendments to the plans; and communicate these updates, amendments or the lack thereof to the reviewers.

Measures

» **Advance non-public postsecondary education in the Commonwealth through the effective and efficient regulation of certain private and all out-of-state institutions.**

Description

SCHEV strives to effectively and efficiently regulate: (1) all for-profit postsecondary entities; (2) all new non-profit postsecondary entities; and (3) all out-of-state postsecondary entities that seek to operate (initially and continually) in the Commonwealth.

Objective Strategies

- Review non-public postsecondary educational entities' initial and continued eligibility to operate in the Commonwealth.

Measures

- ◆ Average number of processing days until our formal response to applicants' initial requests for certification to operate in Virginia.

- **Maximize higher education access and affordability for all qualified citizens.**

- Summary and Alignment**

- SCHEV is committed to supporting the investment of higher education funds so as to maximize the benefits of financial resources for all students seeking postsecondary education. In addition, SCHEV supports policies that optimize the effective use of financial resources to minimize costs to students.

- Objectives**

- » **Maximize higher education access and affordability for all qualified citizens.**

- Description*

- SCHEV strives to maximize access and affordability through: (a) administration of need-based and nonneed-based financial aid programs; and (b) identification of and reporting on the impacts of educational-costs increases on student financial need.

- Objective Strategies*

- Advocate for increased allocations to support needy students in Virginia's public and private nonprofit institutions of higher education.

- Measures*

- ◆ Amount of annual allocation of state funds for student financial aid.

- » **Maximize educational options.**

- Description*

- Through administration of the Tuition Assistance Grant (TAG) program, SCHEV strives to ensure that financial aid provides Virginia's students with the ability to consider private institutions.

- Objective Strategies*

- Advocate for increased allocations to support larger per-student awards for qualifying Virginia residents attending eligible private, nonprofit institutions of higher education in the Commonwealth.

- Measures*

- ◆ Amount of annual TAG (Tuition Assistance Grant) appropriation per eligible student

- » **Maximize allocation of available funds to qualified students for financial assistance.**

- Description*

- Through administration of appropriations for "regional financial assistance for education," SCHEV strives to assist students who: (a) attend colleges of optometry; and (b) participate in the Stephen J. Wright Scholars Program of the Southern Regional Education Board (SREB), which is a scholarship program for minority students pursuing doctoral degrees.

- Objective Strategies*

- Award all available funds to eligible students.

- Measures*

- ◆ Amount of available funds awarded annually to qualified applicants.

- **Promote and convey progress toward state goals for educational attainment and workforce development.**

- Summary and Alignment**

- SCHEV collaborates with public and private institutions of higher education to develop enrollment projections and estimates for credential awards (degrees and non-degree workforce credentials). The agency also assists institutions with efforts to improve students' educational attainment and workforce readiness, and it reports on progress toward relevant goals set by the Governor and General Assembly.

- Associated State Goal**

- Education: Elevate the levels of educational preparedness and attainment of our citizens.

- Associated Societal Indicator**

- Lifelong Learning

- Objectives**

- » **Develop system capacity.**

- Description*

- SCHEV strives to develop system capacity by producing college and university enrollment projections, degree estimates, non-degree workforce credential estimates and economic-opportunity scorecards that are consistent with institutional six-year plans, performance measure responses and the goals of the Governor and General Assembly.

Objective Strategies

- Develop and administer processes that enable institutions of higher education to communicate their projections and estimates to SCHEV and state policymakers in ways that are timely and conducive to executive- and legislative-branch planning and resource-allocation decisions.

Measures

- ◆ Number of economic-opportunity scorecards for non-degree workforce credentials developed.
- ◆ Percent of enrollment projections that are accurate.
- ◆ Percent of institutions' aggregated degree estimates that are accurate.

