

Agency Strategic Plan

Department of Corrections (799)

3/11/2014 11:01 am

Biennium: 2010-12 ▾

Mission and Vision

Mission Statement

The Department of Corrections enhances public safety by providing effective programming and supervising sentenced offenders in a humane, cost-efficient manner, consistent with sound correctional principles and constitutional standards.

Vision Statement

The Virginia Department of Corrections is a model correctional agency and a proven innovative leader in the profession. Virginia is a safer place to live and work because the Department provides appropriate custody, supervision, and programs for offenders through its exemplary services.

The employees of the Department are the cornerstone of the agency. They share a common purpose and a commitment to the highest professional standards and excellence in public service. The Department, through its unwavering commitment to its employees, is a satisfying and rewarding place to work and grow professionally.

Agency Values

- Fulfilling
Doing work that is meaningful, and fulfilling, which contributes to the agency and society.
- Ethical
Conforming to high professional, ethical and moral standards of conduct.
- Achieving
Contributing to the achievement of the Department's Vision, Mission and Goals.
- Purposeful
Demonstrating a commitment to the Department's purpose, the safety of the citizens of Virginia.
- Balanced
Balancing the needs of the individual, society and all aspects of the agency.
- Supportive
Being team players and supporting one another.

Executive Progress Report

Service Performance and Productivity

- *Summary of current service performance*

Department of Corrections employees are proud of their contributions to the Commonwealth, and are committed to providing the best for Virginia, as our current service performance demonstrates.

The Department of Corrections improves public, employee and inmate safety by providing national leadership in public safety, by being a model agency through effective and efficient management, control, and supervision of offenders, and by identifying, implementing and evaluating cost effective, quality programs and services that provide offenders opportunities to demonstrate pro-social behaviors.

Scope of Responsibility:

Physical Plant

- During 2009 the Department was responsible for maintaining 1,774 buildings that provide 15,469,950 sq. ft. of housing and program space for offenders and staff. These state resources are located on approximately 19,435.64 acres that the Department maintains.
- The Department currently leases approximately 578,194 square feet of office and warehouse space for programs and administrative functions.

Offender Population

- As of June 2009, the Department of Corrections was responsible for the supervision and custody of 32,239 state responsible inmates. An additional 6,148 state responsible offenders were housed in local correctional facilities awaiting transfer to Department facilities.
- Community Corrections is responsible for the supervision and transition of 59,589 (as of 05/30/08) offenders. This is accomplished through an array of statewide programs including 43 Probation & Parole District Offices, 4 Diversion Centers, 3 Detention Centers, 6 Contract Residential facilities.
- There are 17 sex offender containment supervision pilot districts, 9 evidence based practice districts, 3 evidence based practice detention and diversion centers and 2 violent and serious offender re-entry programs.

Performance:

Community Corrections

- Average P&P Officer workload per offenders under supervision for FY2008= 90.4 vs. FY2006 = 73.8
- Total investigations and reports for FY2008 = 85,964 and represents a 4.1% increase over FY2007.
- 66.4% success rate for offenders under supervision (cases closed successfully for FY 2008)
- 595 Absconders captured in FY 2008

Institutional Operations

- There were no escapes from secure custody facilities in FY2003 and FY2004; 1 escape in FY2005, 0 in FY2006 and FY2007, 1 in FY 2008 and 2 in FY 2009.
- Aggravated assaults on inmates totaled 23 in FY2007 and increased slightly to 25 in FY 2008 and dropped in FY2009 to 18.
- Aggravated assaults on staff totaled 7 in FY 2007, dropped to 2 in FY 2008 and increased to 5 in FY 2009..

Employee Safety

- Workers compensation losses in FY2009 are less than a third of those in FY1993. This performance reflects our improvements in employee safety training and equipment, as well as the maintenance program at each facility and office. While there are no acceptable accidents, maintaining a loss incidence rate of 8.0 or less per 100 filled positions is an admirable goal in this type of industry.

19.8 (claims with a loss) per 100 filled positions in FY1993
 7.7 (claims with a loss) per 100 filled positions in FY2004
 8.0 (claims with a loss) per 100 filled positions in FY2005
 7.8 (claims with a loss) per 100 filled positions in FY2006
 7.7 (claims with a loss) per 100 filled positions in FY2007
 7.9 (claims with a loss) per 100 filled positions in FY 2008
 4.7 (claims with a loss) per 100 filled positions in FY 2009

Facility Services and Programs:

Treatment and Mental Health

- Inmates were occupied in constructive activities (work, basic education, or rehabilitative programming) an average of 26 hours per week in FY2009.
- Intensive substance abuse treatment programming was provided to 1,200 inmates to prepare them to re-enter the community and lead law abiding lives.
- The 24-month recidivism rate for inmates completing substance abuse therapeutic community programs in 2007 is 9.4%.

