Mission and Vision

Mission Statement

VDSS: People helping people triumph over poverty, abuse and neglect to shape strong futures for themselves, their

Vision Statement

VDSS envisions a Commonwealth in which individuals and families have access to adequate, affordable, high quality human/social services that enable them to be the best they can.

Executive Progress Report

Service Performance and Productivity

• Summary of current service performance

The Virginia Department of Social Services (VDSS) touches the lives of one in three Virginians (approximately 2.5 million individuals) each year. VDSS and its key partners – local departments of social services and the community action agencies - provide many of the Commonwealth's most critical services including the collection of child support, licensing of adult and child care facilities, social safety net programs, subsidized child care, protecting children and adults from abuse and neglect, and workforce development services. In addition to the important individual and family benefits derived from these services, VDSS also makes important contributions to the economy. In SFY 2007, child support collections exceeded \$600 million; food stamp benefits (100 percent federal funds) spent in Virginia grocery stores exceeded \$523 million; and more than 12,000 public assistance recipients engaged in work-related activities, furthering their efforts to be valuable, contributing members of Virginia's competitive workforce.

Summary of current productivity

In conjunction with local departments of social services and community action agencies, the department has embraced a system-wide strategic planning process. Significant progress over the past year has resulted from increased focus and collaboration to improve performance management, program efficiency and the achievement of key outcomes

VDSS has strengthened its commitment to strategic planning and performance management and will continue to do so in the 2009-2010 biennium. The department is aligned with the goals and objectives set by the Council on Virginia's Future, the Commonwealth's strategic planning efforts as well as the improved agency management focus set by the implementation of the Governor's Management Scorecard. At the end of SFY 2007, the department met expectations in five of the six performance areas and is making strides to ensure expectations in all six areas are met by the end of SFY 2010.

Key productivity measures and performance outcomes by program area for SFY 2006 & 2007 follow:

Child Support:

- •Total individuals served in SFY 2007 1.2 million
- Total child support collected in SFY 2007 \$608 million

Child Care

- Total TANF children served 26,660
- Total At-Risk children served 29,415
- •Total dollars distributed in SFY 2006 \$141,721,412

Family Services

- •Total child protective service investigations and assessments completed in SFY 2006 31,943
- Total children in foster care in SFY 2006 8.122
- •Total adult protective services investigated in SFY 2006 11,467
- •Total number of adults receiving home-bases companion, chore or homemaker services in SFY2006 5,836

•7,492 regulated facilities, with the capacity to serve 386,000 children and adults in 11 types of care settings

Safety Net Programs:

- Total food Stamp benefits issued in SFY 2006 \$523.4 million
- •Total cash assistance payments issued in SFY 2006 \$116.8 million

Child Support:

- Cost-effectiveness (dollars collected to dollars invested) \$5.94:1
- •Total child support collected \$608 million

Family Services

- Repeat maltreatment (number of Child Protective Services (CPS) complaints with a second complaint within 6
- Number of children with a CPS maltreatment complaint while in foster care 0.10%
- •Percentage of adoptions that are finalized within 24 months of the child entering care 28.8%

Safety Net Programs:

- •Timely processing of food stamp applications 98%
- · Food stamp payment accuracy rate 93.2%

Workforce Programs:

- •TANF participants gainfully employed 6 months after program exit 58.9%
- •TANF Work participation rate 42%

Initiatives, Rankings and Customer Trends

Summary of Major Initiatives and Related Progress

In order to address emerging challenges and maintain excellence in service delivery, the Department has embarked upon a number of major initiatives. Each of these initiatives is incorporated in VDSS' agency strategic plan as well as that of the Virginia Social Services System. Key initiatives for the next biennium include: updates and improvements to the VDSS information system infrastructure, creation of a change management office, expansion of child support enforcement activities, improvements to the child welfare system and incorporation of research-based best practices for all key program areas.

Virginia's efforts to increase collections of child support will continue. In SFY 2007, collections exceeded \$608 million, an all-time high. Virginia was the first state in the nation to subpoena cell phone records, matching records with major cell phone companies resulting in increased enforcement of child support orders. Several division offices are piloting an Early Intervention Program to decrease the number of newly ordered parents becoming delinquent in paying child support.

In cooperation with the Offices of the Governor and First Lady and child advocates, VDSS is working with the Annie E. Casey Foundation to improve Virginia's child welfare system. The foundation will fully assess Virginia's system and help the Department develop recommendations for improved state strategies and successful implementation. This intense process will take approximately two years. The end product will be a system that improves permanency and child welfare outcomes for children in Virginia.

• Summary of Virginia's Ranking

The Virginia Department of Social Services is one of the largest and most complex human services organizations in the nation, consistently earning erformance bonuses and recognition. Virginia's child support enforcement program is one of the most cost-effective in the country. The National Child Support Enforcement Association (NCSEA) recognized the Division of Child Support Enforcement (DCSE) with the 2006 Outstanding Program Award.

Innovation has defined child support enforcement in the Commonwealth. Virginia's DCSE was the first state child support agency to subpoena cell phone providers to obtain address and phone numbers of delinquent noncustodial parents, and is in the process of pursuing similar cooperation from cable TV providers. Virginia continues to be a leader in prompt, correct distribution of child support to Virginia's families; routinely scoring 98-100 percent on distributing support within 2 days and maintaining a 2 percent or lower rate of undistributed collections.

The Commonwealth's safety net and workforce programs also have been recognized for their excellence. Virginia's food stamp program is consistently in the top three in the nation in timeliness, with more than 98 percent of all applications processed on or before federal standards. The Temporary Assistance for Needy Families (TANF) program earned the maximum performance bonus each year for the past three years for excellence in placing individuals in unsubsidized employment (7th in the nation) and for job retention (2nd in the nation). Virginia ranks 14th in the nation for the percentage of participants in employment or a workforce activity, exceeding the national average for work participation by 13 percent.

Notable progress in child welfare services has also been made. Virginia has the lowest rate of repeat maltreatment of children in foster care in the nation. The number of adoptions of children in foster care has risen consistently since SFY 2003, from 18 to 28.8 percent in SFY 2007.

Summary of Customer Trends and Coverage

The VDSS customer base continues to increase in quantity and diversity. Virginia's total population grew by 8% from 2000 to 2006, with 760,000 Virginians (10% of the total population) living below the federal poverty threshold. Additionally, the non-English speaking population in Virginia continues to grow, with 11% of the population speaking a language other than English at home.

These changes place increased demands on the social services delivery system at the state and local levels. Significant caseload increases across most programs reflect the impact of the growing customer base. From SFY 2002 to 2006, caseloads grew significantly in the programs targeting low-income individuals: child care (+16%), energy assistance (+38%), food stamps (+43%), and Medicaid (+37%).

Several challenges arise from these demographic shifts. First, the demand for services is increasing without a related increase in funding for eligibility determination and case management services. Additionally, the social services system must meet the limited English proficiency requirements set forth in federal law. The increase in the number and diversity of non-English speaking applicants and participants means the social services system must spend significantly more resources on translation and interpretation services in order to meet these requirements and provide good customer

Future Direction, Expectations, and Priorities

Summary of Future Direction and Expectations

The Virginia Department of Social Services continues to focus first and foremost on the needs of its clients and customers by providing policy guidance and support to local departments of social services and community action agencies. These efforts support the department's mission to help individuals and families triumph over poverty, abuse and neglect. Departmental and system-wide strategic planning efforts drive efforts focused on better services and outcomes for customers and improved performance management.

Changes to empower clients and customers through more accessible services and information will continue. The department and its partners have implemented a number of online and telephone services. Customers now have the ability to conduct on-line searches for child care and adult living facilities and to check on the status of child support collections on the Internet. Individuals needing assistance can conduct self-screenings for all major safety net programs; apply on-line for food stamps and FAMIS; and manage their food stamp debit card accounts over the phone. The success of these initiatives and the direction coming from change management initiatives will continue to foster service delivery that is more customer-friendly and less restricted by physical location or hours of operation. By leveraging technology and new partnerships, VDSS anticipates increasing points of access and reducing the time between first contact with the social services system and actual service delivery.

Given the structure and prominence of federal funding and regulations, future directions of the department will also will be largely impacted by federal legislation and mandates. The Deficit Reduction Act of 2006 reauthorized TANF, significantly impact the TANF program, the child care program and child support enforcement. The universal engagement requirement requires the Commonwealth to provide services for approximately 26,000 individuals, 13,000 more than are currently receiving services. These individuals also require child care and employment supportive services. Similarly, changes to the Medicaid program have impacted populations served by VDSS and will determine departmental priorities in the future.

Summary of Potential Impediments to Achievement

VDSS and the entire social services system face significant challenges due to demographic shifts, an aging information system infrastructure, and increased competition for static or reduced federal and state funding.

As the economy worsens, requests for cash and supportive assistance increases. However, funding is not always available to meet the increased demands for assistance. Local departments of social services deliver the eligibility determination and case management services for Virginia's safety net programs, but administrative funding for these

services has not increased since 1989. According to the caseload standards set forth in an independent workload study by Horby Zellar and Associates, local departments of social services would need an additional 618 workers to meet minimal processing standards. This staffing shortage has implications for timeliness and accuracy of application processing and creates a risk of financial sanctions from the federal government. The department has contracted for an update to this workload study to obtain a more accurate assessment of administrative funding needs.

The current information system architecture supporting the social services enterprise relies heavily on legacy systems that are inflexible and increasingly expensive to maintain. The department also maintains more than 36 stand-alone systems with few interfaces, forcing local departments of social services workers to input the same information multiple times for multiple programs. The most critical system for the Department to replace is ADAPT, the eligibility determination and case management system for FAMIS, food stamps, Medicaid and TANF. This legacy system uses a non-relational database called MAPPER. The Gartner Group contracted to assist the Department in planning for information system improvements and has identified less than 600 major MAPPER applications left in the world, VDSS faces increasing challenges finding personnel with the skills and knowledge to support this dying technology. Based on these facts, VDSS is engaged in strategic and operational plans to migrate programs to different applications or find alternatives that would eliminate this reliance on MAPPER. These changes will significantly improve the status of VDSS's information infrastructure.

The social services system must make significant progress in key areas to improve services to customers and clients. In March 2007, Virginia underwent and successfully passed a federally required Title IV-E Eligibility Review. This review along with Virginia's second Child and Family Services Review will shape the focus of the social services system and require greater investment in social workers and services to at-risk families. The recruitment, training, and retention of the system's workforce must also take priority to ensure the current and future health of the system.

The social services system has a graying workforce and expects significant retirements in the next 10 years, making succession planning a critical task for state and local departments of social services.

The Virginia Department of Social Services can fulfill its mission through its partnership with local departments of social service. The success of this partnership impacts the quality of life and vital services for one-third of all Virginians each year.

| Service Area List | |

Anticipated Changes To Agency Customer Base

The increase in the number of residents living in poverty, the aging of baby boomers and a larger non-English speaking population will result in changes to the customer service base for VDSS and its partners who deliver social services in the Commonwealth. With these changes come the requirements for additional benefits and services and a continued growth in

These changes in the customer base will also necessitate additional efforts in child care, workforce development, child support enforcement and licensing. Aggressive outreach activities to those eligible for food stamps, Medicaid and other benefits; and promotion of programs that help provide services for the protection of children, the elderly and disabled, victims of domestic violence and others will boost our customer base.

Any changes in federal regulations are also expected to impact the type and number of customers served by VDSS. In addition, some areas of Virginia are underserved and residents require improved access to benefits and programs. Because of these and other changes, the customer base requiring the safety net of social services will expand and become more

Partners

Products and Services

• Description of the Agency's Products and/or Services:

Foster Care Services Adoption Services Child Care Services Community Services Services for individuals and families Services for low income families **Education and Training Services** Housing NAP tax credits Policy implementation and guidance Program monitoring and evaluation Information Technology Services Refugee Services Administrative and Support Services Technical Assistance Communication Services

Factors Impacting Agency Products and/or Services:

The expanded and more diverse customer base, mentioned above, will affect VDSS products and services. Federal and state regulations and associated funding streams also present potential impacts. For example, reauthorization of TANF mandates universal engagement requirements, increasing the number of customers who need employment support services. These intensified efforts will raise the demand for additional employment related supports and

State regulations for child care and assisted living facilities are increasing the demand for staffing to carry out oversight and compliance mandates

VDSS will use improved technology to streamline and improve processes used to deliver and manage programs and services. These changes will improve the efficiency and effectiveness of workers and increase customer access to services. The continued move to an information/knowledge-based economy, particularly in rural Virginia, will elevate the need for training and supportive services for low-income individuals seeking employment and economic independence.

An aging population will create an increased demand for services provided by the Virginia Department of Social Services. According to the Joint Legislative Audit and Review Commission's 2005 report, The Impact of an Aging Population on State Agencies, the number of Virginians age 60 or older will grow from 15 to 24 percent in 2030. Virginia will have nearly the same percentage of older residents as Florida currently has now. This increase will trigger a surge in demand for public services for older Virginians. As a major provider of financial assistance and protective services, VDSS will be integrally involved in planning and providing programs to meet the needs of our aging population.

An increased population of older Virginians will trigger a corresponding surge in demand for public services. Services required by this population will be more complex and costly. Community integration of persons with disabilities and longer life spans made possible by modern health care will contribute to an anticipated rise in costs. The incidence of elder abuse, neglect and exploitation – particularly financial exploitation – can be expected to rise as well.

In addition to the demographic shifts affecting the social services system, VDSS is integrally involved in creating and maintaining the Commonwealth's culture of preparedness. This area will undoubtedly have additional impacts on VDSS products and services. VDSS, through its Office of Emergency Planning and Community Response (OEPCR), coordinates the Department's emergency preparedness, response and recovery efforts in compliance with federal and state regulations, policies and procedures. As security issues mount nationally and in local and state jurisdictions, additional efforts in providing information and guidance to protect life and property will be required. Most significant is the VDSS responsibility for providing mass sheltering as a part of the Human Services/Mass Care function at the Virginia Emergency Operations Center. OEPCR also manages the development and maintenance of VDSS' business continuity and contingency plans. The inclusion of preparedness as an agency and Commonwealth objective will increase VDSS requirements and dedication of resources to support this critical area.

• Anticipated Changes in Products or Services:

Expansion of web-based applications for benefits and services are under way to improve access to services. VDSS will continue work to improve access to and participation in food stamps, medical and other services; increase child support collections; and work aggressively to ensure the safety and stability of children and vulnerable adults. Other efforts include improvements to the child welfare system and accelerating adoptions for foster care children; intensive outreach for youth aging out of foster care; enhanced services to children exposed to domestic violence; and increased partnerships with food banks and others to expand access to nutrition assistance. VDSS has begun actions to leverage technology, including web services and expanded direct deposit of cash benefits and assistance.

Finance

Financial Overview:

The Department of Social Service's base budget is comprised of approximately 19% general fund, 44% federal funds, and 37% special funds. In addition to these sources, approximately \$125 million per year of local matching funds are expended. These local funds are not appropriated in the state budget.

The federal funds are comprised of roughly 40 federal grants including administrative funds for Food Stamps and Medicaid, Temporary Assistance to Needy Families (TANF), Child Care Development Fund (CCDF), Title IV-D Child Support Enforcement, Title IV-E Foster Care and Adoptions, Title IV-B Child Welfare and Family Preservation Services, Low Income Home Energy Assistance Program (LIHEAP), Community Services Block Grant, Americorps, Refugee/Newcomer Assistance, and the Social Services Block Grant.

Virtually all of the special funds are the result of the collection of child support payments from non-custodial parents and subsequent payment to the custodial parents.

• Financial Breakdown:

| | FY | 2009 | FY 2010 | | |
|----------------|---------------|-----------------|---------------|-----------------|--|
| | General Fund | Nongeneral Fund | General Fund | Nongeneral Fund | |
| Base Budget | \$416,910,279 | \$1,350,075,898 | \$427,261,513 | \$1,347,122,376 | |
| Change To Base | \$0 | \$0 | \$0 | \$0 | |
| | | | | | |
| Agency Total | \$416,910,279 | \$1,350,075,898 | \$427,261,513 | \$1,347,122,376 | |

This financial summary is computed from information entered in the service area plans.

Human Resources

Overview

The Division of Human Resource Management provides personnel related services to the Department as well as a variety of services and technical assistance to local departments of social services. The number of local employees fluctuates from between 7,000 and 8,000. While hired by the local governing bodies, VDSS must ensure that the human resource management and benefits provided for and on behalf of these local employees comport with the federal merit system requirements and are consistent with sound human resource policies and practices.

Agency Human Resources:

The Virginia Social Services System operates an array of complex programs and services through a State supervised, locally administered system. Direct services, except for the child support enforcement program and several centrally operated initiatives, are provided through 120 local departments of social services. Chief program authority originates from Section 63 of the Code of Virginia, and from 5CFR, Part 900 subpart F(b) of the Federal Regulations.

Human Resource Levels

Factors Impacting HR

Economy

The state of the economy affects how much money is available for funding social services programs. It also affects the demand for services and personnel. When the economy is in decline, the unemployment rate is typically high and the need for public assistance increases. The result is a reduction in the tax revenue used to fund programs such as social services. At the same time, the demand for services increases because more people experience a reduction in income. It is especially difficult for the Department in a declining economy, which creates the two-fold problem of increased demand for services and reduced availability of funds to pay for those services.

When the economy is stable, more people are able to work. Businesses prepare for expansion and increased production, which causes an increase in employment and a corresponding increase in tax revenue. Although more money eventually becomes available to fund public programs, the increased competition for workers can make it especially difficult to fill social services positions. Traditionally perceived as unglamorous and lower-paying, these positions must compete with other segments of the public sector, as well as with the private sector, the latter of which is often better able to offer attractive salaries and benefits.

Demographics

VDSS is poised to lose as many as 952 classified employees (57%) by 2019 due to retirement. Fifty percent of the workforce is between the ages of 37 and 52 years. The median age is 45. Less than seven percent of employees are 27 years old or younger.

This trend is not unique within Virginia government or within the economy as a whole; but is indicative of the nationwide aging of the "Baby Boom" generation. The aging workforce gives way to a smaller workforce pool, as fewer new workers enter the job market. A smaller workforce pool increases competition for workers among prospective employers. Economists are forecasting accelerated employment growth, which translates to a higher demand for workers. An increased demand for a decreasing supply generally causes an increase in the price of the commodity, so it should come as no surprise that economists also predict increasing wages throughout Virginia.