• **Coordinate and enhance the federal programs that support Virginia's postsecondary education system.**

Summary and Alignment

The purpose of the "No Child Left Behind Act of 2001, Title II, Part A, Improving Teacher Quality State Grants," is to increase the academic achievement of all students by helping schools and school districts improve teacher and principal quality and ensure that all teachers are highly qualified. SCHEV is responsible for competitively administering federal grants to institutions of higher education that partner with local school districts to support this purpose. The purpose of the GEAR UP program is to increase the awareness and readiness of low-income school childhood for postsecondary education and training. This goal is consistent with SCHEV's mission to promote the development and operation of an educationally and economically sound, vigorous, progressive, and coordinated system of higher education.

Associated State Goal

Education: Elevate the levels of educational preparedness and attainment of our citizens.

Associated Societal Indicator

Educational Attainment

Objectives

- » **Administer federal grants efficiently, in accordance with federal requirements.**

Description

SCHEV strives to efficiently administer two federal grant programs: 1) the Title II, No Child Left Behind (NCLB) Act grant, which seeks to improve the quality of teachers and principals in grantee-selected schools; and 2) the Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP) grant, which seeks to increase the awareness and readiness of low-income school childhood for postsecondary education and training.

Objective Strategies

- Ensure that federal funds are expended efficiently and in accordance with all state and federal requirements.

Measures

- ◆ Rate of compliance with the reporting requirements of the federal GEAR UP program.
- ◆ Rate of compliance with the reporting requirements of the federal Improving Teacher Quality State Grant (Title II, No Child Left Behind Act of 2001) program.

• **Maximize productivity through the efficient use of resources.**

Summary and Alignment

SCHEV strives to maximize productivity through the efficient and effective use of resources in the administration of the agency's budget and finance functions, while adhering to all applicable state laws and regulations.

Objectives

- » **Ensure that resources are used efficiently and programs are managed effectively, and in a manner consistent with applicable state and federal requirements.**

Description

SCHEV strives to be efficient and effective in its use of resources in the administration of the agency's budget and finance, human relations, and facilities management functions.

Objective Strategies

- Enhance the productivity and efficiency of state government operations.

Measures

- ◆ Percent of compliance (annually) with the Small Purchase Charge Card (SPCC) program. Maximized compliance with SPCC requirements maximizes the associated cost savings for the Commonwealth.
- ◆ Percent of vendor invoices paid on or before the "required payment due date" (as defined in Virginia's Prompt Payment Statutes) annually.

Major Products and Services

As a coordinating body, SCHEV serves as a reliable source of accurate data, objective information, and policy expertise to elected and appointed officials, students, families, colleges and universities, media, and the public. SCHEV's statutory authorities and responsibilities include:

- ○ Development of a statewide strategic plan for higher education at least every six years (the current plan was approved in fall 2014);
- Policy guidance and recommendations to the Governor and General Assembly regarding capital and operating budget planning, faculty salaries, college/university equipment and technology needs, performance and innovation incentive funding, and financial aid;
- Certification of public institutions' performance on various education-related state goals and measures;
- Oversight of the Commonwealth's need-based and non-need-based student financial aid programs;
- Approval of various academic matters at public colleges/universities, such as new mission statements, degree levels, degree programs, and certain organizational changes;
- Review and potential discontinuance of public-institution degree programs deemed to be unproductive and/or unnecessarily duplicative;
- Review and approval of public and private institutions' enrollment projections and degree estimates;
- Administration of the Virginia Longitudinal Data System;
- Provision of educational training programs for new appointees to public institutions' governing boards;
- Provision of advisory services to private, nonprofit institutions;
- Regulation of proprietary and out-of-state postsecondary entities that seek to begin or continue operating in Virginia;
- Administration of various federal grants; and
- Development of the Commonwealth Research and Technology Strategic Roadmap and staff support to the Virginia Research Investment Committee.

Performance Highlights

The SCHEV Council and its staff perform excellently their responsibilities for: (a) developing calculations and recommendations regarding significant components of the higher education system; and (b) transmitting this mandated information in a useful and timely manner to the Governor and General Assembly. The agency performs similarly well in its responsibilities to project accurately future student enrollment and degree production and to advocate for funds for student financial aid and assistance.