Ombudsman Services

- In 2008 there were 12,732 regular inmate grievances and 820 emergency grievances processed by Ombudsman Program Staff. (these numbers only reflect information that has been logged in AGS –it does not accurately reflect all the grievances that have been processed at the facilities.)

Medical Services

- For CY2008 there were 364, 229 medical visits as compared to the 2007 total of 346,916 visits (these figures include medical, dental, and sick call appointments).
- The 2009 average health care cost per inmate was \$4,328 a slight decrease from the FY 2008 figure of \$4,393.

Agribusiness

- \$19.8M in revenue in Agribusiness Program in 2009

Correctional Enterprises

- FY2009, VCE's total sales were \$47.6 million.
- The high month for inmates worked was 1,614.

VCE utilized inmates in 28 shops.

Food Service and Sanitation

- In 2009, 100% of DOC facilities met or exceeded public restaurant sanitation regulations.
- Food service staffs provide approximately 34,500,000 meals each year (94,600 each day). A 28 day menu cycle is approved by a Registered Dietitian and meets the recommended dietary allowances as defined by the Food and Nutrition Board of the National Academy of Sciences.

The Department of Corrections improves employees' and organizational effectiveness by recruiting, developing, supporting, and retaining a highly effective workforce which has the highest professional standards and by having the right people in the right place with the right tools at the right time.

Scope of Responsibility:

The Department of Corrections is a large public safety agency with 12,939 FTE positions (fiscal year 2010 per Chapter 781) to man 43 Probation and Parole districts, 30 Major Institutions, 15 Field Units/Work Centers, 3 Detention Centers, 4 Diversion Centers, 3 Regional Offices, an Academy for Staff Development, a Correctional Enterprise operation and an administrative headquarters.

Performance:

Retention of Correctional Officers

- As of May 2009 the DOC has a 87.6% retention rate for Correctional Officers. This is 7.7% higher than the retention rate in May 2007 (79.9%).
- In FY 2009 99.5% of staff meet state training standards as reported b y the Academy for Staff Development. This is a 1% increase from the previous year.

The Department of Corrections improves financial performance by continually assessing operations to ensure that limited resources are allocated efficiently and effectively and in support of the strategic plan.

Scope of Responsibility:

As of June 2009, the Division of Operations provides custody, medical, mental health, treatment and work programs and services to 38,387 inmates through a statewide system comprised of 30 Major Institutions and 15 Field Units/Work Centers.

Performance:

Purchasing

- SWAM: The DOC has shown an increase in expenditures with SWAM firms for the past 5 years. In FY 2009, DOC spend figures with SWAM vendors totaled 40%.
- eVA: DOC is 100% compliant with placing required orders through eVA.

Prompt Pay

- All DOC units finished FY2006 through FY 2009 above 99.5%

Workers Compensation Premium Reductions

- The Dept. of Human Resource Management - Workers Compensation Program has recommended premium reductions of about 30% over the next 2 fiscal years due to the success of DOC's work safety program. Though DOC's loss history has stayed static, or even seen a reduction in accidents, employee pay increases as well as an increase in the number of positions to staff new facilities plus the continuous rise in health care costs have all served to drive the premiums for workers' compensation up.

APA Audit

- The most recent APA audit, for the fiscal year ending June 30, 2006, contained only 3 findings one of which is recurring.

The Department of Corrections improves communications by sharing the Department's Vision, Mission, Operations and Achievements with our employees, stakeholders, and the public.

Scope of Responsibility:

The Department of Corrections is a large state agency with 12,424 employees, 97,976 state responsible offenders and thousands of external stakeholders including the Citizens of the Commonwealth, the Victims of Crime, and the Federal, State and Local Public Safety Agencies. While the Department is invisible to most of our stakeholders, our success is dependent upon effective communications with our staff and public safety partners.

Performance:

Department has initiated internal E-News letter and internal Website to enhance communications with its employees.

- The DOC continues utilizing senior-level staff to communicate with the public at local functions conducted throughout the Commonwealth.
- The Department has an instrumental role in coordinating "Gang Awareness Initiatives" through efforts with State and Local police departments.
- Department utilizes a Public Website for communicating to citizens of the Commonwealth.

- *Summary of current productivity*

Over the past 10 years the Department of Corrections workload has increased significantly, however the Department has operated very efficiently by reducing costs in real dollars.

Workload is Much Higher

- The number of offenders under the supervision and custody of the Department of Corrections has increased significantly from 1999 to the present. The inmate population has increased by 24.7% and the community corrections supervision population has increased by 58.8%.