As the numbers of non-English speaking residents increases, VDSS will face new challenges in delivering economic assistance and workforce services. Improved skills in addressing cultural and language differences will be needed for VDSS and LDSS staff to provide services to this population.

Sociological/Cultura

Ours is a society of increasing violence and changing mores. Children and the aged, always the most vulnerable elements of society, are at increased risk of harm and neglect. The increased risk to the weakest elements of our society translates immediately to greater caseloads for social workers and additional support from other system employees in order to provide the full spectrum of social service programs.

Anticipated HR Changes

For VDSS to continue meeting needs at the current level, it must become increasingly flexible in coping with the factors that threaten service delivery. Strategies include:

Implementing recommended changes in all classification and compensation studies and seek appropriate funding to support the plans;

Maintaining current compensation and classification studies and ensuring current/equitable compensation and classification process for all system employees;

Targeting recruitment efforts to support and maintain workforce diversity;

Expanding the current Leadership Academy to include all levels of system-wide employees; and

Providing organizational development services that will facilitate change and continuous improvement in the VSSS. Training must be appropriate and timely in order to meet the changing needs of all divisions, local jurisdictions and partners.

Information Technology

Current Operational IT Investments.

The Department's Division of Information Systems (DIS) currently supports its three major systems: APECS (Automated Program to Enforce Child Support), OASIS (Online Automated Services Information System) and ADAPT (Application Benefit Delivery Automation Project). In addition to these three major systems, the DIS also supports seventy other automated applications. These applications support the work of over 10,000 employees in 120 local departments of social services across the Commonwealth.

Work on the APECS system is currently focused on enhancements to provide functionality for worker efficiency and state and federal legislative changes. The Deficit Reduction Act (DRA) of 2005 created several initiatives with specific date-driven deadlines. These APECS systems modifications, to support the DRA, will continue through October 2009.

The OASIS (Online Automated Services Information System) system is the primary automated system used to meet the needs of local department social workers who manage child welfare service delivery and case planning. The Department initiated a Virginia Information Technology Agency (VITA) information technology (IT) major project to improve the functionality of the OASIS system. This effort was to have produced a child welfare-centric system called ChildWINS. Recently, an independent verification and validation (IV & V) review of ChildWINS was conducted. This IV & V complied with the VITA oversight requirements for major IT projects. The following recommendations were made by the IV & V consultant group:

- stop the current development efforts for ChildWINS
- reassess the decision to develop ChildWINS as a custom application
- ensure that the solution chosen will address gaps identified in OASIS
- · decrease agency dependence on contract staff
- look for enterprise potential in the component parts of ChildWINS

The Department viewed these recommendations as an opportunity to undergo a fundamental change in its approach to making investments in automation. Thus, in April 2008, the Department decided to terminate ChildWINS as a singular project, and has assessed the future OASIS improvements from a strategic enterprise perspective.

Subsequent to the closeout of the ChildWINS effort the Department made a decision to revisit the OASIS application and determined that the production system needed critical fixes and updates that had been put on hold during the ChildWINS efforts. Modifications to the OASIS application are being kept to a minimum; most of the proposed modifications are to support federal mandates and requirements and will not directly affect the enterprise approach to IT investments. Small, incremental modifications are being made to the application to align with the new DIS approach to system changes

ADAPT is the major system used by local departments of social services to support the administration of public assistance programs supervised by the Department. It is written in MAPPER (Maintaining And Preparing/Producing Executive Reports) code. MAPPER is a proprietary language owned by the UNISYS Corporation. It is difficult to resource and is not compatible with web technology or integration with other systems. The Department is planning several incremental enhancements as a way of converting the ADAPT code to JAVA code. This will allow for web functionality and integration with other Department systems.

Factors Impacting the Current IT:

MAPPER - The ADAPT system and other related systems are written in MAPPER. There are few clients (approximately 600) worldwide that still use this product. IT resources proficient in MAPPER skills are hard to find and expensive to hire. The Gartner group recommended that the Department give serious consideration to replacing all MAPPER applications within the next 5 to 10 years.

In planning to replace MAPPER, the Department has prepared a Request for Proposal (RFP) for eliciting possible vendors to convert MAPPER code. A Planning Advanced Planning Document (PAPD) has also been submitted to our federal partners requesting support for the effort. As the Department continues evaluating the relevance of an effort of this scope it is defining small incremental enhancements and migration efforts as a more cost effective approach to sunsetting the MAPPER environment

Currently, the RFP and any indicated procurement are on hold while the Department reviews options and assures that this effort will be aligned with the outcomes of the Department's strategic vision for IT services and the BPR Plan.

VITA Costs – With the transition to VITA services, Department IT costs have increased substantially. The resulting increases have diverted planned improvement expenditures to cover the costs. Current expenditures indicate a projected \$9.3M shortfall going forward.

UNISYS Charges – All of these expenditures (\$17,500,000) are paid to VITA in the form of charges for using the mainframe computer purchased from UNISYS; these charges have been increasing annually. Conversion of MAPPER to JAVA will reduce the dependency on the UNISYS mainframe computer and should save the Commonwealth a sizeable portion of this cost.

• Because of the continuing increases in VITA costs, the Department is evaluating the potential impact on benefits and services to citizens of the Commonwealth in order to defray the increased IT costs. The Department must determine whether it will be necessary to make reductions in programs and/or IT investments.

VITA transformation activities, including the changeover to a new statewide network and the effort to replace over 10,000 PCs (personal computers) in the Social Services System require dedicated DIS resources and time to manage at the agency level. As the transformation effort gains momentum, the new PC costs are increasing also.

Proposed IT Solutions.

A revised DIS organizational structure is allowing the IT division to implement the development, delivery and ongoing support of an IT services delivery architectural model that includes:

- Portal-based presentation services;
- Service-oriented architecture;
- an enterprise approach to all IT development;
- non-duplicative development efforts;
- · web-based applications,
- · single sign-on and data entry, and,
- customer-centric business flows

The SFY '09 Goals for the division are:

- Web Portal Access for VDSS Web Applications (incremental approach to Single Sign-On). Four VDSS Web Applications will be added to the Web Portal. This will allow for single sign-on to those applications
 Common Demographic Repository. Production functionality to allow entry of Common Data to the Repository and
- Common Demographic Repository. Production functionality to allow entry of Common Data to the Repository and have the data fed to the department's legacy systems
- Master Customer ID. Common Data Repository will have one ID for the Systems that are published
- Miscellaneous MAPPER Applications. A number of applications other than ADAPT and those supporting the Energy Assistance programs will be moved to other platforms or retired in the next year.

Agency IT Investments: (the Projects & Procurements in Prosight)

MAPPER Conversion Project

As stated in the narrative description of the factors impacting agency I, the objective of this project was to fund the conversion of MAPPER applications to reduce operating costs and enable the agency to migrate from obsolete technologies to maintain productivity and services to customers. As the Department continues its feasibility analysis of the project, VDSS is initiating incremental approaches to the conversion of some of the MAPPER systems. Fiscal Year '09 objectives indicate a number of MAPPER applications targeted for removal.

Benefit Programs, which includes several of the Department's federally funded programs, is largely supported by applications in the Unisys MAPPER environment. Several other VDSS businesses are also supported within this environment, including Child Care, Child Support Enforcement, Finance, Research and others. The Unisys MAPPER environment no longer provides a technically flexible or cost efficient platform upon which to meet the Department's business requirements.

Child Care Subsidy Payment System Project

The objective of this project is to streamline and improve business practices by implementing a child care management and payment system. This system will replace Child Care entry into the Virginia Client Information System (VACIS) and the Interim Child Care (ICC) system, and comply with federal regulations and VITA standards. Analysis is being done to consider if any portions of the Child Care Subsidy program can be incorporated into another existing Department effort, or whether acquiring a COTS is a better solution. The Department does not anticipate developing a comprehensive Child Care Subsidy Program in-house. The Child Care Subsidy Payment System Project would include the procurement or development of an automated system to electronically process and track child care payments,

statewide training, conversion of data, and other implementation activities. Based on the experiences of other states that have implemented electronic benefits transfer (EBT) for child care subsidies, savings of 10% of the total costs to deliver child care services can be expected due to the increased accuracy these systems make possible. Evaluation will need to be done to determine if such a system is the most effective application in Virginia's state supervised and locally administered structure.

Computer Aid Incorporated (CAI) Contract APR
This contract is to fund continued use of the VITA CAI resources through 6/30/09. All Department IT consulting services will be purchased through CAI. Expenditures are estimated at \$5,900,000 per year for the 09/10 biennium.

Agency Goals

Goal 1

Maximize the economic independence, safety and stability of individuals and families

Goal Summary and Alignment

Goal Summary The Department of Social Services provides services and benefits which enable more than two million Virginians each year to maintain their well-being and advance toward and attain self-sufficiency. This goal seeks to improve the employment outcomes of participants in the Department's workforce development programs, increase child support collections, improve access to safety net programs, and ensure the safety and well-being of children. The social services system preserves the well-being of Virginians by administering the programs that constitute the Commonwealth's social safety net: financial assistance programs (Auxiliary Grants, Child Care Assistance Temporary Assistance for Needy Families, General Relief, Fuel/Cooling Assistance, and Crisis Assistance), nutrition education and direct assistance (Food Stamps); eligibility for medical services (Medicaid, FAMIS, Medicare Part D low-income subsidy, and State and Local Hospitalization); and child and adult protective services. The social services system also provides critical licensing and child support enforcement services which keep children in safe and economically viable environments and enable parents to participate in the workforce. Finally, the social services system promotes individual and economic development through multiple workforce development programs that meet the needs of employers and target incumbent workers and job seekers who are aging out of foster care or who receive safety net services. By ensuring the well-being and personal responsibility of needy citizens, fostering the safety and development young children, and preserving the health and dignity of aged and disabled adults, the social services system contributes to a strong workforce, an enhanced tax base, and a better quality of life for all Virginians. Goal Alignment This goal supports the Council on Virginia's Future long term objectives to "inspire and support Virginians toward healthy lives and strong, resilient families" and "elevate the levels of educational prepare

Goal Alignment to Statewide Goals

- Elevate the levels of educational preparedness and attainment of our citizens.
- Inspire and support Virginians toward healthy lives and strong and resilient families.

Goal 2

Establish a performance management system

Goal Summary and Alignment

Goal Summary The establishment of a performance management system is key to the success of VDSS. In order to establish such a system one of the first major steps is to educate the stakeholders and to adopt key elements of a performance management system. For the foreseeable future this will be the primary focus of this goal.

Goal Alignment to Statewide Goals

• Be recognized as the best-managed state in the nation.

Goal 3

Improve business productivity through effective automation

Goal Summary and Alignment

Improved business productivity will be achieved through more effective use of automation. Improved service to customers will result. Modernizing business processes within VDSS to eliminate duplication, redundancy and unnecessary actions in the delivery of social services is a first step for improving productivity of the social services system.

Goal Alignment to Statewide Goals

• Be recognized as the best-managed state in the nation.

Goal 4

Deliver high-quality customer-focused services

Goal Summary and Alignment

The objective of this goal is to ensure the level of service being supplied to the customer is the best it can be. This will be achieved through various monitoring tools and strategies will be implemented to increase the level of internal and external satisfaction with services provided by VDSS.

Goal Alignment to Statewide Goals

Be recognized as the best-managed state in the nation.

Goal 5

Cultivate a high performing, diverse and well-trained workforce that is engaged in continuous learning

Goal Summary and Alignment

For the VDSS to be successful in its mission and vision, it must employ a competent workforce that is equipped to deliver needed services. This goal will monitor and implement strategies to ensure the workforce is exceptional and prepared to fulfill the requirements of this complex and demanding organization.

Goal Alignment to Statewide Goals

- Be recognized as the best-managed state in the nation.
- Inspire and support Virginians toward healthy lives and strong and resilient families.

Goal 6

Provide resources necessary to assure quality services that meet the needs of Virginia's residents

Goal Summary and Alignment

By ensuring that the agency is effectively managing its financial resources, streamlining administrative costs and working to increase departmental and system-wide resources, VDSS will be positioned to deliver quality services to Virginians.

Goal Alignment to Statewide Goals

• Be recognized as the best-managed state in the nation.

Goal 7

Strengthen the culture of preparedness across state agencies, their employees and customers

Goal Summary and Alignment

This goal ensures compliance with federal and state regulations, polices and procedures for Commonwealth preparedness, as well as guidelines promulgated by the Assistant to the Governor for Commonwealth Preparedness, in collaboration with the Governor's Cabinet, the Commonwealth Preparedness Working Group, the Department of Planning and Budget and the Council on Virginia's Future. The goal supports achievement of the Commonwealth's statewide goal of protecting the public's safety and security, ensuring a fair and effective system of justice and providing a prepared response to emergencies and disasters of all kinds.

Goal Alignment to Statewide Goals

 Protect the public's safety and security, ensuring a fair and effective system of justice and providing a prepared response to emergencies and disasters of all kinds.

Goal Objectives

• We will be prepared to act in the interest of the citizens of the Commonwealth and its infrastructure during emergency situations by actively planning and training both as an agency and as individuals.

Objective Strategies

 The agency Emergency Coordination Officer will stay in continuous communication with the Office of Commonwealth Preparedness and the Virginia Department of Emergency Management.

Virginia Institute for Social Services Training Activities (VISSTA)

Products and Services

• Factors Impacting the Products and/or Services:

Training services are constantly changing to meet the needs and demands of a diverse workforce and customer base. Several factors will impact our products and services. They include: increase in the Spanish-speaking population in Virginia, more emphasis on e-learning, accountability at all levels, and expectations for a highly-skilled and selfdirected workforce able to meet changing demands and needs.

Anticipated Changes to the Products and/or Services

VDSS and its partners in the social services system plan to implement a comprehensive learning management system and an array of training opportunities to equip every employee to perform their assigned responsibilities.

Recognizing the need to develop and nurture an environment where continuous learning and development are encouraged, an extensive internal training plan is under development. Integration with the Commonwealth of Virginia's Knowledge Center is a key component of this plan and readily offers opportunities for enhanced training focused on leadership development, customer services/relations and ongoing employee development.

Establish performance-based training contracts and enhance polices and procedures to ensure the highest level of accountability from all sub-grantees. Risk-based monitoring strategies should be implemented. Regular on-site visits should be conducted. Competition should always be encouraged to ensure the best services and products for our

- Listing of Products and/or Services
 - Support of organizations serving communities
 - O Support services (i.e., HR, IS, etc.)

Financial Overview

Funding for the Training program comes from general funds and federal funds. The federal funds come from various sources, including Title IV-E Foster Care, the Social Services Block Grant (SSBG), Food Stamps, Medicaid, and the

Objective Measures

Percentage increase in the number of local employee training and developmental activities provided annually Measure Class: Other Measure Type: Output Measure Frequency: Annual Preferred Trend: Maintain Frequency Comment: Number of employee training and development activities provided annually Measure Baseline Value: 978 Date: 6/30/2005
 Measure Baseline Description: 978 local employee training and development activities were conducted in SFY 2005
 Measure Target Value: 640 Date: 6/30/2010
 Measure Target Description: The number employee training and development activities will total at least 640 by the end of SFY 2010

Data Source and Calculation: The data will be captured from agency reporting systems. Eventually tracking through the Commonwealth of Virginia's Knowledge Center will be available.

Service Area Strategic Plan

Department of Social Services (765)

3/14/2014 4:19 pm

Biennium: 2008-10 ✓

Service Area 2 of 33

Central Administration and Quality Assurance for Benefit Programs (765 451 02)

Description

This service area supports the supervision of Virginia's safety net programs including the Commonwealth's largest nutrition assistance program, the Food Stamp Program; financial assistance programs including the Energy Assistance Program, the General Relief Program, and the Temporary Assistance for Needy Families Program (TANF); and the eligibility services for medical assistance programs (FAMIS, Medicaid, and State and Local Hospitalization). This service area also supports the supervision of two of the Commonwealth's largest workforce programs: the Virginia Initiative for Employment not Welfare (VIEW) and the Food Stamp Employment and Training Program (FSET).

The functions supported by this service area include policy development, program development, legislative and regulatory analysis, business process reengineering, policy and information systems training, dissemination of best practices, contracting, budgeting and monitoring, and technical assistance to the local departments of social services which implement these programs. Benefit Programs is also responsible for the eligibility staff for medical services. These staff persons are stationed in various hospitals and health facilities throughout the Commonwealth. Finally, this service area supervises a number of service contracts for foreign language translation services to meet federal limited English proficiency (LEP) requirements and ensure customer access to services. This endeavor significantly impacts operations at local departments of social services.

Background Information

Mission Alignment and Authority

- Describe how this service supports the agency mission
- This service area supports the mission of the Department through the supervision of programs that help individuals meet their basic human needs and move toward self-sufficiency through employment. These financial, nutrition, medical, and workforce services help individuals move out of poverty and build strong families and communities.
- . Describe the Statutory Authority of this Service

This service area responds to two federal oversight agencies; the U.S. Departments of Agriculture and Health and Human Services.

The Food Stamp Program is administered by the U. S. Department of Agriculture and federal statutory authority is the Food Stamp Act of 1977, as amended; federal regulations are codified at Title 7 of the Code of Federal Regulations (CFR).

The Temporary Assistance for Needy Families (TANF) Program is administered by the U. S. Department of Health and Human Services and federal statutory authority is the Title IV-A of the Social Security Act; regulations are codified at Title 45 CFR.

The Medicaid and FAMIS programs are also administered by the U. S. Department of Health and Human Services and federal statutory authority is Title XIX of the Social Security Act for Medicaid and Title XXI for FAMIS (the name of Virginia's State Children's Health Insurance Program); regulations are codified at Title 42 CFR.

The Energy Assistance Program is also administered by the U. S. Department of Health and Human Services and federal statutory authority is the Low Income Home Energy Assistance Act; there are no federal regulations.

State statutory authority for these programs is found at Title 63.2 of the Code of Virginia and regulations are found at Title 22 of the Virginia Administrative Code.

This service area also supervises local administration of the General Relief and State and Local Hospitalization Programs; state statutory authority for these programs can be found at Title 63.2 and Title 32.1of the Code of Virginia, respectively.

Products and Services

• Factors Impacting the Products and/or Services:

The principal factors impacting the products and services provided by this service area include changes in federal and state legislation, the social services system business process reengineering initiative, and the increasing workload at local departments of social services.