Staffing

Authorized Maximum Employment Level (MEL)	63
Salaried Employees	42
Wage Employees	11
Contracted Employees	0

Key Risk Factors

The key risk factors most likely to impact the agency over the next few years are related to funding, workload and staffing, and to the interplay of the three. Multiple budget cuts this century have reduced significantly the agency's operating budget, thereby impacted the agency's ability to procure supplies, materials, and equipment; to fund staff professional development and work-related travel; and to contract for certain services. The efforts of both the SCHEV Council and its staff are complicated by a changing and growing agency workload. The number and complexity of the agency's legislatively-mandated responsibilities expanded in recent years, often without a corresponding increase in staffing. The agency's full-time workforce has grown only marginally since January 2012. Moreover, about half of all current full-time employees joined the agency between January 2012 and May 2019. As a result, the SCHEV Council and its staff continue to explore ways to focus agency human and fiscal resources more strategically in an effort to mitigate current and future risks. The statewide strategic plan, *The Virginia Plan for Higher Education*, serves as a guide for this strategic re-focusing.

Management Discussion

General Information About Ongoing Status of Agency

The future direction of the agency will be charted largely by the priorities of the 13-member SCHEV Council, the goals of its statewide strategic plan, and evolving statutory responsibilities. SCHEV recently undertook a review of agency responsibilities and processes in order to better align its processes and personnel with the needs of the Commonwealth and the goals of the new statewide strategic plan for higher education.

Information Technology

At this time, agency staff are not aware of any external factors, requirements or mandates that will necessitate non-routine IT investments in the foreseeable future. Most agency desktop computers have been updated in the past two years.

Estimate of Technology Funding Needs

Workforce Development

In recent years, expanding workloads and expectations have outpaced growth in the number of SCHEV's approved staff positions. Some approved positions remain vacant due to funding issues, and retirements may become an issue for the relatively small agency over the next few years. To address current and potential workforce issues, the agency is: (a) restarting efforts to improve the knowledge, skills, and abilities of current staff through tuition-assistance programs and other professional development opportunities, such as the Commonwealth Management Institute, the Virginia Executive Institute, Lead VA, and professional conferences; and (b) continuing to seek maximum alignment between current staff and the future needs of the higher education system.

Physical Plant

Office space leased on the 9th and 10th floors of the James Monroe Building adjacent to Capitol Square in Richmond provides SCHEV with area, functionality, and accessibility that are adequate for its needs.

Scholarships [10810]

Description of this Program / Service Area

Activities in this service area are designed to ensure that state need-based student aid mitigates the financial barriers faced by Virginia’s neediest students and families, and to ensure that the projections for student financial need at public institutions are accurate. This service area also includes the administration of several non-need-based financial assistance programs as required by law.

Mission Alignment

Student financial aid and assistance are key components of the mission of the State Council of Higher Education for Virginia (SCHEV) to develop and maintain an economically sound system of higher education.

The Code of Virginia (COV) assigns responsibility to SCHEV for administration of the state's student financial aid and assistance programs throughout Articles 1-7 (§ 23.1-600 -- § 23.1-642) of Chapter 6 of Title 23.1.

Products and Services

Description of Major Products and Services

SCHEV administers numerous programs that provide student financial aid and assistance on behalf of the Commonwealth. The largest of these programs include:

- Tuition Assistance Grant (TAG) Program
- Two-Year College Transfer Grant Program
- New Economy Workforce Credential Grant Program
- Virginia Military Survivors and Dependents Education Program
- Virginia Space Grant Consortium Scholarships
- Cybersecurity Public Service Grant Program
- Grow Your Own Teacher Scholarship (pilot) Program

Grow Your Own Teacher Scholarship (pilot) Program	Chapter 854 (2019 Acts of Assembly), Item 141.L.		Required	240,000	0

Anticipated Changes

None

Factors Impacting

As the Commonwealth's demographics change, more students from traditionally-underserved populations are entering higher education. These students often are more likely than traditional-population students to qualify for need-based financial aid. Also, students in general are qualifying for larger per-student awards of need-based aid. These trends, coupled with the creation of new student-aid programs, are the main factors that impact SCHEV's work in this area.