State Responsible Inmates (includes jail) and offenders under Community Supervision

May 1999- 30,779 and 37,501

May 2009- 38,402 and 59,589

Initiatives, Rankings and Customer Trends

- *Summary of Major Initiatives and Related Progress*

Workforce: There are several major workforce challenges for the Department of Corrections in the next five years.

1. The first is the potential retirements in senior and executive management positions (specifically Wardens, Superintendents, and P&P Chiefs) and the Executive Team.

The Department has placed additional emphasis on the development of middle and senior managers for the last several years. We are augmenting the general development of all staff with a specific program to prepare middle managers for senior management positions. The Department of Corrections created a leadership council in August 2004 and empowered it to provide a comprehensive program to enhance the knowledge and skills of selected middle managers to prepare them for the next level of management. The program is beginning its fourth session in July 2007. Already approximately 100 participants have successfully completed the program.

The Department is refocusing its training for senior managers to assist them not only in providing the leadership and management that they need in their current positions but also to prepare them to step into the broader and higher Executive Team role as positions become available.

Additionally, new training programs are preparing new supervisors for their roles and experienced supervisors to further develop their skills to move into management positions.

2. The second is the staffing of the new and expanded facilities.

A second major challenge for the Department is to finish the hiring and training for the new Pocahontas State Correctional Center scheduled to open September 2007, to staff the expanded St. Brides facility (2007) and then staff the new facility in Grayson County (2010). This past fiscal year the Department has staffed the expanded Deerfield Correctional Center and the Green Rock Correctional Center at Chatham in Pittsylvania County. Below are the facilities and the approximate number of filled positions needed by the projected opening dates:

St. Brides Phase II 112.00
Grayson County Prototype 306.00
Total 418.00

These new facilities will require the hiring of many new employees for the Department. At the same time, it will open many new promotional opportunities for Department staff creating the need to back-fill many positions at other locations throughout the agency.

Fortunately, the Department has experience in opening new facilities.. This experience will help us develop the plans necessary for the recruitment, selection, and training of new and replacement staff throughout the Department.

3. The third is to be able to offer a level of compensation that will attract and retain a high quality workforce.

The third challenge is for the Department to be able to offer the beginning salaries necessary to attract a highly qualified and skilled workforce and to provide increases in salary that will recognize the contributions of employees and the service they have given the Commonwealth. Salary compression is an issue for our employees. Many tenured employees are compensated at a rate similar to less seasoned employees. Employees have accepted employment believing that there will be salary progression during their tenure and this has not been the case. Our first line Corrections Officers are not compensated on par with many deputy sheriffs and regional jail officers throughout the Commonwealth. Our Probation Officers also receive lower salaries than comparable local government positions. This causes recruitment and retention issues for the Department. However, raising hiring ranges is only part of the issue because it will exacerbate the salary compression issue if we do not or cannot make other adjustments. The Department did receive funding to begin to address the security staffing issue but it is only enough to take an initial step on improving compensation. Additional compensation will need to be forthcoming to more appropriately align our positions to those of the localities. The Department will also need additional funding to be able to attract and retain staff

in many other areas such as nursing, building and trades, technology, psychology and other career areas where the salaries offered by the Commonwealth are not comparable to those offered by other employers who are our competitors.

The Department will continue to conduct career group reviews to confirm key skills needed for each occupational area to keep pace with technology, policy, and program changes.

The Department will also continue to implement human capital programs at the unit level to improve work environments and organizational efficiencies that will promote engagement and retention of our highly diverse workforce.

4. The fourth is to provide training and staff development programs in a manner that best meets the needs of the Department and its employees.

The Department with its employees located in all sections of the Commonwealth has the challenge of meeting those employees' training and development needs while at the same time minimizing to the extent possible the amount of travel time used by the employees and maximize the amount of time employees can spend on the job and on their posts. The establishment of a satellite training facility in Southwest Virginia would be a significant step in meeting this goal. A study on establishing a satellite training facility was submitted to the General Assembly in June 2007.

Additionally, the Department will need to continue to develop and expand its use of distance learning and other technology to facilitate training across its broad geographic locations. The Academy in Goochland will continue to be the location for the majority of training but other alternatives will continue to be explored.

Technology: (CORIS – Formerly Offender Management System) The transition of the Department's database technologies from 1980's to current functionality remains a critical initiative. When completed, CORIS will improve efficiency and effectiveness throughout the agency.

- Currently CORIS is being used by the Court and Legal Unit for time computation and is the primary database used to track offenders in the Division of Community Corrections. The projected date of release to the Division of Institutions to replace stand-alone legacy systems that are nearly 30 years old is January 2010.