• Anticipated Changes to the Products and/or Services

The use of technology to streamline the delivery of services at the local level will impact the services and products provided through this service area. Improvements through technologies used to determine eligibility for financial assistance will be used to simplify and streamline access and service delivery.

- Listing of Products and/or Services
 - $\,\circ\,$ Support of organizations serving communities
 - Economic assistance to low income families/individuals or nutrition, child care, health care eligibility, and financial assistance to low income families/individuals
 - O Support Services (i.e., HR, IS etc.)

Finance

• Financial Overview

Funding for the service area comes from federal and state sources. Support at the state level for the Medicaid and Food Stamp programs is a combination of state and federal funds. Administrative costs for the Energy Assistance Program are 100% federally funded by the LIHEAP block grant and limited to 3% of the grant by state regulation. Funding for TANF activities is a combination of TANF block grant and state maintenance of effort (MOE) funding. State funds finance the activities of the smaller programs (General Relief, State and Local Hospitalization) in the service

Service Area Objectives

• Perform timely and accurate eligibility determination services for safety net programs

Objective Description

Timely and accurate processing of eligibility determination for safety net programs are indicators of well-functioning processes that meet the expectations of customers.

Alignment to Agency Goals

o Agency Goal: Deliver high-quality customer-focused services

Comment: This objective also aligns with the long-term objectives of the Council on Virginia's Future to elevate the educational preparedness and attainment of Virginia's citizens; and inspiring and supporting Virginians toward healthy lives and strong resilient families.

o Implement a consistent statewide program monitoring plan

by the federal government for food stamps

- o Implement alternative means for individuals to access products and services
- o Focus food stamp error reduction initiatives on the largest local departments of social services generating the highest proportion of the Food Stamp error rate

Link to State Strategy

o nothing linked

Objective Measures

o Percent of Food Stamp cases processed within federal timeliness standards Measure Class: Other | Measure Type: Output | Measure Frequency: Annual | Preferred Trend: Maintain Frequency Comment: % of FS cases processed timely Measure Baseline Value: 98 Date: 6/30/2005 Measure Baseline Description: 98% of Food Stamp cases were processed within federal timeliness standards in FFY 2005 Measure Target Value: 98 Date: 6/30/2010 Measure Target Description: 98% of Food Stamp cases will be processed within federal timeliness standards by the end of FFY 2010 Data Source and Calculation: Timeliness data is captured from the Department's eligibility systems. The Food Stamp Program has a timely processing standard as prescribed in federal or state law or regulation. Percent of food stamp cases processed accurately Measure Class: Other Measure Type: Outcome Measure Frequency: Annual Preferred Trend: Up Frequency Comment: % of FS cases processed accurately Measure Baseline Value: 93 Date: 6/30/2005 Measure Baseline Description: 93% of food stamp cases were processed accurately in SFY 2005 Measure Target Value: 95 Date: 6/30/2010 Measure Target Description: 95% of food stamp cases will be processed accurately by SFY 2010

Data Source and Calculation: Accuracy data is captured through independent audits of benefits issued compared to what should have been issued. Accuracy will be measured through existing processes established Service Area Strategic Plan

Products and Services

• Factors Impacting the Products and/or Services:

With a significantly increased population of vulnerable adults and growing demand for adult services and adult protective services, there will be a need for more social workers, institutional providers and home-based care workers. Additional training materials and public education programs will be needed, requiring revised services and products for the customer base.

Several factors may impact products and services for older youth including limited funding for independent living services and the lack of community support or involvement with these young people. Given the national trend of increased numbers of youth over age 13 entering the foster care system and who subsequently exit to independent living situations, the need for these services and their impact become especially critical.

Another factor impacting the services of this area stem from the fact that the majority of children in foster care with the goal of adoption have documented special needs. As a result, these children will require intensive medical and supportive services, supported largely by state and federal adoption assistance funding. As the number of children achieving adoption increases, it can be expected that expenditures for adoption assistance will also increase.

Funding for prevention and in-home services to prevent foster care placement is inadequate, often resulting in children entering the foster care system solely to receive needed mental health and physical health treatment. Virginia law does not mandate that prevention services be provided in order to prevent the possibility of placement in foster care. The lack of adequate funding for prevention services places a greater financial burden on the citizens of the Commonwealth to fund foster care placements.

Anticipated Changes to the Products and/or Services

A new Adult Protective Services web-based case management system went on line in SFY 2005-2006, making case management and reporting more efficient for VDSS and local department staff. Improvements to the child welfare information system, Child WINS, are scheduled to begin in 2008.

- Listing of Products and/or Services
 - o Support of organizations serving communities
 - o Recruitment of volunteers and training on management of volunteers
 - $\,\circ\,$ Services to promote family stability
 - o Services to protect vulnerable adults
 - Economic assistance to low income families/individuals or nutrition, child care, health care eligibility, and financial
 assistance to low income families/individuals
 - $\,\circ\,$ Financial support for children
 - $\,\circ\,$ Services that promote sufficiency
 - o Services to protect children
 - O Services to ensure that children have permanent homes
 - O Support Services (i.e., HR, IS, etc.)
 - $\circ\,$ Photo-listing books of children waiting for adoption
 - O Photo-listing books of approved adoptive families
 - o Display boards for recruitment
 - $\circ\,$ Brochures and pamphlets on Family Services
 - o Update recruitment brochures
 - Contracts with private child placing agencies and community organizations to provide a full array of adoption services.
 - o Annual newsletters
 - $\circ\,$ Handbook for attorneys on Virginia's adoption laws
 - Refugee Elderly Assistance Program (REAP): interpretation & translation; health screenings and workshops; citizenship preparation; English language training; and employment training.
 - o Independent Living training for Local departments of social services staff

- $\,\circ\,$ Training professionals in kinship care
- o Training kinship care providers

Finance

 Financial Overview
 Funding for Protective Services Programs Administration comes from general funds and federal funds. The federal funds come from various sources including Title IV-B Part I (Child Welfare Services), and Title IV-E Foster Care, and the Social Services Block Grant (SSBG).

Department of Social Services (765)

3/14/2014 4:19 pm

Biennium: 2008-10 ✓

Service Area 4 of 33

Central Administration and Quality Assurance for Community Programs (765 451 05)

Description

This service area is comprised of a number of federal and state programs that support community operated organizations and initiatives. The majority of funding is used to provide oversight including administering contracts, monitoring and providing technical assistance to community based organizations and initiatives.

Background Information

Mission Alignment and Authority

· Describe how this service supports the agency mission

This service area supports the mission of the Department by providing resources and technical assistance to community based organizations and initiatives that provide direct services to clients that will help them overcome poverty and enhance their opportunities for the future.

. Describe the Statutory Authority of this Service

This services area operates in compliance with the following federal and state statues:

The Community Services Block Grant (CSBG)

The Community Opportunities, Accountability, and Training and Educational Services Act of 1998, Public Law 105-285 The Community Action Act, §§ 2.2-5400 et seq.

The Neighborhood Assistance Program (NAP)

The Neighborhood Assistance Act, §§ 63.2-2000 et seq.

45 CFR 400 & 401 Refugee Resettlement Program

Family and Children's Trust Fund Act of 1993, §§63.2.2-2100

Products and Services

Factors Impacting the Products and/or Services:

Factors impacting products and services include the amount of funds appropriated by the federal and state government to operate community based programs as well as changes to other programs and funding sources that result in an increase or decrease in the need for community based programs.

Anticipated Changes to the Products and/or Services

Congress is working on reauthorizing CSBG. When CSBG is reauthorized, major changes to the program may occur. The General Assembly often makes changes to the NAP program each year which impacts products and services

The General Assembly often makes changes to the NAP program each year which impacts products and services provided by the program.

- Listing of Products and/or Services
 - o Support of organizations and communities

Finance

• Financial Overview

Funding for the Community Programs Administration program comes from general funds and federal funds. The federal funds come from various grant sources, including TANF, Refugee, and AmeriCorps.

Service Area 5 of 33

Central Administration for the Comprehensive Services Act (CSA) (765 451 06)

Description

The agency provides localities resources, technical assistance, training, and management tools so they can develop systems of services and funding that effectively serve children who have emotional and behavioral problems and their families. The agency also forecasts, budgets, reimburses and monitors Comprehensive Services Act (CSA) funds that local governments purchase services for children and families. It directs and manages the collection of data on CSA funded children. OCS works collaboratively with its partners (state and local government agencies, service providers, and families) to increase the capacity of communities across the Commonwealth to successfully implement the CSA for At Risk Youth and Families. It ensures the decisions of the State Executive Council are implemented, working closely with the State and Local Advisory Team.

Also contained in this service area are TANF funds used to support CSA trust fund payments. The trust fund programs are focused either on community services to youth with emotional and/or behavioral problems or on early intervention services to at-risk children and their families. These trust funds are managed, administered and monitored by the Department of Social Services in consultation with the OCS.

Background Information

Mission Alignment and Authority

• Describe how this service supports the agency mission

The Office of Comprehensive Services (OCS) serves as the administrative entity of the State Executive Council of the Comprehensive Services Act for At Risk Youth and Families. This council is comprised of state agency heads, Governor appointees and General Assembly members. OCS' mission is to facilitate a system of services and funding that improves outcomes for troubled and at risk youth and their families that is child centered, family focused, community based and cost effective. This service area is further aligned with Virginia's long term goal of supporting Virginians toward health lives and strong and resilient families.

Describe the Statutory Authority of this Service
 §2.2-2648 of the Code of Virginia establishes the State Executive Council as the supervisory council for the CSA, defining its membership, meeting, powers and duties

§2.2-2649 of the Code of Virginia establishes the Office of Comprehensive Services for At-Risk Youth and Families and defines its powers and duties.

§2.2-5200 of the Code of Virginia defines the intent of the CSA; defined as a law to create a collaborative system of services and funding that is child-centered, family-focused and community-based when addressing the strengths and needs of troubled and at-risk youth and their families.

Customers

Products and Services

- Factors Impacting the Products and/or Services:
- [Nothing entered]
- Anticipated Changes to the Products and/or Services

The State Executive Council's retreat identified themes for improving CSA. Based on this input, OCS has established the following priorities for its work:

- •Involving families more proactively throughout CSA;
- •Providing consistent state guidance on policy and program implementation;
- •Providing increased technical assistance, training, best practices and management tools to localities;
- $\bullet \mbox{Developing new strategies and vehicles for communicating with CSA stakeholders; and } \\$
- •Maintaining OCS' strong financial infrastructure, while maximizing all available resources and reducing administrative burdens.

These anticipated changes will require additional agency funding to implement some of these priorities.

- Listing of Products and/or Services
 - o Financial support for children
 - o Policy Implementation Guidance
 - o Technical assistance and training to local governments
 - O Statistical reporting/data collection
 - o Provider communication for service and rate information

Finance

Financial Overview

Funding for CSA Administration is 100% general funds.

| Child Development Resources | Contracted to provide the 1-2-3 READ! Virginia early literacy program for child care providers statewide; includes a family component and technical assistance/mentoring for infant and toddler teachers |
| City of Richmond | Contracted to provide training, technical assistance, and mentoring to infant and toddler teachers in the Richmond metro area; increase availability of infant and toddler care |
| Community College Workforce Alliance (CCWA) | Contracted through June 30, 2008 for Early Childhood Endorsement Program courses to include trainer coordination and contracts; contact with VCU-VISSTA for other logistics; manage curricula developers' and graders' contracts; print/copy all handouts and trainer materials; distribute materials to trainers |
| Head Start | The Head Start State Collaboration office is housed in and supported by VDSS; contract with the Virginia Head Start Association to improve the quality of care for infants and toddlers through the Early Head Start program |
| Local Departments of Social Services | Partners in the Virginia Social Services System. Local departments assist with disseminating information and training to regulated and unregulated child care providers in their localities, as well as assist families with finding needed child care support |
| Rural Family Development of the Virginia Council of Churches | Contracted to provide wrap-around child care services before and after attending a Head Start program for the children of seasonal workers in the northeastern part of the state |
| State agencies | DMHMRSAS, VDH, LOV, VDOE, VCCS, VDBA-Virginia Small Business Financing Authority – These agencies assist with consultation, distributing information, developing publications and training, extending low-interest loans to child care providers for quality improvements, etc. |
| Various School-age Care Programs | Contracted to improve the quality of before- and after-school care to children from 5-12 years old (Includes the following organizations: Culpeper Human Services; K.I.D.S., Inc.; Lee County Child Care; Lewis Children's Center at St. Joseph's Villa; People Incorporated of Southwest Virginia; Rappahannock Area YMCA; Reston Interfaith, Inc.; William Byrd Community House; YWCA of South Hampton Roads; YMCA of Greater Richmond) |
| Virginia Child Care Resource and Referral Network | Non-profit organization with 12 member agencies statewide is contracted to provide resource and referral information to parents/families about specific child care needs; administration of the TEACH-Virginia scholarship and wage incentive program for child care providers |

Virginia Commonwealth

FY 2010

University - Virginia Institute for Social Services Training Activities (VCU-VISSTA) and Area Training Centers

Contracted with through June 30, 2008 for child care provider training registration services, site location and coordination, and minimal catering

Virginia Early Childhood Foundation

Contracted to provide local grants to improve the quality of infant and toddler care at the local level

Products and Services

• Factors Impacting the Products and/or Services:

Among the factors impacting the products and services associated with these child care quality activities are: Storage limitations at VDSS for training materials and resources (i.e., Storage space at Goodwill Industries is very limited and cannot currently meet our needs)

Limits with state procurement system (requiring Early Childhood Education weekend trainers to join eVA and the \$5,000 annual limit per trainer) and state contracts

The Virginia Child Care Provider Scholarship Program is significantly impacted by the rising cost of community college tuition; the number of child care providers that can receive awards for scholarships are limited to the \$600,000 annual appropriation. Increased costs decrease the number of potential awards that can be made with the finite funding.

Lack of Early Childhood Education degree programs to prepare qualified teachers affect this service area, especially the lack of 4-year degree programs and individuals successfully completing the curricula.

There are insufficient numbers of caregivers for children with special needs (infants and toddlers, disabled/challenged children, sick children, children who need care at night or odd times, etc.).

A more comprehensive approach to training the early care and education workforce is needed and is being pursued by VDSS, the Governor's office and many early childhood advocates.

Work hours of the workforce limit offerings for training sessions, which often have to be held in the evenings and on weekends, with weekends being preferred by most child care teachers and directors.

• Anticipated Changes to the Products and/or Services

VDSS may have to order fewer publications to alleviate storage issues. This may cause a lapse in distribution to parents.

Developing a professional development infrastructure for child care professionals will provide better training and education opportunities and will contribute to improving the quality of child care resources statewide.

Considerations are also being made to changing the Virginia Child Care Provider Scholarship Program regulation to streamline procedures and give priority to current child care teachers/directors.

- Listing of Products and/or Services
 - o Child Care Provider Scholarships
 - o Child Care Provider Training and Technical Assistance
 - Support of organizations serving communities
 - o New Parent Kits
 - Child Care Resource and Referral Services

Biennium: 2008-10 ✓

Service Area 7 of 33

Temporary Assistance for Needy Families (TANF) Cash Assistance (765 452 01)

Description

This service area funds the cash assistance payments made to no income and extremely low income families as part of one of the Commonwealth's key safety net programs, the Temporary Assistance for Needy Families (TANF) Program. To be eligible for the program, a family must include a dependent child and have income of approximately 25 percent or less of the poverty threshold, about \$7,000 per year for a family of three. Unless exempt, participants are required to work or participate in a work activity as a condition of their continued eligibility. No participant may receive more than 60 months of TANF cash assistance during her or his lifetime. The average payment is \$271 per month, and most families stay on cash assistance less than one year with more than half leaving assistance within 6 months.

Background Information

Mission Alignment and Authority

• Describe how this service supports the agency mission

By assisting needy families, the TANF cash assistance payments help individuals triumph over poverty and shape strong futures for themselves, their families and communities. The TANF program enables the Commonwealth's most vulnerable and needy families to meet their basic human needs and rebuild their lives. This assistance often helps those served avoid the unfortunate trade-off between housing, food and medical care.

• Describe the Statutory Authority of this Service

Title IV-A of the Social Security Act

•45 CFR 260 - 286

•Code of Virginia, §63.2-600-607, 612, 613, 614, 617, 618

•22 VAC 40-295

Customers

| Agency Customer Group | Customer | Customers served annually | Potential annual customers |
|--|-------------------------------------|------------------------------|-------------------------------|
| Individuals, Children and Families (served unknown; potential unlimited) | Low income individuals and families | 150,000 | 200,000 |

Anticipated Changes To Agency Customer Base

From 2000 to 2003 (most recent Census data), the number of Virginians living in poverty increased 28% with 740,000 Virginians now living below the federal poverty threshold. This increase is likely to continue driving increases in the number of potential eligible households and the number of successful applicants enrolled in the program.

State agencies

Products and Services

• Factors Impacting the Products and/or Services:

Reauthorization of TANF has been passed. Congressional action related to TANF reauthorization has had major implications for service delivery in Virginia. Additionally, inflation erodes the purchasing power of the cash assistance grant because the grants are in no way indexed or contain a cost of living increase as do other safety net programs including Food Stamps. Grant levels have only been updated once in the last 20 years (July 2000). Without an annual increase to keep pace with inflation, the value of the assistance provided to the most vulnerable Virginians will continue to diminish. Virginia has one of the lowest cash assistance benefit levels in the nation (41st).

• Anticipated Changes to the Products and/or Services

Direct deposit of funds, rather than check issuance of benefits is now available. The Department of Social Services will promote this option and will over time, convert more cases to the direct deposit or other electronic means.

- Listing of Products and/or Services
 - Economic assistance to low income families/individuals or nutrition, child care, health care eligibility, and financial
 assistance to low income families/individuals
 - o Financial support for children

Finance

• Financial Overview

TANF cash assistance payments are funded by a combination of federal and general fund. The federal funds come from the State Family Assistance Grant, commonly referred to as the TANF Block Grant.

Biennium: 2008-10 ∨

Service Area 8 of 33

Child Support Supplement (765 452 11)

Description

This service area funds the Child Support Supplement payments made to eligible individuals participating in one of the Commonwealth's safety net programs, the Temporary Assistance for Needy Families (TANF) program which provides cash assistance to extremely low and no income families. The 2003 session of the Virginia General Assembly directed the Department of Social Services to pay to TANF households a payment equal to the child support collected each month, less the first \$100. These payments, known as Child Support Supplements, are paid from TANF funds. The child support supplement is distributed directly to participants via check or direct deposit.