Financial Overview

For Virginia's various student-aid programs, the Commonwealth allocated \$92.45 million GF in FY2020, which is the highest amount ever provided for student financial assistance.

The Two-Year College Transfer Grant Program receives an allocation \$3.89 million GF in FY2020. This program provides an affordable pathway for a Virginia resident to begin their postsecondary education at a public two-year college, and upon successful completion of an associate's degree and having met all eligibility criteria, receive a grant to fund a portion of their costs when they transfer to an eligible public or private nonprofit four-year institution of higher education in the Commonwealth.

In FY2020, the New Economy Workforce Credential Grant Program receives allocations of \$13.5 million GF, an increase of over 40 percent (\$4.0 million) over FY2019. This program expands low-cost opportunities for students to receive training in high-demand fields and earn industry-based certifications or state licensure. Students pay only 1/3 of the cost of the program upon enrollment. Students who fail to complete the training program must pay an additional 1/3 of the cost.

Regional Financial Assistance for Education [10813]

Description of this Program / Service Area

Activities in this service area are designed to provide financial assistance to qualified in-state students for their participation in two programs offered by the Southern Regional Education Board (SREB). The first program, the Stephen J. Wright Scholars Program, fosters scholarship among the Commonwealth's graduate students, particularly minority students in doctoral-degree programs, and seeks to retain them as faculty at Virginia colleges and universities following graduation. The second program provides grants to assist Virginia residents in studying optometry, which is not offered by any Virginia public universities, at universities in the SREB region. Optometry-grant recipients must agree to practice optometry in the Commonwealth for at least two years following graduation.

Mission Alignment

Student financial assistance is a key component of the mission of the State Council of Higher Education for Virginia (SCHEV) to develop and maintain an economically sound system of higher education.

The Code of Virginia (COV) assigns responsibility to SCHEV for administration of the Stephen J. Wright Scholars Program for minority doctoral students in § 23.1-616. The state budget (Chapter 854 the 2019 Acts of Assembly) assigns responsibility to SCHEV for administration of the optometry-grants program in Item 141.C.3 and for the Wright Scholars program in Item 141.E.

Financial Overview

In each year of the biennium, \$170,000 is designated to support Virginia's participation in the Stephen J. Wright Scholars Program, which is the Commonwealth's affiliate of the SREB Doctoral Scholars Program; both programs seek to increase the number of minority doctoral students and to encourage them become faculty members in their home states following graduation.

An additional \$20,000 is designated in each year of the biennium for grants of up to \$5,000 per year to assist Virginia residents in pursuing optometry degrees at participating southern-region universities through the SREB Academic Common Market, because no Virginia universities offer optometry.

Outstanding Faculty Recognition [11009]

Description of this Program / Service Area

Activities in this service area enhance the visibility of Virginia's outstanding faculty and improves their morale.

The Virginia Outstanding Faculty Awards (OFA) were created in 1986 and remain the only state-level faculty-recognition program in the nation. The State Council of Higher Education for Virginia (SCHEV) administers the nomination-review and recipient-selection process each year. The OFA ceremony, luncheon and awards are underwritten by the Dominion Foundation. The Governor participates in bestowing the awards on the 13 recipients each February.

Each public or private institution of higher education headquartered in Virginia may nominate at least one faculty member for these awards each fall; the maximum number of nominees per institution is determined by its size. Nominees are assessed on their teaching, research and public service. About 100 nominations are received each year and overgo a two-part process in which, first, all nominees are reviewed by panels of peer-experts in their fields, and then those scoring highest are reviewed by a final selection committee of state academic, business and community leaders.