Background Information

Mission Alignment and Authority

• Describe how this service supports the agency mission

The Child Support Supplement Payments assist low-income families in meeting their basic human needs, a cornerstone of the social services system's mission to help individuals and families triumph over poverty and enable them to shape stronger futures for themselves and their families.

• Describe the Statutory Authority of this Service

The 2002 Acts of Assembly mandated the Department of Social Services to provide to recipients of TANF cash assistance a monthly TANF supplement in an amount up to the current child support collected by the Division of Child Support Enforcement for each TANF recipient, less any disregard passed through to such recipient pursuant to any other provision of law.

Customers

| Agency Customer Group | Customer | Customers served annually | Potential annual customers |
|--|-------------------------------------|------------------------------|-------------------------------|
| Individuals, Children and Families (served unknown; potential unlimited) | Low income individuals and families | 9,600 | 31,000 |

Anticipated Changes To Agency Customer Base

The rise in the TANF cash assistance program caseload and the continued success of the Division of Child Support Enforcement in collecting child support from non-custodial parents continue to drive increases in the number of individuals receiving the child support supplement.

Partners

| Partner | Description |
|--------------------------------------|---|
| Local Departments of Social Services | Administer programs and provide direct services to eligible customers |

Products and Services

• Factors Impacting the Products and/or Services:

The Child Support Supplement is impacted by the limitations of the allocation. To provide a payment in the full amount of the child support collected would require a larger appropriation. The current appropriation requires payments to be prorated.

- Anticipated Changes to the Products and/or Services
 - None
- Listing of Products and/or Services
 - o Economic assistance to low income families

Finance

Financial Overview

Funding for the Child Support Supplement is provided by the federal TANF Block Grant.

• Human Resources Overview [Nothing entered]

Human Resource Levels

Total Human Resource Level | 0.0 | = Current Employment Level + Wage and Contract Employees

Factors Impacting HR

[Nothing entered]

• Anticipated HR Changes [Nothing entered]

Service Area Objectives

 To provide TANF recipients a supplemental payment equal to the amount of the current support collected each month by the Division of Child Support Enforcement (DCSE)

Alignment to Agency Goals

o Agency Goal: Maximize the economic independence, safety and stability of individuals and families

Link to State Strategy

o nothing linked

Objective Measures

o Percent of qualified participants that receive a child support supplement payment

| Measure Class: Other Measure | sure Type: Outcome | Measure Frequency: | Annual | Preferred Trend: | Maintain |
|------------------------------|------------------------|--------------------------|------------|--------------------|----------|
| Measure Baseline Value: 100 | Date: 6/30/2006 | | | | |
| Measure Baseline Description | : 100% of qualified pa | rticipants received a ch | ild suppoi | rt supplement in S | FY 2005 |
| Measure Target Value: 100 | Date: 6/30/2012 | | | | |

Measure Target Description: 100% of qualified participants will receive a child support supplement by the end of SFY 2009

Data Source and Calculation: The data source is VDSS internal information systems. The percentage for this measure is calculated by dividing the number of child support supplement payments issued (numerator) by the total number that should have been issued, accounting for exceptions and cases where the payment would have been \$0.00.

Service Area Strategic Plan

Department of Social Services (765)

3/14/2014 4:19 pm

Biennium: 2008-10 ∨

Service Area 9 of 33

Temporary Assistance for Needy Families (TANF) Employment Services (765 452 12)

Description

This service area is responsible for workforce services provided to current and former TANF program participants. The Virginia Initiative for Employment not Welfare (VIEW) program, a component of this service area, is a workforce program operated by local departments of social services and provides services to individuals receiving TANF cash assistance payments or who have recently exited the TANF program for employment. The primary goal is to enact proven service approaches and strategies that help current and former TANF clients prepare to enter, succeed and advance in the workplace. VIEW offers a wide range of workforce services including job readiness classes, job search assistance, education, training, community work experience placements (internships), and subsidized employment. VIEW also offers support services such as child care, transportation and purchases of work related items like uniforms.

In addition to VIEW, the Department contracts with public and private entities to provide job retention and wage advancement services to hard-to-serve TANF participants and those who have exited the TANF program. Services are procured through a competitive process and funding is contingent upon performance.

Background Information

Mission Alignment and Authority

- Describe how this service supports the agency mission
 By helping individuals gain skills and find employment, the Virginia Initiative for Employment not Welfare (VIEW) program assists low-income families in overcoming poverty and building strong futures for themselves, their families, and their communities.
- Describe the Statutory Authority of this Service
 Public Law 104-193, the Personal Responsibility and Work Opportunity Act passed in August of 1996

Code of Federal Regulations (CFR 45) – Title 45 are regulations for Public Welfare and outline eligibility for cash assistance and employment programs.

§63.2-608 Code of Virginia, is the state law that establishes and provides guidelines to establish and administer Virginia Department of Social Services, employment program. Virginia's employment program is Virginia Initiative for Employment, not Welfare (VIEW). TANF recipients that able to work are referred to VIEW.

§63.2-609 Code of Virginia, is the state law that allows Virginia to exempt some TANF recipients from VIEW.

§63.2-610, Code of Virginia, is the state law that provides case management for VIEW. §63.2-611, Code of Virginia, is the state law that allows case management for VIEW cases. All VIEW clients are assigned to a case manager who explains the VIEW program and provide supportive services such as child care, transportation, crisis and screens for barriers to employment.

§63.2-612, Code of Virginia, is the state law that allows participants in the VIEW program to receive 24 months of TANF, be off of TANF for 24 months and then be eligible to reapply for TANF.

§63.2-613, Code of Virginia, is the law which allows a VIEW participant to receive more than 24 months of TANF if the participant can show a hardship. If the participant is granted a hardship he may continue to receive TANF for up to 12 more months. The hardship approval will allow the client to participant in employment related education and training.

Customers

| Agency Customer Group | Group Customer | | Potential annual customers |
|--|--------------------------------------|--------|----------------------------|
| Governmental Entities (served unknown; potential unlimited) | Local Departments of Social Services | 120 | 120 |
| Individuals, Children and Families (served unknown; potential unlimited) | Low income individuals and families | 30,803 | 30,803 |

Anticipated Changes To Agency Customer Base

Due to the economy and the increase in the unemployment rate, the number of TANF participants has increased as has the number of people participating in VIEW. In addition, job placement has become more difficult as the relatively unskilled VIEW population is competing against more skilled displaced workers for a decreasing number of positions.

Partners

| Partner | Description |
|---|---|
| Local Departments of Social Services (LDSS) | Responsible for administering programs and providing direct service delivery to customers |
| Virginia Employment Commission (VEC), Virginia Department of Rehabilitative Services (DRS) | Coordination and assistance with delivering services to targeted populations |
| Virginia Institute for Social Services Training Activities (VISSTA) | Provider of training for LDSS workers |

Products and Services

• Factors Impacting the Products and/or Services:

Among the most significant factors impacting the services in this area are the increasing number of individuals living in poverty in the Commonwealth and the changes required by the reauthorization of the TANF program in the Deficit Reduction Act (DRA) of 2005. The legislation enacted in February 2006 required statutory changes as well as realignment of resources to meet new federal mandates. Important DRA provisions also changed the allowable uses of state funds which altered Virginia's ability to exempt certain individuals from the work requirement. The most significant change required the Department and its partners to provide employment services to twice as many individuals each

month, necessitating significant infrastructure changes and allowances for increased demand in TANF-related child care services.

In addition to changes in federal regulations, labor market fluctuations and demands for different skills among employable adults affect the design and delivery of workforce services for TANF recipients.

• Anticipated Changes to the Products and/or Services

As the Virginia economy continues to focus on service and information-technological based sectors, the VIEW program must find ways to help participants gain the requisite skills including traditional basic skills along with computer and financial literacy. Due to current economic conditions, local departments will have to provide services to more clients without increases in funding. These supportive services are expensive to provide and many communities lack adequate numbers of providers or geographical access to them.

- Listing of Products and/or Services
 - Support and supervision of local departments of social services responsible for program administration and direct service delivery
 - o Economic assistance to low income families/individuals in efforts to promote self sufficiency

Finance

Financial Overview

This service area consists of the Virginia Initiative for Employment, not Welfare (VIEW) program and the TANF Employment Advancement Grants. The TANF Employment Advancement Grant began December 1, 2004 and is funded 100% with federal TANF funds. VIEW funding is a mixture of federal and state funds.

Service Area Objectives

We will assist low-income Virginians to obtain employment by providing high quality workforce services to TANF
participants

Alignment to Agency Goals

 $\circ \ \ \text{Agency Goal: Maximize the economic independence, safety and stability of individuals and families}$

Link to State Strategy

o nothing linked

Objective Measures

o Percent of TANF participants gainfully employed at least six months after program exit

SFY 2005

Measure Target Value: 65 Date: 6/30/2010

Measure Target Description: 65% of former TANF participants will be employed 6 months after program exit by the end of SFY 2010

Data Source and Calculation: Source – ADAPT and ES202 wage data from VEC; Calculation – former Virginia Initiative for Employment, not welfare (VIEW) participants employed 6 months after exiting the TANF divided by the total number leaving VIEW 6 months previous

o Percent of TANF participants engaged in a work activity

| Measure Class: Other Measure Type: Outcome Measure Frequency: Annual Preferred Trend: Up |
|---|
| Frequency Comment: % engaged in work activities |
| Measure Baseline Value: 46.3 Date: 6/30/2005 |
| Measure Baseline Description: 46.3% of TANF participants were engaged in a work activity in FFY 2005 |
| Measure Target Value: 50 Date: 6/30/2010 |
| Measure Target Description: 50% of TANF participants will be engaged in a work activity by the end of FFY |

Data Source and Calculation: Employment Services Program Automated System (ESPAS). The federal participation rate equals the number of individuals enrolled in Virginia Initiative for Employment not Welfare (VIEW) who participate in countable work activities for a requisite number of hours divided by the total number of TANF cases minus child only cases and VIEW exempt cases.

Biennium: 2008-10 ∨

Service Area 10 of 33

Food Stamp Employment and Training (FSET) Employment Services (765 452 13)

Description

This service area is responsible for the implementation of the Food Stamp Employment and Training Program (FSET) which provides workforce services to individuals participating in the Commonwealth's largest nutrition assistance program, the Food Stamp Program. Workforce services provided by the FSET program include job readiness classes, job search assistance, education, training, and community work experience (internships). These services are offered to participants to assist them in attaining unsubsidized employment and attain or move toward self-sufficiency.

Background Information

Mission Alignment and Authority

- Describe how this service supports the agency mission
 By helping individuals gain skills and find employment, the FSET program assists low-income families in overcoming poverty and builds strong futures for themselves, their families, and their communities.
- Describe the Statutory Authority of this Service
 The FSET program is administered by the U.S. Department of Agriculture under federal statutory authority by virtue of the Food Stamp Act of 1977, as amended by the 2002 Farm Bill.

Customers

| Agency Customer Group | Customer | Customers served annually | Potential annual customers |
|--|--------------------------------------|------------------------------|-------------------------------|
| Governmental Entities (served unknown; potential unlimited) | Local Departments of Social Services | 23 | 120 |
| Individuals, Children and Families (served unknown; potential unlimited) | Low income individuals and families | 7,605 | 10,000 |

Anticipated Changes To Agency Customer Base

The Food Stamp program has experienced continual caseload growth in the last three years resulting from increases in the number of Virginians living in poverty and aggressive outreach activities to enroll eligible individuals into the Food Stamp Program. Higher numbers of Food Stamp recipients lead to increases in FSET participation. Many Food Stamp participants may voluntarily participate in this service, further increasing the customer base. The majority of FSET participants are currently required to participate as a condition of their continued receipt of nutrition assistance; however, any Food Stamp participant may volunteer to participate. There is one less local department of social services offering services in FY 2008.

Partners

Partner Description

Local Departments of Social Services

Local workforce service providers

State agencies

Products and Services

- Factors Impacting the Products and/or Services:
 - As a result of the elimination of the Maintenance of Effort (MOE) requirement via the 2002 Farm Bill and limited federal funding, only 23 local departments of social services covering 26 localities operate a formal FSET program. Limited funding and stringent regulations around sanctioning and participation make the implementation of the program by local departments of social services difficult given the modest amount of funding available.
- Anticipated Changes to the Products and/or Services
 In order to expand program services to more Food Stamp participants, statewide initiatives are being developed with partner agencies that can contribute match to draw down federal funds.
- Listing of Products and/or Services
 - o Services that promote sufficiency

Finance

- Financial Overview
- This Food Stamp Employment and Training (FSET) program is 100% federally funded by the U.S. Department of Agriculture. There are also 50/50 matching federal funds available to match state or local funds.

Service Area Objectives

 Assist low-income Virginians in obtaining employment by provide high quality workforce services to Food Stamp participants

Objective Description

The FSET Program offers, as appropriate, the following components: job search assistance, basic employment skills training, education, training, and community work experience (internships) to help Food Stamp participants find

employment.

Alignment to Agency Goals

o Agency Goal: Maximize the economic independence, safety and stability of individuals and families

Comment: This objective aligns with the Council on Virginia's Future Long-Term goals: to "Inspire and support Virginians toward healthy lives and strong and resilient families" and "elevate the levels of educational preparedness and attainment of our citizens ".

Objective Strategies

- Expand workforce services through partnering with other state agencies and local workforce providers including
 One Stop Career Centers
- o Provide technical assistance and training

Link to State Strategy

o nothing linked

Biennium: 2008-10 ∨

Service Area 11 of 33

Temporary Assistance for Needy Families (TANF) Child Care Subsidies (765 452 14)

Description

This service area provides child care assistance to TANF families who are working or engaged in work activities.

Transitional Child Care assistance is also provided to eligible post-TANF families who are working. Child care subsidies are provided through the local departments of social services.

Background Information

Mission Alignment and Authority

- Describe how this service supports the agency mission
 - By assisting TANF families with child care assistance, this service area helps them become more self-sufficient, shape strong futures for themselves and contribute towards their communities through work.
- . Describe the Statutory Authority of this Service

Federal Legal Basis - The Child Care Development Block Grant (Public Law 101-508) Hunger Prevention Act of 1988

Personal Responsibility and Work Opportunity Reconciliation Act of 1996, amended PL 101-508 to become the Child Care and Development Fund (CCDF); legislation which establishes the work requirements associated with the Temporary Assistance for Needy Families (TANF) Block Grant and establishes the Child Care and Development Fund Block Grant to increase the availability, affordability and quality of child care, serving TANF and low-income families through child care subsidies.

Federal Regulation – 45 CFR, Parts 98 & 99, which set the regulations for the state Lead Agency to administer the CCDF

Code of Virginia - §§ 63.2-611 and 63.2-616, which focuses on the Virginia Independence Program (VIP) and the Virginia Initiative for Employment not Welfare (VIEW) Program.

Customers

| Agency Customer Group | Customer | Customers served annually | customers | |
|--|--------------------------------------|------------------------------|-----------|--|
| General Public (served unknown; potential unlimited) | General Public | 62,538 | 0 | |
| Governmental Entities (served unknown; potential unlimited) | Local Departments of Social Services | 120 | 120 | |
| Businesses (served unknown; potential unlimited) | Providers (Child Care Providers) | 10,300 | 0 | |
| Individuals, Children and Families (served unknown; potential unlimited) | TANF related children | 15,875 | 0 | |

Anticipated Changes To Agency Customer Base

TANF Child Care caseloads increase or decrease as TANF caseloads change. Consistent with the recent decreases in the number of TANF cases, TANF child care subsidy recipients also declined. Although the child care subsidy caseload decreased, costs for child care services have steadily risen. Expenditures for child care assistance have continued to increase in each year of the past five fiscal years. Any decrease in families served has been offset by higher child care costs paid directly to child care providers.

Products and Services

• Factors Impacting the Products and/or Services:

The need for greater quality in the child care industry continues to increase. Recent research has highlighted that the earliest years of a child's life are the most important for healthy development, and becoming ready to succeed in school and later life. In Virginia, Department of Education test scores for kindergarteners indicate that one in every five children is not ready for school. Approximately 65% of Virginia's children aged five and under are in some form of child care, but there are many types of care and varying levels of quality available for families. Likewise, the cost of child care can be more than the cost of a year of college tuition, making child care a major expense for low-income families.

Anticipated Changes to the Products and/or Services

Federal requirements for implementation of a Child Care Error rate mandate the development and implementation of a Child Care Quality Assurance program. Virginia is scheduled to reach full implementation status in FFY09. Automation of the Child Care Subsidy program and the creation of an online training/education tracking system for improving provider competencies in early care and education will ensure that VDSS is able to meet federal requirements and provide for customer service needs.

As a result of the Deficit Reduction Act of 2006, increased funding requirements for TANF associated cases lower the amount of funding available for other eligible low-income families, who, by definition, are at risk of becoming dependent upon TANF. VDSS and local departments must continually balance these competing customer needs.

- Listing of Products and/or Services
 - o Support of organizations serving communities
 - $\,\circ\,$ Services to promote family stability

- Economic assistance to low income facilities/individuals or nutrition, child care, health care and financial assistance to low income families/individuals
- o Services that promote self-sufficiency

Finance

- Financial Overview
 Funding for the TANF Day Care program comes from general funds and federal funds. The federal funds are from the Child Care and Development Fund (CCDF) Mandatory and Matching funds.

Service Area Objectives

Provide eligible TANF children child care subsidy assistance

Alignment to Agency Goals

o Agency Goal: Maximize the economic independence, safety and stability of individuals and families

Comment: Providing child care for all TANF children who need it is strategically aligned with the mission of the agency. It also supports the Council on Virginia's Future long term objective: Inspire and support Virginians toward healthy lives and strong, resilient families.

Link to State Strategy

o nothing linked

Objective Measures

O Number of TANF children who receive child care subsidies

Measure Class: Other Measure Type: Output Measure Frequency: Annual Preferred Trend: Maintain

Frequency Comment: Number of TANF children served through child care subsidies

Measure Baseline Value: 28217 Date: 6/30/2005

Measure Baseline Description: 28,217 TANF children received a child care subsidy in SFY 2005

Measure Target Value: 28217 Date: 6/30/2010

Measure Target Description: 28,217 TANF children will receive a child care subsidy by the end of SFY 2010

Data Source and Calculation: The data will be captured through the Child Care Interim System, in which local departments report client and case specific expenditures each month. An unduplicated count of children by program area can be calculated.

Biennium: 2008-10 ∨

Service Area 12 of 33

At-risk Child Care Subsidies (765 452 15)

Description

This service area provides child care assistance to non-TANF families who are working and at risk of becoming dependent on TANF. Child care subsidies are provided through the local departments of social services.

Background Information

Mission Alignment and Authority

- Describe how this service supports the agency mission
 By assisting low income families who are at risk of becoming dependent on TANF with child care assistance, this service area helps them become more self-sufficient, shape strong futures for themselves and contribute towards their communities through work.
- Describe the Statutory Authority of this Service

Federal Legal Basis - The Child Care Development Block Grant (Public Law 101-508) Hunger Prevention Act of 1988 Personal Responsibility and Work Opportunity Reconciliation Act of 1996, amended PL 101-508 to become the Child Care and Development Fund (CCDF); legislation which establishes the work requirements associated with the Temporary Assistance for Needy Families (TANF) Block Grant and establishes the Child Care and Development Fund Block Grant to increase the availability, affordability and quality of child care, serving TANF and other low-income families through child care subsidies.

Federal Regulation – 45 CFR, Parts 98 & 99, which set the regulations for the state Lead Agency to administer the CCDF

Code of Virginia - §§ 63.2-616 which allows local department to provide services to families who are not receiving TANFand § 63.2-319- Child Welfare and other services.

Products and Services

• Factors Impacting the Products and/or Services:

The need for subsidies for child care for low-income families not associated with TANF continues to grow. In July 2007, there were 6,708 families (10,451 children) statewide on local department of social services waiting lists for child care subsidies. These are potentially eligible families who need child care assistance, but for whom there is not enough funding to subsidies.

Recent research has highlighted that the earliest years of a child's life are the most important for healthy development, and becoming ready to succeed in school and later life. Approximately 65% of children aged five and under are in some form of child care, but there are many types of care and varying levels of quality available for families. Likewise, the cost of child care can be more than a year of college tuition, making child care and major expense for low-income families. The Department has to balance investments in mandated child care subsidies for TANF families with the need to also provide assistance to at-risk, low-income families in danger of becoming TANF recipients.

Anticipated Changes to the Products and/or Services

The federal legislation that guides CCDF was included in the Personal Responsibility and Work Opportunity Reconciliation Act (PRWORA) of 1996, which was re-authorized as part of the Deficit Reduction Act of 2005. The legislation includes mandates for increased work activities for more TANF families, which will require more investment in child care subsidies. This lowers the amount of funding available for other eligible low-income families, who, by definition, are already at risk of becoming dependent upon TANF.

Federal requirements for implementation of a Child Care Error Rate mandate the development and implementation of a Child Care Quality Assurance program. Virginia is scheduled to reach full implementation status in FFY09. Automation of the Child Care Subsidy program and the creation of an online training/education tracking system for improving provider competencies in early care and education will ensure the VDSS' ability to meet federal requirements and customer service needs.

• Financial Overview

Funding for the Non-TANF Day Care program comes from general funds and federal funds. The federal funds come from the Child Care and Development Fund (CCDF) – Discretionary, Mandatory and Matching funds.

Service Area 13 of 33

Unemployed Parents Cash Assistance (765 452 16)

Description

The Unemployed Parents Cash Assistance service area is temporary assistance for provided to needy families with children where two able-bodied parents are present. As with TANF, TANF-UP provides temporary cash assistance and employment-related services to enable two-parent families with children to become self-supporting. TANF-UP recipients also participate in VIEW.

Background Information

Mission Alignment and Authority

• Describe how this service supports the agency mission

By helping individuals gain skills and find employment, the Unemployed Parents Cash Assistance or TANF-UP program assists low-income families in overcoming poverty and building strong futures for themselves, their families,

• Describe the Statutory Authority of this Service

Public Law 104-193, the Personal Responsibility and Work Opportunity Act passed in August of 1996 Code of Federal Regulations (CFR 45) - Title 45 are regulations for Public Welfare and outline eligibility for cash assistance and employment programs.

§63.2-6080 Code of Virginia, is the state law that establishes and provides guidelines to administer the TANF Program in the commonwealth

§63.2-609 Code of Virginia, is the state law that allows Virginia to exempt some TANF recipients from VIEW.

§63.2-610, Code of Virginia, is the state law that provides case management for VIEW.

Customers

| gency Customer Group Customer | | Customers served annually | Potential annual customers |
|--|--|------------------------------|-------------------------------|
| Individuals, Children and Families (served unknown; potential unlimited) | Children in unemployed two-parent families | 3,117 | 3,200 |
| Individuals, Children and Families (served unknown: potential unlimited) | Unemployed two-parent families | 2,682 | 3,000 |

Anticipated Changes To Agency Customer Base

A significant factor that may potentially influence this customer base is the slowing Virginia economy as evidenced by a projected revenue shortfall. The results from a slumping housing market may increase the number of two-parent families seeking assistance.

Service Area 14 of 33

Eligibility Determination Local Staff and Operations (765 460 03)

Description

This service area funds the eligibility determination of Virginia's safety net programs, a service conducted by local departments of social services. The safety net programs include: the Commonwealth's largest nutrition assistance program, the Food Stamp Program; financial assistance programs including Auxiliary Grants, the Energy Assistance Program, the General Relief Program, and the Temporary Assistance for Needy Families Program (TANF); and medical assistance programs (FAMIS, Medicaid, State and Local Hospitalization, and the low-income subsidy for the Medicare prescription drug plans). There are 120 local departments of social services at 150 physical locations throughout the Commonwealth.

Background Information

Mission Alignment and Authority

• Describe how this service supports the agency mission

This service area supports the mission of the Department through the administration of programs that help individuals meet their basic human needs. These financial, nutrition, and medical services help individuals move out of poverty and build strong families and communities. Often, this service area is the first point of contact for the individual/family in the social services system, and the financial assistance provided by the services area stabilizes the family, enabling them to pursue additional services targeted at improving their financial status and overcoming poverty.

• Describe the Statutory Authority of this Service

Statutory authority for all this service area is found in the Code of Virginia (1950), as amended §63.2-200-63.2-336. This section of the Code gives local departments of social services the responsibility to determine eligibility and perform the necessary case management services for these safety net programs.

Customers

| Agency Customer Group | Customer | Customers served annually | Potential annual customers |
|--|-------------------------------------|------------------------------|-------------------------------|
| Individuals, Children and Families (served unknown; potential unlimited) | Low income individuals and families | 1,630,000 | 0 |

Anticipated Changes To Agency Customer Base

From 2000 to 2003 (most recent Census data), the number of Virginians living in poverty increased 28% with 740,000 Virginians now living below the federal poverty threshold. This increase is likely to continue driving increases in the number of potential eligible households and the number of successful applicants enrolled in the program.

The Food Stamp program has experienced continual caseload growth in the last three years resulting from increases in the number of Virginians living in poverty and aggressive outreach activities to enroll eligible individuals into the Food Stamp Program.

Virginia's Covering Families and

• Factors Impacting the Products and/or Services:

The principal factors impacting the products and services provided by this service area include changes in federal and state legislation and the increasing workload at local departments of social services resulting from increased program caseloads

• Anticipated Changes to the Products and/or Services

One of the biggest challenges of this service area is the efforts of policy makers at both the national and state levels to make policy changes to reduce poverty. This service area must respond to these changes while maintaining continuity for our customers. Similarly federal changes to the TANF program and state efforts to reduce the number of children without adequate health insurance will create additional demands on the service area.

Additionally, the current movement toward efficiency and program simplification will continue. All program applications are moving on-line, and customers will have increasing flexibility to access programs and services without having to come into a local department of social services. Using the web, points of access and the level of program information will increase

- Listing of Products and/or Services
 - o Support of organizations serving communities
 - Economic assistance to low income families/individuals or nutrition, child care, health care eligibility, and financial
 assistance to low income families/individuals

Finance

• Financial Overview

Funding for this service area comes from a combination of federal, state and local funds. The Code of Virginia §63.2-400 specified that no less than 50 percent of the funding necessary to administer public assistance program shall come from federal and state funds. By action of the State Board of Social Services, the funding split for local administration is

50 percent federal fund, 30 percent general fund, and 20 percent local fund. The federal funds come from various federal grant sources including Food Stamps, Medicaid, TANF, Title IV-E Foster Care, and the Social Services Block Grant (SSBG). This base appropriation also includes federal funds for local administration pass thru and local service cost allocation expenditures as well as \$1,500,000 in fraud funds (fund 0911) to support the Fraud program.

Objective Measures

o Percent of Food Stamp cases processed within federal timeliness standards

Measure Class: Other Measure Type: Output Measure Frequency: Annual Preferred Trend: Maintain Frequency Comment: % of FS cases processed timely Measure Baseline Value: 98 Date: 6/30/2005 Measure Baseline Description: 98% of Food Stamp cases were processed within federal timeliness standards in

Measure Target Value: 99 Date: 6/30/2010

Measure Target Description: 99% of Food Stamp cases will be processed within federal timeliness standards by the end of FFY 2010 $\,$

Data Source and Calculation: Timeliness is captured from ADAPT and is calculated in relation to the federal standard

Department of Social Services (765)

3/14/2014 4:19 pm

Biennium: 2008-10 ✓

Service Area 15 of 33

Social Worker Local Staff and Operations (765 460 06)

Description

This service area funds units dedicated to adults, children and families: Adoptions, Adult Services, Child Protective Services, Domestic Violence, and Foster Care/Family Preservation and Independent Living programs administered by the local departments of social services. The programs are designed to address those who are most in need. The 120 local departments of social service balance the role of providing effective intervention, and emphasizing personal responsibility while ensuring the safety, stability and well-being for the most vulnerable of the Commonwealth's population. The programs of the Department of Social Services are state supervised and locally administered. The division programs operated at the local level include Adoptions, Adult Services, Adult Protective Services, Auxiliary Grants, Child Protective Services, Domestic Violence, Foster Care, Independent Living for Foster Care Youth, Safe and Stable Families.

Background Information

Mission Alignment and Authority

- Describe how this service supports the agency mission
 - This service area supports the mission of the Department through working to promote the safety, permanency, and well-being for the children, families, individuals, and communities in the Commonwealth
- Describe the Statutory Authority of this Service
 - Title IV-B of the Social Security Act requires federal expenditures for State public child welfare agencies in establishing, extending and strengthening child welfare services.
- · The Code of Virginia provides statutory authority for the provision of protective services program activities through the following:
- Title 63.2 Welfare (Social Services)
- Title 63.2 Chapter 1 General Provisions;
- Title 63.2 Chapter 2 State Social Services;
- Title 63.2 Chapter 3 Local Boards of Social Services;
- Title 63.2 Chapter 9 Foster Care;
- Title 63.2 Chapter 11 Implementation of the Interstate Compact on the Placement of Children;
- Title 63.2 Chapter 15 Child Abuse and Neglect;
- Title 63.2 Chapter 16 Adult Services;
- § 63.2-410 State pool of funds under the Comprehensive Services Act;
- § 63.2-800 Auxiliary Grants (AG)
- § 63.2-1804 Uniform Assessment Instrument
- Title 16.1 Courts not of Record; §§16.1-251; 16.1-252, 16.1-277.01, 16.1-277.02, 16.1-278.2, 16.1-278.3, 16.1-278.4,
- 16.1-281, 16.1-282, 16.1-282.1, 16.1-283.
- § 2.7-708 Coordination of Local Long-Term Care Services
- § 22.1-287.D.3 Limitation on access to records.
- § 32.1-330 Preadmission Screening Required
- \S 37.1-98 Discharge, Conditional Release, and Convalescent Status of Patients
- § 37.1-197 Community Services Board; Powers and Duties
- § 37.1-197.1 Prescription Team
- 42.U.S.C. 5101 et seq.; Child Abuse Prevention and Treatment Act, as amended,
- 42 U.S.C. 5116 et seq. provides grants to States for the purpose of assisting States in developing, establishing, and operating programs designed to improve the handling of child abuse and neglect cases, including child sexual abuse, child fatalities, and children with disabilities.
- 42 U.S.C. 5116 Title II Community-Based Grants for the Prevention of Child Abuse and Neglect.
 P.L. 98-473; The Victims of Crime Act of 1984
 22 VAC 40-700-10 et seq. Child Protective Services Central Registry Information

- 22 VAC 40-260-20 Subsidy Adoption Assistance
- 22 VAC 40-240-20 Responsibilities of the agency in juvenile court proceeding for parental placement adoptions

Products and Services

• Factors Impacting the Products and/or Services:

With a significantly increased population of vulnerable adults and growing demand for adult services and adult protective services, there will be a need for more social workers, institutional and home care workers. More training materials and public education materials and programs will be needed. These situations may require revised services and products for the customer base.

The factors impacting products and services for older youth include the lack of adequate funding and resources for providing independent living services and the lack of community support and involvement with these young people. These are especially critical components of helping older youth successfully transition to adulthood given the nationwide trend of increased numbers of youth over age 13 entering the foster care system and exiting to independent living situations.

The majority of children in foster care with the goal of adoption are children with special needs and will require state and federal funds for adoption assistance. As the number of children achieving adoption increases, it can be expected that expenditures for adoption assistance will increase.

Funding for prevention and in-home services to prevent foster care placement is inadequate, resulting in children entering the foster care system solely to receive needed mental health and physical health treatment. Virginia law does not mandate that prevention services be provided in order to prevent the possibility of placement in foster care. The lack of adequate funding for prevention services places a greater financial burden on the citizens of the Commonwealth to fund foster care placements.

Anticipated Changes to the Products and/or Services

A new Adult Protective Services web-based case management system came on line in 2005, which should make case management and reporting more efficient and provide easier access to case information for LDSS supervisors and managers. Development of improvements to the child welfare information system, CHILDWINS, will commence in 2007.

- Listing of Products and/or Services
 - Support of organizations serving communities
 - o Recruitment of volunteers and training on management of volunteers
 - o Services to promote family stability
 - o Services to protect vulnerable adults
 - Economic assistance to low income families/individuals or nutrition, child care, health care eligibility, and financial assistance to low income families/individuals
 - o Financial support for children
 - o Services that promote sufficiency
 - o Services to protect children
 - o Services to ensure that children have permanent homes
 - Support Services (i.e. HR. IS. etc.)?
 - o Photo-listing books of children waiting for adoption
 - $\,\circ\,$ Photo-listing books of approved adoptive families
 - $\,\circ\,$ Display boards for recruitment
 - o Brochures and pamphlets on Family Services
 - o Up-dated recruitment brochures
 - Contracts with private child placing agencies and community organizations to provide a full array of adoption services.
 - o Annual newsletters
 - $\,\circ\,$ Handbook for attorneys on Virginia's adoption laws
 - Refugee Elderly Assistance Program (REAP): interpretation & translation; health screenings and workshops; citizenship preparation; English language training; and employment training.
 - $\circ\,$ Independent Living training for Local departments of social services staff

- $\,\circ\,$ Training professionals in kinship care
- o Training kinship care providers

Finance

• Financial Overview

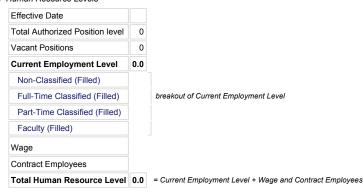

Funding for the Social Worker Services comes from general funds and federal funds. The federal fund percentages are based on cost allocation. Federal funding sources include the Social Services Block Grant (SSBG), Title IV-E Foster Care and Adoptions, TANF, Child Welfare Services grant.

Service Area 16 of 33

Support Enforcement and Collection Services (765 463 01)

Description

This service area provides administrative funds necessary to administer the child support enforcement program, in keeping with federal and state laws and regulations and in order to meet the five federally set program performance factors: (1) support Obligations established; (2) Current Support collected; (3) Arrears Collected on arrears; (4) Paternities established and (5) Cost effectiveness.

Background Information

Mission Alignment and Authority

Describe how this service supports the agency mission

This service area promotes strong, self-reliant families by delivering child support services, as provided by law through the location of noncustodial parents, establishment of paternity and orders, enforcement of orders, collection of child and medical support, and distribution of child support.

Describe the Statutory Authority of this Service
 Title IV-D, Federal Social Security Act; Code of Virginia, Title 63.2 Welfare (Social Services) Child Support Title 63.2-1900 through 63.2-1960

Customers

| Agency Customer Group | Customer | Customers served annually | Potential annual customers |

Other nations' child support enforcement programs where reciprocity exists

Other states' child support enforcement programs

State agencies

Products and Services

• Factors Impacting the Products and/or Services:

The economy, TANF caseloads or any national program change may impact the child support program and services.

• Anticipated Changes to the Products and/or Services

The DCSE caseload is expected to remain stable over the next year.

- Listing of Products and/or Services
 - o Financial support for children

Finance

• Financial Overview

Funding for the Support Enforcement and Collections Services program comes from federal funds and special funds. The source of the federal funds is the Title IV-D Child Support Enforcement grant.

Service Area Objectives

We will increase Child Support collections.

Objective Description

Division efforts are dedicated to increasing the amount of funds provided to custodial parents in order for them to attain economic independence and stability for their families.

Alignment to Agency Goals

o Agency Goal: Maximize the economic independence, safety and stability of individuals and families Comment: This objective also aligns with the Council on Virginia's Future long-term objective: Inspire and support Virginians toward healthy lives and strong resilient families.

Link to State Strategy

Service Area 17 of 33

Public Assistance Child Support Payments (765 463 02)

Description

This service area provides the funds for extra payments to child support recipients also receiving TANF support. "Disregard Payments" are not child support as such. They were originally authorized in the federal program as an extra incentive to custodial parents for cooperation in locating non custodial parents and their assets. The federal government no longer authorizes such payments or provides financial help for them but Virginia and some other states have chosen to continue the disregard with state funding.