Mission Alignment

By recognizing annually Virginia's outstanding postsecondary faculty, at no cost to the taxpayer, SCHEV improves the morale among our educators, thereby providing a positive workplace environment on the Commonwealth's campuses and fulfilling SCHEV's mission to promote the development and operation of an educationally and operationally sound, vigorous, progressive, and coordinated system of higher education.

The Appropriation Act (Chapter 2 of the 2018 Acts of Assembly), in Item 142, assigns responsibility to SCHEV to select annually the recipients of the Outstanding Faculty Recognition Awards from public and private institutions of higher education and to provide the selected honorees with grants from the private funds designated for these purposes.

Products and Services

Description of Major Products and Services

SCHEV typically bestows 13 awards each year; however, the number is dependent on the amount of private funding available. At least one award is conveyed each year to an early-career Rising Star. Each award consists of a plaque or trophy and a check, usually in the amount of \$5,000. Recipients and their families attend a ceremony and luncheon in Richmond.

Virginia Outstanding Faculty Awards (OFA) Program	Chapter 2 (2018 Acts of Assembly), Item 142		Required	0	75,000

Anticipated Changes

None

Factors Impacting

As a privately-funded activity, this service area is impacted by the availability (or lack thereof) of a source of private funds and the amount of annual funding provided by that source, as well as the funder's expectations about the program.

Financial Overview

The Virginia Outstanding Faculty Awards program is funded entirely from private contributions. The Dominion Foundation has been the source of these private funds since 2005.

Higher Education Coordination and Review [11104]

Description of this Program / Service Area

Activities in this service area encompass the various roles and duties that the State Council of Higher Education for Virginia (SCHEV) fulfills in its capacity as the Commonwealth's academic, fiscal, and facility planning and coordinating agency for Virginia postsecondary education.

Mission Alignment

As set forth in the Code of Virginia, this service area is the cornerstone of SCHEV's mission to "advocate and promote the development and operation of an educationally and economically sound, vigorous, progressive, and coordinated system of higher education in the Commonwealth of Virginia and to lead state-level strategic planning and policy development and implementation based on research and analysis The Council shall also seek to facilitate collaboration among institutions of higher education that will enhance quality and create operational efficiencies and shall work with institutions of higher education and their boards on board development."

The Code of Virginia (COV) assigns responsibility to SCHEV for coordination, review and planning of higher education in multiple statutes, including:

- § 23.1-203 -- Duties of Council (30 responsibilities are enumerated, including multiple duties related to academic programs, policies and organizational units at public colleges and universities)
- § 23.1-204 -- Post-graduation employment rates
- § 23.1-206 -- Assessment of performance of public institutions
- § 23.1-208 -- Budget requests and recommendations
- § 23.1-209 -- Reports of expenditures of state funds
- § 23.1-310 -- Assessment and certification of institutions by the Council

- § 23.1-3133 -- Assist the Virginia Research Investment Committee (VRIC) with awards from the Virginia Research Investment Fund (VRIF)

Products and Services

Description of Major Products and Services

To fulfill its mission, SCHEV makes higher education public policy recommendations to the Governor and General Assembly in such areas as capital and operating budget planning, enrollment projections, institutional technology needs, and student financial aid. SCHEV considers proposals from public colleges and universities on various academic and organizational matters, and it administers a variety of educational programs that benefit students, faculty, parents, and taxpayers. SCHEV serves as a catalyst to promote greater access, quality, affordability, and accountability throughout the system. SCHEV also helps policymakers, college administrators, and other concerned leaders work cooperatively and constructively to advance educational excellence.

The Virginia Plan for Higher Education, developed by SCHEV in 2014 as the strategic plan for postsecondary education in the Commonwealth, posits four broad goals with an overarching target of making Virginia the best-educated state by the year 2030. The plan is accessible at www.schev.edu/index/statewide-strategic-plan/.