Background Information

Mission Alignment and Authority

- Describe how this service supports the agency mission
 This service area promotes strong, self-reliant families by delivering child support services, as provided by law through the location of noncustodial parents, establishment of paternity and orders, enforcement of orders, collection of child and medical support, and distribution of child support.
- Describe the Statutory Authority of this Service
 Title IV-D, Federal Social Security Act; Code of Virginia, Title 63.2 Welfare (Social Services) Child Support Title 63.2-1900 through 63.2-1960

Customers

| Agency Customer Group | Customer | Customers served annually | Potential annual customers | |
|--|---|---------------------------|----------------------------|--|
| Individuals, Children and Families (served unknown; potential unlimited) | Children and families (potential unlimited) | 362,000 | 0 | |
| Individuals, Children and Families (served unknown; potential unlimited) | Custodial Parents (potential unlimited) | 279,000 | 0 | |
| Governmental Entities (served unknown; potential unlimited) | Local Departments of Social Services | 120 | 120 | |
| Individuals, Children and Families (served unknown; potential unlimited) | Non-custodial parents (potential unlimited) | 316,700 | 0 | |
| Governmental Entities (served unknown: potential unlimited) | State and local government | 53 | 53 | |

Anticipated Changes To Agency Customer Base

The DCSE caseload is expected to remain stable over the next year. Effective 10/1/08 the "disregard" will be increased and the Federal Government will not require reimbursement (approximately 50%) for its share of the disregard.

Partners

Partner Description

Other states' child support enforcement programs

State agencies

Products and Services

- Factors Impacting the Products and/or Services:
 - The economy, TANF caseloads or any national program change may impact the child support program and services.
- Anticipated Changes to the Products and/or Services
 None
- Listing of Products and/or Services
 - o Financial support for children

Finance

- Financial Overview
- Funding for the Public Assistance Child Support Payments program comes from special funds (100%) which are generated from child support collections on TANF cases. A portion of these collections are "disregarded" and passed on to custodial parents.

Anticipated Changes To Agency Customer Base

Based on Census data on projections for number of children in Virginia between 2010 and 2030, the child support caseload will continue to grow. In 2010, it is projected that DCSE will have 376,970 cases and 1,035,567 participants. There is expected to be higher growth between 2010 and 2030 with an estimated caseload of 465,218 cases and 1,273,903 participants in 2030.

Auxiliary Grants for the Aged, Blind, and Disabled (765 468 01)

Description

An Auxiliary Grant (AG) is a supplement to income (i.e., cash assistance) for recipients of Supplemental Security Income (SSI) and certain other aged, blind, or disabled individuals residing in an assisted living facility (ALF) licensed by the Virginia Department of Social Services (VDSS) or in an adult foster care (AFC) home approved by a local department of social services. This assistance is available through local departments of social services to ensure that AG recipients are able to maintain a standard of living that meets a basic level of need.

VDSS administers Virginia's AG program. An individual must be assessed by the local department of social services to determine their financial eligibility for an AG and the level of care needed. Local departments of social services make payments to eligible assisted living facility (ALF) residents in an amount equal to the approved ALF rate plus a personal care allowance per month. This payment also subtracts any income available to the individual from sources such as SSI.

Not all ALFs accept AG payments. As stated above, AG payments are comprised of two parts: a payment to the adult for reimbursing the facility for care and a personal needs allowance. AG recipients also use portions of their SSI payments or other income supplement payments to assisted living facilities. The SSI payment plus the AG payment together make up the approved ALF monthly rate.

Background Information

Mission Alignment and Authority

- Describe how this service supports the agency mission
 Auxiliary Grants enable aged, blind or disabled individuals to remain in the least restrictive setting and to maximize their potential for independence and self-sufficiency.
- Describe the Statutory Authority of this Service
 63.2-800 Auxiliary Grants (AG) administration and ALF Placement. In order to receive an AG while residing in an ALF or Adult Foster Care residence, an individual must be evaluated by a case manager to determine his or her need for residential care.

Anticipated Changes To Agency Customer Base

The Áuxiliary Grant service population may be expected to expand in both the short term and the long term in response to demographic forces, including the aging of the Baby boomers and longer lifespans experienced by individuals who are mentally or physically incapacitated. In addition, initiatives such as the Money Follows the Person demonstration project and a 2007 legislative study on Auxiliary Grant "portability" are examining the feasibility of adding other residential options in addition to assisted living facilities and adult foster care. These changes would also expand the service population.

Products and Services

• Factors Impacting the Products and/or Services:

Current AG rates do not cover the entire cost of care, limiting ALF and AFC placements and services. The current monthly AG rates are \$1,014, except in Planning District 8 where it is \$1,166. The situation will be aggravated as the eligible population grows. In FY 2007, the average monthly AG caseload was 5,497, representing a 12% decrease in the AG caseload. However, even with the reduced number of cases federal Maintenance of Effort (MOE) requirements

were met

Anticipated Changes to the Products and/or Services

A legislative study and federally funded initiatives arising from Olmstead community integration effort and the federal Deficit Reduction Act are examining the feasibility of Auxiliary Grant "portability." Currently, the Auxiliary Grant is limited to individuals residing in assisted living facilities or adult foster care homes. The Money Follows the Person demonstration project may identify adult foster care homes and the Auxiliary Grant as an option for individuals who wish to move out of institutions. Further, Social Security Administration/SSI regulations permit states to adopt up to five additional options with SSI/SSA approval. However, additional options would become part of Virginia's federal MOE obligation and would have to be funded at or above initial levels indefinitely. It is unlikely that the General Assembly will be willing to incur additional MOE and funding obligations at this time.

- Listing of Products and/or Services
 - o Support of organizations serving communities
 - o Recruitment of volunteers and training on management of volunteers
 - o Services to promote family stability
 - o Services to protect vulnerable adults
 - Economic assistance to low income families/individuals or nutrition, child care, health care eligibility, and financial
 assistance to low income families/individuals
 - Services that promote sufficiency
 - o Pre-admission screenings for Assisted Living and Adult Foster Care placements; annual re-assessments
 - o Adult Foster Home provider recruitment.

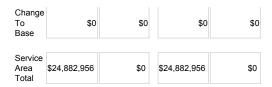

Finance

• Financial Overview

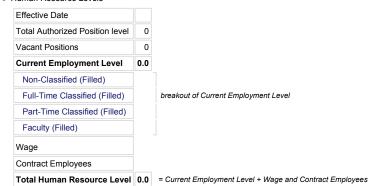

The appropriation for Auxiliary Grants for the Aged, Blind, and Disabled is 80% general funds (80%). However, a 20% local match is required (Local funds are not appropriated in the state budget).

Department of Social Services (765)

3/14/2014 4:19 pm

Biennium: 2008-10 ✓

Service Area 20 of 33

Adult In-home and Supportive Services (765 468 02)

Description

This service area prioritizes efforts to protect the elderly and persons with disabilities in at-risk situations from abuse, neglect, and exploitation.

Background Information

Mission Alignment and Authority

- Describe how this service supports the agency mission By reducing and preventing abuse, neglect and exploitation of vulnerable adults, VDSS helps people to triumph over poverty, abuse and neglect and to build strong and caring families and communities. These objectives align with Goal 1 of the VDSS Strategic Plan.
- Describe the Statutory Authority of this Service 63.2-1605 - Authorizes provision of protective services to persons 60 years of age and older and to incapacitated persons 18 years of age and older.
- 63.2-1601 Authorizes each local board of social services to provide adult foster home services.
- 63.2-1600 Authorizes provision of Homemaker, Companion, or Chore Services.
- 37.1-98 Specifies that provision of social services to patient discharged from a state hospital is the responsibility of the appropriate local social services agency.
- 37.1-197 Requires every local community services board to enter into a written agreement with the local boards of social services to specify what services will be provided to adults.
- 37.1-197.1 Requires local agencies to serve on prescription team.
- 2.7-708 Requires local departments of social services to be on local long-term care coordinating committees.
- 32.1-330 Preadmission Screening Required: All individuals who will be eligible for community or institutional long-term care services as defined in the state plan for medical assistance.
- 63.2-800 Auxiliary Grants (AG) Program Administration.
- 63.2-1804 Requires that a Uniform Assessment Instrument be completed for all residents as determined by State Board regulation.

Anticipated Changes To Agency Customer Base

Demographic studies show that Virginia's elderly population will grow significantly over the next 20 years with the aging of the "Baby Boomers" and Virginia's popularity with out-of-state retirees. This will increase demand for services to vulnerable adults and the incidence of adult abuse, neglect, and exploitation. Anecdotal evidence indicates that financial exploitation is a growing concern with elderly retirees who have moved away from their families and support systems.

Demographic pressures also will increase the numbers of persons with mental health and mental retardation issues, as will the continuing drive toward de-institutionalization. Another factor is the aging and death of parents of adult children with mental retardation or mental health issues who will require services when parents can no longer care for them. More dual diagnosis customers -- elderly and incapacitated -- will enter the system.

The numbers of adults needing home-based services also will rise, as Virginia continues to seek the least restrictive living environment for vulnerable adults, foster self-sufficiency, provide community-based services, and avoid inappropriate institutionalization. So will the number of adults for whom pre-admission screenings must be done before they can enter long-term care facilities, as well as annual reviews thereafter.

Expanded outreach, public education, and mandated reporter groups will continue to increase the numbers of reports of adult abuse, neglect and exploitation and thus the demand for investigations and services.

Finally, the aging of Virginia's residents with limited English proficiency residents will increase demand for bi-lingual workers

Products and Services

• Factors Impacting the Products and/or Services:

With a significantly increased population of vulnerable adults and growing demand for adult services and adult protective services, more social workers, institutional and home care workers, more regional and state supervisory staff will be needed, and more training of workers and staff members will be required. More training materials and public education materials and programs will be needed. Meeting these growing needs will require additional funding.

Anticipated Changes to the Products and/or Services

A new Adult Protective Services web-based case management system came on line in 2005, which should make case management and reporting more efficient and provide easier access to case information for VDSS and LDSS staff. It also will facilitate the Adult Services and Adult Protective Services data collection and analysis, a critical tool in educating policymakers, legislators, and the public about adult and adult protective services in Virginia.

The need for a state-level Adult Fatality Review (AFR) Team continues to grow. The AFR team, chaired by the State Medical Examiner and the Commissioner of Social Services, would conduct retrospective analyses of deaths of vulnerable adults to identify patterns, procedures, policy or regulation changes, or training issues that can help prevent future premature deaths.

Lastly, website redesign will supplement printed brochures and other constituent education materials, facilitating access and providing more efficient distribution.

Domestic Violence Prevention and Support Activities (765 468 03)

Description

The Office of Family Violence works to provide crisis and support services to victims of domestic violence and their children across the commonwealth. Federal and state funds support direct services to families, the operation of the Virginia Family Violence and Sexual Assault Hotline, data collection, training and technical assistance.

Background Information

Mission Alignment and Authority

- Describe how this service supports the agency mission
 Addressing the needs of victims and children affected by domestic violence is closely aligned with the mission of the Department of Social Services and maximizes the safety and stability of families and individuals.
- Describe the Statutory Authority of this Service
 Code of Virginia § § 63.2-1611 1615

Customers

| Governmental Entities (served unknown; potential unlimited) | Local Departments of Social Services | 120 | 120 |
| Businesses (served unknown; potential unlimited) | Non-profits | 40 | 100 |
| Individuals, Children and Families (served unknown; potential unlimited) | Victims seeking shelter | 4,998 | 5,000 |

Anticipated Changes To Agency Customer Base

As the work of this office expands, the number of local departments responding directly to the needs of victims of domestic violence will grow. Potentially, new policies may require screenings for domestic violence, leading to simultaneous growth in the numbers of victims identified and subsequently referred to the local domestic violence programs.

Planned public awareness efforts will reach out to businesses, faith-based organizations and the general population, also expanding the current customer base.

Products and Services

- Factors Impacting the Products and/or Services:
- Finite resources, such as the number of shelter beds available in the state, dictate the current capacity. Likewise, funding limitations restrict available services.
- Anticipated Changes to the Products and/or Services

Due to the new formation of the Office of Family Violence and the legislative changes in 2005, an increase in the level of technical assistance to local DSS agencies is expected.

A collaborative federal grant is being written to the Department of Health and Human Services to enhance services to children and youth who have been exposed to domestic violence. If the grant is successful, there will be a statewide emphasis placed on services to these children.

Foster Care Payments and Supportive Services (765 469 01)

Description

The Foster Care Program includes three service components united under one program umbrella: Foster Care Prevention and Family Preservation and Support Services; Foster Care Services; and Independent Living Services.

The focus of Foster Care Prevention, Preservation and Support Services is to provide services and interventions to maintain and strengthen the family unit while ensuring the safety of the child. Foster Care Prevention cases are those in which intervention is needed to prevent out-of-home and/or out-of-community placement of a child. Family preservation and Support Services are flexible locality-coordinated community-based programs that provide services to help children and families that are in crisis who need short-term support. Services may include "hard services" such as counseling and inhome services or "soft services" such as child care and material assistance. Services can be to reunify a child in foster care with the natural parent. Adoption promotion and family preservation services can also be provided.

Foster Care services provide a temporary living solution for children who must be removed from their birth or adoptive parents or other legal caretakers due to abuse and/or neglect. Foster care is also a vehicle through which services to children who have not been abused or neglected but require placement outside their birth/adoptive home due to chronic mental health problems, delinquency or the caretaker's inability to provide for the child's' needs are provided. Foster care's mandate is to find a permanent home for a child in as timely a manner as possible. Permanent placements include: return to parent or previous legal custodian; placement with relatives with subsequent transfer of custody; adoption; permanent foster care; independent living or another planned permanent living arrangement. Foster care placement and services are available throughout the 120 local departments of social services.

Through the Chafee Foster Care Independence Program (CFCIP), known more commonly as the Independent Living Program, VDSS and local departments design and implement programs that identify children who are likely to remain in foster care until 18 years of age and provide services to help these children make successful transitions to self-sufficiency. Services include, but are not limited to, high school assistance, post -secondary/vocational assistance, life skills training, health education, career exploration and planning, job readiness training, housing assistance, and mentoring. In addition, young people who leave foster care after they turn 18 years old but have not attained age 21 can receive aftercare services, including counseling, employment, education and room and board. As required by CFCIP, youth must participate directly in developing their program activities and accept personal responsibility for achieving independence.

Background Information

Mission Alignment and Authority

• Describe how this service supports the agency mission

The Foster Care Program supports the Virginia Department of Social Services' mission through helping children, both within their own homes and those who are removed from their homes due to abuse and/or neglect, develop strong futures through the provision of services to strengthen the family; find permanent homes in which the child may grow up; and provide services to aid in the transition into adulthood as productive citizens of their community and the

Describe the Statutory Authority of this Service

Title IV-B of the Social Security Act requires federal expenditures for State public child welfare agencies in establishing, extending and strengthening child welfare services. These funds support family preservation services, reunification services and safe and stable family services.

Title IV-E of the Social Security Act provides funding to enable the state to provide foster care and transitional independent living programs for children, adoption assistance for children with special needs.

The federal Foster Care Independence Act of 1999 and Section 477 of the Title IV-E of the Social Security Act established the Chafee Foster Care Independence Program (CFCIP) and replaced the former Independent Living Initiative (established in 1986). The CFCIP increased funding for independent living activities; offers increased assistance for young people ages 18-21 who are leaving care; emphasizes the importance of securing permanent families for young people in foster care; gives states the option to extend Medicaid to young people transitioning from foster care; and increases state accountability for outcomes for young people transitioning out of care.

The Code of Virginia provides statutory authority for the provision of all Foster Care Program activities through the following Titles, Chapters and Section: Title 63.2, Chapters 1, 2 and 3 - General provisions, State Social Services and Local Boards of Social Services; §63.2-410 - State pool of funds under the Comprehensive Services Act; 63.2 Chapter 9 - Foster Care; Title 63.2 Chapter 11 - Implementation of the Interstate Compact on the Placement of Children; 63.2-1509 - Failure to report; Title 16.1 §§16.1-251; 16.1-252, 16.1-277.01, 16.1-277.02, 16.1-278.2, 16.2-278.3, 16.1-278.4, 16.1-282.1, 16.1-282.1, 16.1-283; Title 22.1 §22.1-287.D.3 - Limitation on access to records.

Anticipated Changes To Agency Customer Base

The numbers of children entering foster care are anticipated to increase given current trends. Families receiving services (including vulnerable adults) and the number of faith-based organizations being provided with products and services through foster care are anticipated to increase with more comprehensive data gathering.

Products and Services

• Factors Impacting the Products and/or Services:

The factors impacting products and services for older youth include the lack of adequate funding and resources for providing independent living services and the lack of community support and involvement with these young people. Given the nationwide trend of increased numbers of youth over age 13 entering the foster care system and exiting to independent living situations, these services are critical components of helping older foster car youth successfully transition to adulthood.

Funding for prevention and in-home services to prevent foster care placement is inadequate, resulting in children entering the foster care system solely to receive needed mental health and physical health treatment. Virginia law does not mandate that prevention services be provided in order to prevent the possibility of foster care placement. Foster care placement is more expensive than in-home prevention services. The lack of adequate funding for prevention services therefore places a greater financial burden on the citizens of the Commonwealth.

Another factor impacting the foster care program is the Deficit Reduction Act (DRA) of 2006 and three major changes to allowable charges and funding. First, the DRA (P.L. 109-171), reduces allowable Medicaid costs for children in foster care. These services must now be covered by other funding sources. Second, states are required to use federal Title IV-E dollars rather than Medicaid funds when a foster care/adoption activity is covered by both sources. Lastly, the DRA narrows the eligibility requirements for children placed in foster care thus reducing the numbers of children eligible for Title IV-E funding. Together, these DRA changes may serve to increase the amount of state funding needed to support basic foster care activities.

• Anticipated Changes to the Products and/or Services

The Child and Family Services Improvement Act of 2006 (P.L. 109-288) requires that by 2011, 90% of all children in foster care must be visited by their case worker on a monthly basis, with at least half of these visits occurring in the child's place of residence or placement. Beginning in 2008, documentation for annual percentage increases towards the federal goal must be set and met annually or Virginia may face fiscal penalties. To support this initiative, the federal government has allocated \$688,603 to Virginia. A state match of \$229,534 is required to draw down these federal funds.

Increases in funding for foster care board rates and the Independent Living program are expected to improve permanency and supportive services for foster care children in Virginia. Efforts to provide more support to foster children and their caretakers include Virginia foster care board rate increases of 14% in 2007. For the first time since federal Independent Living funds became available, VDSS is positioned to access its entire allocation for Independent Living Services and post-secondary educational and vocational training for older youth in foster care. Because Virginia provided the entire state match required to draw down the total allocation of more than \$2 million, Virginia is unlikely to experience any negative impact of increased federal monitoring of states' use of these allocations. It is expected that federal allocations will be reduced for states that do not fully these funds.

Other anticipated changes in the next biennium include expanding the Virginia Youth Advisory Council by creating Regional Councils of foster and adoptive youth; statewide training on "Finding Families," a Casey Program used nationwide to locate permanent connections for older youth in care and "Family Group Decision-Making," a best-practice supporting the involvement of families in meeting the needs of youth in foster care. All of these efforts are consistent with the First Lady of Virginia's "For Keeps" initiative, an approach to identify and develop ways to find and strengthen permanent families for older children who are in foster care, or who might be at risk for coming into foster care.

• Listing of Products and/or Services

- o Support of organizations serving communities
- o Recruitment of volunteers and training on management of volunteers
- o Services to promote family stability
- o Services to protect vulnerable adults
- Economic assistance to low income families/individuals or nutrition, child care, health care eligibility, and financial
 assistance to low income families/individuals
- o Financial support for children
- o Services that promote sufficiency
- o Services to protect children
- $\circ\,$ Services to ensure that children have permanent homes
- O Support Services (i.e. HR,IS, etc.)
- o Independent Living training for Local departments of social services staff
- o Training professionals in kinship care
- o Training kinship care providers

Finance

• Financial Overview

Funding for the Foster Care program comes from general funds and federal funds. The federal funds come from various sources, including Title IV-E Foster Care, Title IV-B Part II (Promoting Safe and Stable Families), Chafee Independent Living and Education and Training Vouchers, and the Social Services Block Grant (SSBG).

Biennium: 2008-10 ✓

Service Area 23 of 33

Supplemental Child Protective Activities (765 469 02)

Description

This service area provides a specialized continuum of casework services to children who have been or are at risk of being abused, neglected or exploited. Services focus on identification, investigation, assessment, and service provision in an effort to protect children from maltreatment, while preserving families, whenever possible. Protective services are available to all children, under the age of 18, and to their families on a 24-hour a day, immediate response basis. All children and families are eligible for these services regardless of income.

Child Protective Services also includes preventive services that enable families to provide adequate care for children, thereby enhancing the safety and well-being of children and precluding the need for removal of the child from the home. In an effort to prevent abuse and neglect in out-of-family settings, such as child care centers, residential facilities, and schools, the Child Protective Services Central Registry Unit conducts background checks of prospective employees and volunteers.

Background Information

Mission Alignment and Authority

Describe how this service supports the agency mission
 Children being abused or neglected are protected from further abuse, and parents are provided with services to enable them to better care for their children. By providing these services to abused or neglected children and families, we are

helping shape strong futures for children and contributing to building stronger families and communities

Describe the Statutory Authority of this Service
 Child Abuse Prevention and Treatment Act, as amended, 42.U.S.C. 5101 et seq.; 42 U.S.C. 5116 et seq. provides grants to States for the purpose of assisting States in developing, establishing, and operating programs designed to improve the handling of child abuse and neglect cases, including child sexual abuse, child fatalities, and children with

Title II - Community-Based Grants for the Prevention of Child Abuse and Neglect, 42 U.S.C 5116 provides funding to support community-based efforts to develop, operate, expand, enhance, and, where appropriate to network, initiatives aimed at the prevention of child abuse and neglect, and to support networks of coordinated resources and activities to better strengthen and support families to reduce the likelihood of abuse and neglect.

The Victims of Crime Act of 1984, P.L. 98-473 provides federal funds to States for the purpose of assisting victims of crime. The Department of Social Services administers the child abuse victim services portion of these funds through an inter-agency agreement with the Department of Criminal Justice Services.

Products and Services

• Factors Impacting the Products and/or Services:

Federal laws and regulations require states to improve response times in responding to reports of suspected child abuse and neglect as well as to decrease the risk of harm to children remaining in their own homes. Financial penalties will be imposed if the states are not in substantial compliance with requirements of federal Child and Family Services Review.

Effective January 1, 2007, CPS Policy established specific response times for local departments of social services to respond to reports of suspected child abuse and neglect. The response priority decision is guided by the severity of the report and the urgency for response. Further study is needed to determine if new response time guidelines are being followed.

There has been a 47% increase in reports of substance-exposed infants since 2002. Further study is needed to determine if these reports were substantiated.

Cuts in the training contract with VCU VISSTA effective October 1, 2007 may impact the local department's capacity to effectively respond to CPS reports, assess safety and risk, and to provide services to children and families.

• Anticipated Changes to the Products and/or Services

[Nothing entered]

Finance

• Financial Overview

Funding for the Child Protection Services program comes from general funds, federal funds and special funds. The federal funds come from various sources including Temporary Assistance for Needy Families (TANF), Child Abuse and Neglect State Grants, Community Based Family Resource Grants, and the Victims of Crime Acts (VOCA) grant. The special funds are result from fees for searches of the CPS Central Registry.

Service Area 24 of 33

Adoption Subsidies and Supportive Services (765 469 03)

Description

This service area helps children in foster care who have been permanently and legally separated from their birth parents become permanent members of a new family. Services are provided to strengthen adoptive families after legal adoption to prevent adoption dissolutions. Families are helped to complete non-agency placement adoptions including parental placement adoptions, step-parent adoptions, inter-country adoptions, adult adoptions, and children adopted through private, child-placing agencies. The adoption program maintains closed adoption records and releases information from closed adoption records, as allowed by state laws, and assists the courts to make informed decisions in custody dispute cases involving minor children.

Background Information

Mission Alignment and Authority

- Describe how this service supports the agency mission
- By assisting children and families with the adoption process and courts to make informed decisions regarding custody of children, we are helping shape strong futures for children and contributing to building stronger families and communities.
- Describe the Statutory Authority of this Service

Title IV-E, of the Social Security Act: provides federal financial participation in adoption assistance, requires states to recruit prospective adoptive families that reflect the population of children in foster care waiting for adoption, and prohibits states from delaying or denying adoptive placements based on the geographical location of the child and prospective adoptive parent;

Title IV-B, of the Social Security Act: provides funding for Safe and Stable Families, 20% of which is to be dedicated to adoption services, and funding for child welfare services;

Chapter 11 Article 9, of the Code of Virginia: governs juvenile court proceedings;

Chapter 12, of the Code of Virginia: provides legal procedures for completion of an adoption in the circuit court, requires the Commissioner to maintain closed adoption records and to release information from closed adoption records;

Chapter 13, of the Code of Virginia: governs adoption assistance for children with special needs;

 ${\it Chapter 9, of the Code of Virginia: governs entrustment agreements for purpose of adoption;}\\$

Chapter 6.1, of the Code of Virginia: governs custody and visitation arrangements for minor children;

22VAC40-260-20. Subsidy. Adoption Assistance shall be executed by the agency or child placing agency for all children who have been determined eligible for subsidy.

22VAC40-240-20: Responsibilities of the agency in juvenile court proceeding for parental placement adoptions: includes conducting home studies, providing reports to court, and reporting illegal activities to the Commissioner.

22VAC40-250-20. The Adoption Resource Exchange of Virginia: the purpose of the Adoption Resource Exchange of Virginia is to increase opportunities for children to be adopted by providing services to agencies having custody of these children

Anticipated Changes To Agency Customer Base

The number of children available for adoption will continue to increase as a result of the implementation of enhanced federal regulations. Children may need increased services provided through the subsidized assistance program. In FY 2005, the Department of Social Services recognized a 34% increase in subsidy payments to adoptive parents of eligible children. As children get older, their need for continued services will increase.

Products and Services

• Factors Impacting the Products and/or Services:

Federal laws and regulations require states to increase, in a timely manner, the number of children in foster care achieving the goal of adoption. Financial penalties will be imposed if states are not in substantial compliance with the requirements of the federal Child and Family Services Review. As a part of the Child and Family Services Reviews, the federal government has established a national standard that 32% of the children exiting foster care through adoption will have achieved adoption within 24 months of entry into foster care. At the end of SFY 2007, Virginia's compliance rate was 31.34%. Another federal requirement mandates the state to terminate parental rights on children who have been in foster care 15 of the most recent 22 months. Many local departments of social services do not have workers dedicated to adoption, which may negatively impact Virginia's ability to meet this requirement.

The majority of children in foster care with the goal of adoption are children with special needs who will require state and federal adoption assistance. As the number of children achieving adoption increases, expenditures for adoption assistance are also likely to increase.

The state match rate to draw down federal funding for recruitment of prospective adoptive families has increased from 25% to 51%. As a result, fewer local departments of social services apply for federal funding for recruitment activities for prospective adoptive families. Without sufficient recruitment activities, children with the goal of adoption will remain in foster care for longer periods of time and some may never be adopted.

There are no minimum training requirements for social workers providing adoption services, or for prospective adoptive parents. Attempts by the Department to pass regulations establishing minimum training standards have met resistance due to the lack of financial and staffing resources that will be needed to implement mandated training.

Anticipated Changes to the Products and/or Services

To gain improved understanding of the adoption assistance program and steady increase in financial payments in SFY 2005 and 2006, the Virginia General Assembly requested that the Department of Social Services conduct a study of the program. The report, completed by stakeholders and staff, recommends that VDSS pursue program improvement by:

- Creating a uniform adoption assistance agreement that encourages linkage between the child's needs and service payment level,
- 2. Increasing the use of federal Title IV-E funding for adoption assistance payments and establishing clear and consistent policies and procedures between program and finance,
- 3. Ensuring the accuracy of data in the child welfare information system, and
- 4. Implementing clear adoption assistance practice guidelines

The General Assembly will take action on these recommendations during its 2008 legislative session.

The Virginia Putative Father Registry was developed and implemented on July 1, 2007. This confidential data base allows putative fathers to register to protect their right to receive notice in adoption and termination of parental rights proceedings.

- Listing of Products and/or Services
 - Services to promote family stability
 - o Financial support for children
 - o Services that promote sufficiency
 - o Services to protect children
 - o Services to ensure that children have permanent homes
 - $\circ\,$ Photo-listing books of children waiting for adoption
 - O Photo-listing books of approved adoptive families

- $\,\circ\,$ Display boards for recruitment
- $\,\circ\,$ Brochures and pamphlets on adoption
- O Update recruitment brochures
- Contracts with private child placing agencies and community organizations to provide a full array of adoption services

Service Area 25 of 33

General Relief (765 491 01)

Description

This service area is responsible for the cash assistance and services offered to no income and extremely low-income individuals served through the Commonwealth's General Relief Program (GR). GR is an important component of the Commonwealth's social safety net as it serves single individuals and families excluded from participation in the Temporary Assistance for Needy Families (TANF) program and often not qualified for Medicaid. GR is funded by state and local funds and participation is optional for localities. Participating localities choose among various program components including assistance for medical or dental services, burial assistance and financial assistance to unattached children. GR is financed through State and local funding, and each locality determines how local funds will be used for components they elect to provide to individuals. Agencies may use 100% local funds to meet additional needs. Of the 120 local departments of social services, 103 operate one or more components of the GR program.

Background Information

Mission Alignment and Authority

• Describe how this service supports the agency mission

By assisting needy individuals, the General Relief program assists individuals in triumphing over poverty and shaping strong futures for themselves, their families and communities. The GR program provides assistance to low-income individuals with few other services or resources available to them, assisting each individual to meet their basic human

Describe the Statutory Authority of this Service

The Code of Virginia, Section 63.2-802, provides the legal base for this GR program which states that a local board shall exercise its option to establish a program of general relief. A person shall be eligible for such components of the general relief program as the locality chooses to provide if (s)he is in need. Prepaid funeral expenses, which do not exceed an amount established by the State Board of Social Services, shall not be considered a financial asset in determining a person's eligibility for the General Relief Program.

Customers

| Agency Customer Group | Customer | Customers served annually | Potential annual customers |
|--|-------------------------------------|------------------------------|-------------------------------|
| Individuals, Children and Families (served unknown; potential unlimited) | Low income individuals and families | 2,975 | 3,000 |

Anticipated Changes To Agency Customer Base

The number of families receiving General Relief has dropped. This follows the trend of a smaller number of families receiving TANF assistance. Since this is a program with a large local match, some local departments have stopped participating.

State agencies

Products and Services

Factors Impacting the Products and/or Services:

Limited funding inhibits the capacity to provide a consistent level of service to low-income Virginians across the Commonwealth. Having different localities offer different levels of service is confusing for the public and customers and raises issues of equity. Additionally, localities often exhaust their funding before the end of the year.

• Anticipated Changes to the Products and/or Services

The local share of General Relief funding is 37.5% and local governments have shown difficulty in meeting this level of expenditure. With financial pressures on local government budgets, many localities have reduced or eliminated local General Relief programs and it is anticipated that more localities will reduce the scope of their General Relief program.

- Listing of Products and/or Services
 - o Support of organizations serving communities
 - o Economic assistance to low income families/individuals or nutrition, child care, health care eligibility, and financial assistance to low income families/individuals
 - o Financial support for children
 - o Burial assistance for the deceased individual
 - o Financial assistance for an individual awaiting SSI approval

Finance

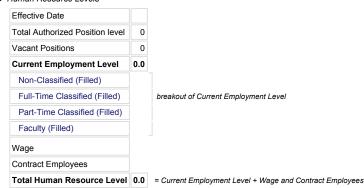

Funding for the General Relief Program is financed by state and local funds. Only the general fund is appropriated in the state budget.

Resettlement Assistance (765 491 02)

Description

This service area promotes refugee resettlement that leads to the earliest possible durable, economic self-sufficiency and social integration of refugees into Virginia's communities. This service area is funded by 100% federal dollars. The funding is directed toward job placement and job-related services. Refugee resettlement service provider agencies are contracted by the Virginia Office of Newcomer Services (ONS) to provide these services directly to refugees.

Background Information

Mission Alignment and Authority

- Describe how this service supports the agency mission
 - Through the provision of services that emphasize the earliest possible durable economic self-sufficiency and social integration of refugees into Virginia's communities, this service area directly aligns with VSSS Strategic Plan Goal 1 to enhance the independence and well-being of its customers.
- Describe the Statutory Authority of this Service
 Code of Federal Regulations 45 Public Welfare, Chapter IV, Parts 400 & 401. The federal Office of Refugee
 Resettlement gives the Governor or his designee the authority to delegate responsibility for the administration of the Virginia Refugee Resettlement Program to the State Refugee Coordinator.

| | | | | |

Anticipated Changes To Agency Customer Base

It is anticipated that the flow of new refugee arrivals will increase during SFY 08, bringing the year-end total of refugees, and asylees closer to SFY 06 totals. As the refugee population in Virginia ages, the number of elderly refugees by resettlement assistance will increase as well.

Products and Services

- Factors Impacting the Products and/or Services:
 - It is expected that new refugee arrivals will continue to arrive in selected groups of ethnic and geographic populations, such as Iraqi refugees who have served the United States in Iraq and who have been forced to flee to neighboring countries, Burmese refugees who have been living in refugee camps in Thailand and in Malaysia, and Burundian refugees as well as refugees from East Africa and West Africa. Some of these peoples are young adults and children who have lived their entire lives in camps or towns where there either is no employment or they are denied opportunities to choose their employment or have access to schools. There may also be an increased need for mental

health services due to their living situations and because of their experiences in wars. Additionally, a recent Virginia Newcomer Information System report forecasts by the 2012, Virginia will have 2,289 refugees who are will be age 60 or older.

• Anticipated Changes to the Products and/or Services

At the close of FFY 2007, Refugee Elderly Assistance Program (REAP) funding was no longer available. As a result, specialized services to the elderly refugee population in Northern Virginia were eliminated. The Virginia Newcomer Information System (VNIS 1.0) is scheduled to be converted from an ACCES desktop system to VNIS 2.0, a Webbased system in SFY 2008.

- Listing of Products and/or Services
 - Refugee Elderly Assistance Program (REAP): interpretation & translation; health screenings and workshops; citizenship preparation; English language training; and employment training.
 - O Virginia Newcomer Information System (VNIS) and VNIS Users Group
 - o Technical assistance on policy & procedure
 - o Program monitoring and evaluation
 - o Strategic planning
 - o Community training for partner agencies
 - O Public Education and Awareness products and services
 - $\,\circ\,$ Support of organizations serving communities
 - o Services to promote family stability
 - o Services to protect vulnerable adults
 - Economic assistance to low income families/individuals or nutrition, child care, health care eligibility, and financial
 assistance to low income families/individuals
 - o Financial support for children
 - o Services that promote sufficiency
 - o Services to protect children
 - Virginia Refugee Student Achievement Project (VRSAP): after-school tutorial programs; summer enrichment
 activities; parental outreach programs; interpreter services, and multi-lingual and multi-cultural counselor activities

Finance

Financial Overview

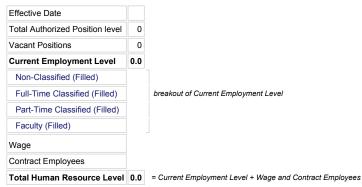

Funding for Resettlement Assistance is 100% federally funded. The federal funds come from various federal grants for refugee and newcomer assistance.

Service Area 27 of 33

Emergency and Energy Assistance (765 491 03)

Description

The Emergency and Energy Assistance program service area is a core component of the Commonwealth's safety net for low-income and at-risk Virginians. This service area is responsible for the operation of the Energy Assistance Program (EAP). The Energy Assistance program helps low-income individuals and families meet their immediate and often emergent home energy needs. The program is 100 percent funded from the federal Low Income Home Energy Assistance Program (LIHEAP) block grant and serves less than half the total number of eligible households in Virginia. Among those households served, the benefit amount typically covers 25 percent of the household's energy costs for that season. With fixed resources, the greater the number of households served, the lower the percentage of overall energy costs the program can cover. The EAP consists of four components: Fuel Assistance, Crisis Assistance, Cooling Assistance and Weatherization Assistance. Fuel Assistance provides benefits to aid households in paying the cost of heating their homes. Crisis Assistance helps households address energy-related emergencies. Cooling Assistance supports households in purchasing or repairing cooling equipment and the payment of electric bills during the summer months. Local departments of social services perform the eligibility determination for the EAP and payments are made directly to vendors in most cases.