Anticipated Changes

None

Factors Impacting

The agency's products and services may be impacted by:

- Executive and legislative initiatives
- General fund appropriations for operations
- Staff retention/turnover
- Ad hoc assignments
- Pending staff retirements.

Financial Overview

In FY2020, SCHEV is appropriated \$7.38 million for its statutory efforts in higher education coordination and review, including funds specifically for the Virginia Longitudinal Data System, enhanced consumer information, a new student-loan ombuds function and the Commonwealth Research and Technology Strategic Roadmap. New in FY2020 are two programs the funds for which will pass through SCHEV: a statewide internship program (\$700,000) and a one-time allocation of \$750,000 for a survey of graduates of public colleges and universities.

Regulation of Private and Out-of-State Institutions [11105]

Description of this Program / Service Area

Activities in this service area seek to advance postsecondary education (non-public) in the Commonwealth and to ensure consumer protection of our citizens through the regulation of private and out-of-state institutions.

Mission Alignment

By monitoring the legitimacy and viability of some non-profit and all for-profit and out-of-state institutions operating in Virginia, the State Council of Higher Education for Virginia (SCHEV) expands the educational opportunities for all citizens of the Commonwealth. This activity is a major component of SCHEV's goal to maximize higher education access and affordability.

The Code of Virginia (COV) assigns responsibility to SCHEV for the regulation of certain private and out-of-state postsecondary-education entities in Article 3 (§ 23.1-213 -- § 23.1-230) of Chapter 2 of Title 23.1. The Virginia Administrative Code (VAC) articulates the regulations and fee structures to be enforced by SCHEV in 8 VAC 40-31-260.

Products and Services

Description of Major Products and Services

For educational entities required by statute to be certified to operate in Virginia, SCHEV reviews and approves or disapproves each entity's application for a Certificate to Operate; SCHEV reviews and renews or denies renewal of these Certificates to Operate annually; and SCHEV issues suspensions or revocations of Certificates to Operate based on the findings of both scheduled and unannounced audits of certified entities. SCHEV also maintains a Student Tuition Guarantee Fund to ensure that students can recoup some of their tuition if their institution closes unexpectedly, as well as a repository of student records from educational entities that have closed. SCHEV responds to complaints received in writing about all public and private postsecondary entities in the Commonwealth.

Regulation of certain private and/or proprietary or out-of-state postsecondary entities.	COV § 23.1-213 through 230; and Chapter 854 (2019 Acts of Assembly), Item 141.D.	8 VAC 40-31-260	Required	0	1,251,727

Anticipated Changes

None

Factors Impacting

Factors that impact the agency's ability to provide certification, renewal, and suspension/revocation services include the number of applications received for initial certification each year, the number of postsecondary educational entities eligible to have their certifications renewed each year, and the number of such entities audited by the agency and found to be seriously deficient each year, thereby warranting suspension or revocation of their certifications. Some suspensions/revocations result from student complaints, the volume of which can also impact the agency's provision of these services, as SCHEV is legally obligated to investigate all written complaints.

Financial Overview

Per statute (§ 23.1-224), SCHEV's work in this service area is supported completely by nongeneral funds in the form of fees assessed to the 100+ degree-granting institutions and 130+ career and technical schools that operate in the Commonwealth. As articulated in the Virginia Administrative Code (8 VAC 40-31-260), the initial fee for a new career/technical school is \$2,500; for a new degree-granting school, \$6,000. Renewal fees vary according to each entity's prior-year tuition and fee amounts, and are either \$250, \$1,000, \$2,500, \$4,000 or \$5,000. Also, entities that have not yet secured accreditation from an accrediting body recognized by the U.S. Department of Education are assessed an additional annual fee -- \$2,500 for unaccredited career/technical schools and \$6,000 for unaccredited degree-granting institutions. Additional fees may be charged for various other services as permitted and delineated in the regulations. In addition to funding SCHEV's expenses in regulating these certified entities, the fees also fund a Student Tuition Guarantee Fund, which is used to reimburse some or all of students' tuitions when their institutions close unexpectedly. The state budget allocates \$190,000 in each year of the biennium for this Fund.

Higher Education Federal Programs Coordination [11201]

Description of this Program / Service Area

Activities in this service area support the work of the State Council of Higher Education for Virginia (SCHEV) to coordinate federal programs on behalf of the Commonwealth. Specifically, this service area involves administration of the Improving Teacher Quality State Grants program (which is part of Title II, Part A of the No Child Left Behind Act of 2001). The purpose of these grants is to increase the academic achievement of all students by helping secondary schools and school districts improve teacher and principal quality and ensure that all teachers are highly qualified. SCHEV awards these grants to institutions of higher education that partner with local school districts to support this purpose.

Mission Alignment

Via this federal grant program, SCHEV assists in improving secondary-school teacher and principal quality, which improves the preparation that Virginia youth receive for postsecondary education. Therefore, students can achieve more, and fewer public resources are expended on remedial education, which renders the higher-education system more educationally and economically sound. This outcome is consistent with SCHEV’s mission to promote the development and operation of an educationally and economically sound, vigorous, progressive, and coordinated system of higher education.

The Code of Virginia (COV) assigns SCHEV responsibility to carry out federal requirements in § 23.1-205.

Products and Services

Description of Major Products and Services

Each year, SCHEV may award up to 10 professional-development projects proposed by institutions of higher education with secondary schools or school systems; the maximum award is \$250,000. In most years, seven or eight awards are made on a competitive basis, usually in the \$50,000-\$200,000 range.

Products / Services					
Product / Service	Statutory Authority	Regulatory Authority	Required Or Discretionary	GF	NGF
Professional-development grants to institutions of higher education to improve K-12 teacher quality	COV § 23.1-205; and Chapter 854 (2019 Acts of Assembly), Item 144		Required	0	2,440,426

Anticipated Changes

None

Factors Impacting

Factors that impact the grant awards include the number of applications, the amount of funds sought by the applicants, and the amount of funds available from the U.S. Department of Education to make awards.

Financial Overview

SCHEV is authorized to award new grants and to continue existing grants to improve K-12 teacher quality using nongeneral funds (in this case, federal funds) up to \$2.44 million in each year of the biennium.

Early Awareness and Readiness Programs [17117]

Description of this Program / Service Area

Activities in this service area also support the work of the State Council of Higher Education for Virginia (SCHEV) to coordinate federal programs on behalf of the Commonwealth. Specifically, this service area involves administration of the federal GEAR UP grant and scholarship program. The Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP) program is an initiative of the U.S. Department of Education to help cohorts of students who attended low-income school districts in 2014-15 to learn about and prepare for postsecondary education and/or training. SCHEV has administered Virginia's current GEAR UP grant since 2014 (a prior grant ended in 2012).

The goals of GEAR UP Virginia (GUV) are to: 1) increase the academic performance and college preparation of GUV students; 2) increase the number of students in rigorous courses; 3) increase knowledge of college and financial aid among students and their families; 4) improve college readiness rates; and 5) increase college enrollment rates. GUV currently serves 4,307 secondary-school students in 15 low-income school districts and up to 50 Priority Population homeless students annually for six years (up to 300 total).

Mission Alignment

By increasing the rate at which students from low-income families who attend participating Virginia middle schools persist through high-school graduation and enroll in college, SCHEV is furthering the progressiveness of Virginia's system of higher education, which is a component of the agency's mission. The GEAR UP program also contributes to the agency's goals of promoting access to and preparation for postsecondary opportunities for Virginia's youth.

The Code of Virginia (COV) assigns responsibility to SCHEV to carry out federal requirements in § 23.1-205.

Products and Services

Description of Major Products and Services

GUV services include: 1) tutoring and mentoring; 2) summer programs to promote transition to high school and, later, transition to college; 3) professional development for teachers in core academic areas; 4) college and financial aid awareness workshops for students/parents; 5) visits to a variety of colleges; 6) counseling and advising related to college and career; 7) academic services in high school so that students do not need remediation in college; and 8) outreach to help high school graduates as they transition to postsecondary education.