The Weatherization Assistance Program provides weatherization services to low-income families and is administered by the Department of Housing and Community Development (DHCD) through contracts with local community-based organizations. By state statute, DHCD receives 15 percent of the LIHEAP block grant to implement this program.

Background Information

Mission Alignment and Authority

• Describe how this service supports the agency mission

These programs assist Virginians in triumphing over poverty and shaping strong futures for themselves, their families and their communities. These programs target low-income individuals and those significantly affected by disasters, assisting each in meeting their basic human needs and rebuilding their lives. This assistance often helps avoid the unfortunate trade-off many low-income families make between housing, food and medicine.

• Describe the Statutory Authority of this Service

The Virginia Energy Assistance Program was established in accordance with the Low Income Home Energy Assistance Program Act (LIHEAP) of 1981 (Title XXVI of the Omnibus Budget Reconciliation Act of 1981, Public Law 97-35, as amended), the Code of Virginia 63.2 and 63.2-805 and Chapter 680 and Chapter 685 of the Administrative Code of Virginia.

Customers

| Agency Customer Group | Customer | served annually | customers | |
|--|--|-----------------|-----------|--|
| Individuals, Children and Families (served unknown; potential unlimited) | Low income individuals and families (households) | 150,000 | 254,000 | |

Anticipated Changes To Agency Customer Base

From 2000 to 2006 (most recent Census data), the number of Virginians living in poverty increased to 760,000. With an increasing number of individuals and families living in poverty in Virginia and the dramatic increases in home energy costs being felt among all Virginians, the Department predicts an increase in the total number of households served. This increase in the customer base will lead to a decrease in the benefit amount because of fixed resources.

Virginia Institute for Social Services Training Activities (VISSTA)

Products and Services

• Factors Impacting the Products and/or Services:

Increases in fuel costs and in the number of individuals living in poverty make the service more expensive while increasing the customer base. This experience has played out over the last three years with steadily increasing caseloads in the EAP as well as other benefit programs targeting low-income individuals and families. The increased customer base results in more work for local departments of social services which receive a fixed allocation (by state regulation) for eligibility determination services. Additionally, federal funding levels are tenuous given the competing demands for limited resources.

• Anticipated Changes to the Products and/or Services

Continued increases in energy costs will impact this service area.

- Listing of Products and/or Services
 - o Support of organizations serving communities
 - Economic Assistance to low income families/individuals or nutrition, child care, health care eligibility, and financial
 assistance to low income families/individuals
 - Services that promote sufficiency

Finance

Financial Overview

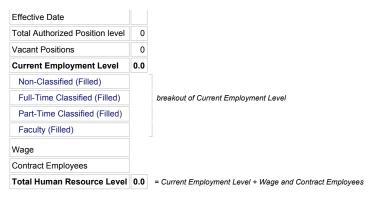

The predominant source of funding for the Energy Assistance Program is the federal LIHEAP block grant. The Department of Health and Human Services, Administration of Children and Families awards the LIHEAP block grant annually to States and Indian tribes. The Energy Assistance program is 100% federally funded. Funds for the LIHEAP grant are disbursed as follows: fifteen percent is allocated for the Weatherization Assistance Program, ten percent is allocated for State and Local program administration with the remaining funds used to provide direct services and benefits to eligible low income households.

3/14/2014 4:19 pm

Biennium: 2008-10 ∨

Service Area 28 of 33

Community Action Agencies (765 492 01)

Description

This service area provides core funding for Virginia's network of community action agencies and statewide community action organizations. This network provides a wide variety of services designed to ameliorate the effects of poverty and build self-sufficient families and communities. The Department contractually distributes all of these funds to the local community action agencies and statewide organizations. This service area also includes federal TANF funds for five Center for Employment Training (CET) programs.

Background Information

Mission Alignment and Authority

Describe how this service supports the agency mission

This service area supports the mission of the Department by providing resources to the community action network that result in direct services to low-income individuals, families and communities. Community action services enhance the independence, well-being and personal responsibility of these customers.

• Describe the Statutory Authority of this Service

The Community Opportunities, Accountability, and Training and Educational Services Act of 1998, Public Law 105-285 The Temporary Assistance for Needy Families Program (TANF) - Title IV-A of the Social Security Act The Community Action Act, §§ 2.2-5400 et seq.

Customers

| Agency Customer Group | Customer | Customers served annually | Potential annual customers | |
|--|---|------------------------------|-------------------------------|--|

State Agencies

Products and Services

• Factors Impacting the Products and/or Services:

Factors impacting products and services include the amount of funds appropriated by the federal and state government to operate community-based programs as well as changes to other programs and funding sources that result in an increase or decrease in the need for community-based programs.

• Anticipated Changes to the Products and/or Services

The federal Administration and Congress are exploring changes in the current funding stream for CSBG as well as other federal grants including the Community Development Block Grant (CDBG). Changes in these funding streams would have a major impact on a number of community-based programs. Congress is also working on reauthorizing CSBG. When CSBG is reauthorized major changes to the program may occur.

- Listing of Products and/or Services
 - o Support of organizations serving communities
 - o Services to promote family stability
 - Services to protect vulnerable adults
 - Economic assistance to low income families/individuals or nutrition, child care, health care eligibility, and financial
 assistance to low income families/individuals
 - o Services that promote sufficiency
 - $\,\circ\,$ Community and economic development projects
 - $\circ\,$ Educational services (e.g. Head Start)
 - o Housing construction, rehabilitation and weatherization services

Finance

Financial Overview

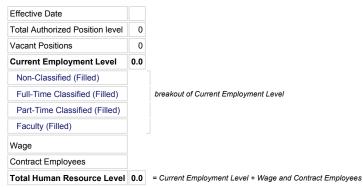

Funding for Community Action Grants comes from general funds and federal funds. The federal funds come from primarily two sources including Temporary Assistance for Needy Families (TANF) and Community Services Block Grant (CSBG) funds.

Volunteer Services (765 492 02)

Description

The Virginia Commission for National and Community Service (Virginia Commission) advances and supports national and community service, volunteerism and civic engagement in the Commonwealth of Virginia. The Virginia Commission exists to promote and sustain a holistic, cohesive, collaborative statewide system of volunteer service that will be available to all Virginians. The Virginia Commission carries out additional responsibilities outlined in Executive Order 86 (2005): Continuing the Governor's Commission on National and Community Service, and is a major partner with the Governor's Virginia Corps initiative.

Background Information

Mission Alignment and Authority

• Describe how this service supports the agency mission

The Virginia Commission for National and Community Service (Virginia Commission) advances and supports national and community service, volunteerism and civic engagement in the Commonwealth of Virginia. The Virginia Commission exists to promote and sustain a holistic, cohesive, collaborative statewide system of volunteer service that will be available to all Virginians. The Virginia Commission carries out additional responsibilities outlined in Executive Order 86 (2005): Continuing the Governor's Commission on National and Community Service, and is a major partner with the Governor's Virginia Corps initiative.

· Describe the Statutory Authority of this Service

The Commission is classified as a gubernatorial advisory commission in accordance with Section 2.2-2100 of the Code of Virginia. The Commission is established to comply with the provisions of the National and Community Services Trust Act of 1993 and to advise the Governor on matters related to promotion and development of national service in the Commonwealth of Virginia.

Partner Description

Community Action Agencies

Local Departments of Social

Services

State agencies
Volunteer Organizations

Products and Services

Factors Impacting the Products and/or Services:

Funding could possibly be a factor. Funding is determined by the Corporation for National & Community Service and is based on Virginia's population.

Although AmeriCorps programs and service members provide direct service and work to increase involvement of volunteers in community initiatives, there is means to record of the number of organizations benefiting from their efforts. The volunteer rate in the country decreased in 2006 from 28.8 to 26.7; the Virginia rate fell slightly from 29.5 percent to 28.9 percent.

• Anticipated Changes to the Products and/or Services

As part of its 2008 legislative package, VDSS is including HHR-DSS-6 which would codify the VA Commission on National and Community Service. Governor Kaine established the Governor's commission on Community and National Service in Executive Order 13 (2006) and extended it with Executive Order 51 (2007).

- Listing of Products and/or Services
 - $\,\circ\,$ Support of organizations serving communities
 - o Recruitment of volunteers and training on management of volunteers
 - o Services to protect vulnerable adults
 - Economic assistance to low income families/individuals or nutrition, child care, health care eligibility, and financial
 assistance to low income families/individuals

Biennium: 2008-10 ∨

Service Area 30 of 33

Other Payments to Human Services Organizations (765 492 03)

Description

This service area funds four contracts with different entities to support the mission of the Department and provide important services to low-income Virginians across the Commonwealth. The services provided through these contracts include emergency food services, nutrition education, homeless prevention and shelter support services, post-secondary educational services for TANF participants, and an asset creation initiative for low-income individuals.

The specific contracts and their annual appropriation are as follows: Virginia Tech (\$9.6 million) to fund nutrition education services delivered by the Cooperative Extension to Food Stamp participants; United Community Ministries (\$38,250) to fund emergency food services and information and referral services; St. Paul's College (\$85,000) for post-secondary education services for TANF participants; the Department of Housing and Community Development (\$360,000) to fund community organizations to operate the Virginia Individual Development Account program which matches savings of low-income families to promote asset creation; the Department of Housing and Community Development (\$4,910,128) to fund homeless shelters for the provision of homeless prevention and shelter services. By law, the programs funded by these contracts must serve low-income Virginians. The TANF block grant can only fund services to low-income families and the nutrition education program can only serve Food Stamp participants who must have a net income of 130% of poverty or below.

Background Information

Mission Alignment and Authority

• Describe how this service supports the agency mission

Each of these programs support low-income families, assisting them in strengthening individuals, their families, and the capacity of their communities to address a myriad of needs including education, nutrition assistance, teen and non-marital pregnancy prevention, and asset creation.

Describe the Statutory Authority of this Service

Public Law 104-193, the Personal Responsibility and Work Opportunity Act passed in August of 1996, eliminated the open-ended federal entitlement program of Aid to Families with Dependent Children (AFDC) and created a block grant for states to provide time-limited cash assistance and services for needy families.

The Food Stamp nutrition program is administered by the U. S. Department of Agriculture and federal statutory authority is the Food Stamp Act of 1977, as amended; federal regulations are codified at Title 7 of the Code of Federal Regulations (CFR).

The Appropriations Act of 2005 allocates the funds for each of these initiatives.

Customers

| Agency Customer Group | | Customer | Customers served annually | Potential annua customers | ıl |

| | General Public (served unknown; potential unlimited) | General Public | 0 | | 0 |
| | Individuals, Children and Families (served unknown; potential unlimited) | Low income individuals and families (served unknown; potential unlimited) | 0 | | 0 |

Anticipated Changes To Agency Customer Base

The increase in population diversity and increase in the number of individuals living in poverty in the Commonwealth will create a larger, more diverse customer base.

Partners

Partner Description
Community Action Agencies

State agencies

Statewide community action organizations

Products and Services

• Factors Impacting the Products and/or Services:

In addition to having a larger and more culturally diverse population eligible for services, TANF reauthorization has had a significant impact on this service area because the changes require the Commonwealth to serve more individuals, making it increasingly difficult to sustain TANF allocations outside of the formal TANF cash assistance and workforce program.

Anticipated Changes to the Products and/or Services

The Department anticipates more multi-lingual products and services.

- Listing of Products and/or Services
 - o Education Services
 - o Housing
 - o Support of organizations serving communities
 - o Services to protect vulnerable adults
 - Economic assistance to low income families/individuals or nutrition, child care, health care eligibility, and financial
 assistance to low income families/individuals

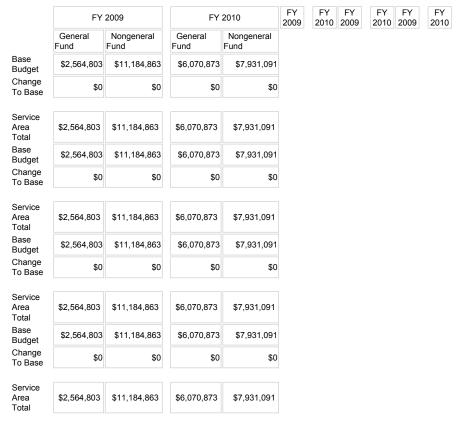

Finance

Financial Overview

The budget for this service area is a combination of federal TANF and Food Stamp funds. Matching funds come from

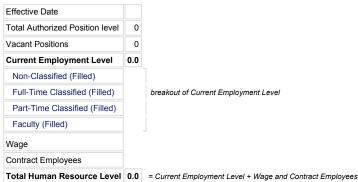

Virginia Tech funding sources and are appropriated in that university's budget.

Description Partner

Local Departments of Social

Services

State agencies

Products and Services

- Factors Impacting the Products and/or Services:
 - The competition for federal and state resources has become more challenging over the past few years as each has sought to control costs. This has required VDSS to be more creative in meeting the needs of its customers, while maintaining compliance with federal and state requirements. It is anticipated that this trend will continue as long as federal deficits remain an issue at the national level.
- Anticipated Changes to the Products and/or Services
 - The Department is evaluating changes to its business processes. However, specific changes to administrative systems and procedures have not been identified at this time.
- Listing of Products and/or Services
 - o Economic assistance to low income families/individuals or nutrition, child care, health care eligibility, and financial assistance to low income families/individuals
 - O Support Services (i.e. HR, IS, etc.)
 - o Claims Integrity
 - o Support of organizations serving communities
 - Services that promote self-sufficiency
 - Services that protect children

• Financial Overview

Support services are funded by a combination of state general fund and non-general funds. The sources of the nongeneral fund include all the major federal grants (Food Stamps, Medicaid, TANF, IV-D Child Support Enforcement, IV-E Foster and Adoptions, Social Services Block Grant (SSBG), Low Income Home Energy Assistance Program (LIHEAP), and the Child Care and Development Fund (CCDF).

Regulation of Adult and Child Welfare Facilities (765 561 01)

Description

The Division of Licensing Programs (DOLP) regulates thirteen types of non-medical day and residential care settings for vulnerable children and adults, including adoption and foster care agencies. The Division's workload comprises child day care facilities (89%), adult care (9%) and child residential care (2%). Provided services include mandated inspections, investigations of complaints and allegations and provider/community education related to licensing processes.

Background Information

Mission Alignment and Authority

- Describe how this service supports the agency mission
 By enforcing regulatory requirements, we protect the safety, health and well-being of children and vulnerable adults in out-of-home care
- Describe the Statutory Authority of this Service
 The Code of Virginia (Title 63.2, Chapters 1, 17 and 18) plus other relevant Titles per program.

Anticipated Changes To Agency Customer Base

Child day care programs will continue to grow as a support to parental employment and as parents and policy makers become increasingly attuned to the role of early education in children's later academic, social and economic success. Demand for adult care will continue to increase, driven by the aging of the general population, the demographic "babyboom" surge, the continued shrinkage in the state mental hospital system, customer preference for non-institutional settings, continued efforts at health care cost reduction/avoidance, and an evolving medical technology that moves treatment from health care to non-medical settings. Child welfare/child care services are also increasing, particularly in residential placement and independent living. There is increased emphasis on reducing the length of foster care placement and promoting adoption services. Rising infertility rates are prompting an increase in regular, international and assisted conception adoptions. Because of costs and litigation concerns private contractors are specifically withdrawing from family day systems and voluntary registration programs.

Products and Services

- Factors Impacting the Products and/or Services: [Nothing entered]
- Anticipated Changes to the Products and/or Services

Workload demands have increased for DOLP inspectors responsible for regulating thirteen child and adult care programs. Inspections now require more time to complete as a reflection of the increasing biomedical/psychosocial acuities of residents in care. Inspectors' efficiency in meeting mandated inspections has also been adversely affected, and the number of family day homes seeking licensure or voluntary registration has increased.

• Listing of Products and/or Services

- o Support of organizations serving communities
- o Services to protect vulnerable adults
- o Services that promote sufficiency
- o Services to protect children

Finance

Financial Overview

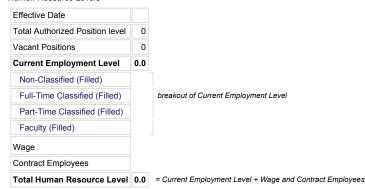

Funding for Regulation of Adult and Child Welfare Facilities comes from general funds and non-general funds. The non-general funds come from various sources primarily the Child Care Development Fund- Discretionary and Matching awards and the Social Services Block Grant (SSBG).

Service Area 33 of 33

Interdepartmental Licensure and Certification (765 561 06)

Description

The Interdepartmental Regulation Program for Children's Residential Facilities ended on July 1, 2008. The Office of Interdepartmental Regulation has become the Office of Background Investigations. This new office will will continue to process criminal background investigations for all children's residential facilities (except those certified by the Department of Juvenile Justice) and child placing agencies. Additionally, VDSS' Child Protective Services Central Registry Search Unit was moved to the new Office of Background Investigations.

This action is the result of Senate Bill 472 that was approved by the 2008 General Assembly and was signed into law by Governor Kaine on April 23, 2008.

Background Information

Mission Alignment and Authority

• Describe how this service supports the agency mission

By assuring that individuals convicted of certain barrier crimes or who have a founded complaint of child abuse or neglect can not work with or provide services to children or other vulnerable populations, VDSS maximizes the safety and stability of children and adults in any number of caretaker, educational and residential settings. This action directly supports the agengy's first strategic goal and supports our mission of helping people overcome abuse and neglect and to shape strong futures for themselves, their families and communities.

• Describe the Statutory Authority of this Service

The following sections of the Code of Virginia give Office of Background Investigations the authority to perform criminal and Child Protective Services Central Registry background investigations: §§ 63.2-901.1; 63.2-1515; and 63.2-1726.

Products and Services

• Factors Impacting the Products and/or Services:

The number of required criminal background investigations and requests to search the Child Protective Services Central Registry continues to increase each year. Expansion of requirements for individuals to obtain background investigations will increase the demand for services from this office.

• Anticipated Changes to the Products and/or Services

Criminal background investigation laws may need to be revised to assure that barrier crimes are appropriate. The information system for the Child Protective Services Central Registry checks is being assessed to determine if efficiency can be improved.

- Listing of Products and/or Services
 - o Child Protective Services (CPS) Central Registry checks
 - $\circ\,$ Services to protect children and vulnerable adults through criminal background investigations

Finance

Financial Overview

Funding for Interdepartmental Licensure and Certification comes from general funds and federal funds. The federal funds come from IV-E Foster Care.