Through the GEAR UP Scholarship program, GUV students are eligible to receive a one-time award of up to \$2,000 and no less than \$600 for one term, depending on their college enrollment level (full-time, three-quarter-time, half-time, and less than half-time).

In-school and after-school programs and scholarships to increase college-going and success of low-income students currently in middle and high schools.	COV § 23.1-205; and Chapter 854 (2019 Acts of Assembly), Item 145		Required	0	3,000,000

Anticipated Changes

None

Factors Impacting

The primary factor impacting SCHEV's ability to provide GUV services is the availability of ongoing federal funding.

Financial Overview

SCHEV is authorized to expend up to \$3 million in nongeneral funds (in this case, federal funds) in each year of the biennium to support the Commonwealth's efforts (in-school and after-school programs and scholarships) to increase students' college enrollment and success and to transform the lives of low-income families and their communities via this program.

Distance Learning and Electronic Classroom [18602]

Description of this Program / Service Area

Activities in this service area support the efforts of the State Council of Higher Education for Virginia (SCHEV), as the Commonwealth's statutory authorizing body for these purposes, to enter into interstate reciprocity agreements that ensure that Virginia institutions of higher education providing distance education in other states, as well as non-Virginia institutions providing distance learning in the Commonwealth, do so in compliance with federal requirements.

The U.S. Department of Education requires institutions of higher education that provide distance learning in states other than their home state to seek and receive an authorization to operate from each of these other states. To manage their authorization processes, most states have entered into interstate reciprocity agreements whereby authorizations are granted state-by-state rather than institution-by-institution. SCHEV is the authorizing body for the Commonwealth and coordinates and administers the Virginia State Authorization Reciprocity Agreement (V-SARA) through the Southern Regional Education Board (SREB) and the National Council on State Authorization Reciprocity Agreements (NC-SARA). Virginia institutions pay fees, based on their enrollments, for their authorization by SCHEV.

Mission Alignment

This activity aligns with SCHEV's mission to promote the operation of an economically sound, vigorous, progressive, and coordinated system of higher education by minimizing the resources (financial, human and time) that otherwise would be expended by Virginia's institutions of higher education in each's individual pursuit of authorization from all the other states in which it operates, as well as the public resources SCHEV would otherwise expend in considering individual authorization requests from each of the many non-Virginia institutions that operate here. The activity also provides enhanced quality assurance and consumer protection to Virginia residents who enroll in distance-learning programs from other member-states' institutions.

The Code of Virginia (COV) assigns responsibility to SCHEV for developing and entering into interstate reciprocity agreements for distance education in § 23.1-211.

Products and Services

Description of Major Products and Services

The major services provided by SCHEV in this area are: 1) approval of Virginia institutions to participate in the Virginia State Authorization Reciprocity Agreement (V-SARA); 2) maintenance of the V-SARA; and 3) coordination of Virginia's eligibility for and participation in the National Council on State Authorization Reciprocity Agreements (NC-SARA).

Since October 2014, sixty (60) Virginia institutions that offer distance-learning programs beyond the borders of the Commonwealth have sought and received authorization from SCHEV. These authorized institutions include 13 (of the 15) public, four-year institutions, 14 (of the 23) public community colleges and 33 private, four-year institutions.

Financial Overview

SCHEV's costs for coordinating and administering this service area are covered completely by nongeneral funds in the form of fees assessed to authorized Virginia institutions. These fees are based on authorized institutions' enrollments: \$1,000 for those with fewer than 2,500 full-time-equivalent (FTE) students; \$2,000 for those with 2,500-9,999 FTE students; and \$3,000 for those with 10,000 or more FTE students. SCHEV may expend up to \$100,000 of these nongeneral funds in each year of the biennium to support these distance-learning reciprocity activities.