Prison Rape Elimination Act: The Federal Prison Rape Elimination Act of 2003 calls for the gathering of national statistics on acts of sexual violence occurring in prison; the development of guidelines for states on how to address prisoner rape; the creation of a review panel to hold annual hearings; and the provision of grants to states to combat the problem.

- The Department of Corrections is currently unable to quantify the fiscal impact of this Federal Legislation. It is anticipated training efforts for staff to comply with this act will be extensive, as well as information that will have to be communicated to offenders.

- The impact of failing to comply could have serious consequences on overall grant funding received by the Commonwealth.

- **Summary of Virginia's Ranking**

Accreditation: The Department of Corrections is recognized as a national leader in providing public safety services as demonstrated by the accreditation of Department facilities and programs by national professional organizations such as the American Correctional Association and the Joint Commission on Accreditation of Healthcare Organizations. At this time the American Correctional Association has accredited 1 Detention Center, twenty-one (21) Major Correctional Institutions (including the Correctional Enterprises shops) and the Academy for Staff Development.

National Comparisons: The Corrections Yearbook, a recognized national reference for comparative statistics, has ranked Virginia as a consistent leader in fewest escapes and fewest serious assaults among state correctional agencies.

- **Summary of Customer Trends and Coverage**

All 7.5 million Citizens of Virginia are recipients of public safety services provided by the Department of Corrections. Community Corrections provides statewide offender supervision and transition services through the Probation and Parole District Offices and special programs. Institutional Operations provides secure custody through correctional facilities located in each of three regions.

Impact of Aging Population

It is commonly regarded in Corrections that an inmate age 50 and older is typically noted as 'geriatric' because their previous lifestyles have tended to make these offenders reach 'old age' faster than non-inmates. Such an inmate chronologically 50 is actually 10 to 15 years older physiologically than someone not incarcerated. Lifestyles include a history of alcohol and drug use and abuse, limited health care and the stressors of prison life. On June 2, 2008, there were 4,678, or 12.2%, of the confined VA DOC prison population was 50 years and older. Over the last 18 years, the 50 or older confined population increased almost six-fold from 715 to 4,678.

Many older inmates have different medical and mental requirements than younger inmates. They have problems with medical conditions, endurance, hearing and vision. Geriatric inmates may also require a special, more costly diet. Many geriatric inmates require special equipment, more assistance and are not necessarily able to be double-bunked (climb up to the top bunk). Geriatric chairs, (shower chairs, wheel chairs and higher legged chairs) beds, walkers and special bathroom facilities must be provided based on recommendations from medical officials.

Currently the Department houses many of the agency's geriatric population at Deerfield Correctional Center. Deerfield offers geriatric services within the perimeter which include horticulture, a library with large print books, board games, arts and crafts as well as music to keep the inmates physically active and mentally alert. Additionally, reality orientation is provided to check for Dementia, Alzheimer's Disease and cognitive abilities. There is peer tutoring and a cooperative effort with the Virginia Beach Library to assist with material for the blind and visually challenged offenders. Educational services and recreational services, including special exercise equipment, not only provide activities for the geriatric inmate but also help keep them as healthy as possible. This is done to encourage independent living skills and good health, therefore reducing medical and rehabilitation costs. Additionally, the Department provides programs like productive citizenship, anger management, substance abuse and sex offender treatment as well as pre-release services.

Because of the special needs of geriatric inmates, employment upon release may not be an option so re-entry placement and assistance are planned for many of the inmates. While all sex offenders are difficult to return to the community, older sex offenders are a special challenge. Families may no longer know the inmates who have been incarcerated for a long period of time or may not be willing to assist them due to the nature of the crime. Similarly, nursing homes and assisted living facilities may not accept sex offenders. Finding and coordinating suitable living arrangements for geriatric offenders upon their release will continue to be a demanding task for the Department.

The geriatric population in prison and in the community is projected to increase over the next six-year forecast horizon. As the geriatric population increases the costs to provide the appropriate types of institutional and community care with

services required by law will increase as well.

Future Direction, Expectations, and Priorities

- *Summary of Future Direction and Expectations*

During the coming biennium, the Department of Corrections will continue to evolve into:

- A Department that is proactive and driven by a strategic plan
- A Department that is accountable for performance at all levels of the organization as measured by quantitative indicators and targets
- A Department that is prepared for an increasing workload
- A Department with an integrated, user friendly information system that replaces legacy systems and provides Offender Management System needs
- A Department that influences recidivism in a positive direction through effective treatment and re-entry programs
- A Department with a decision process that allocates resources based on effective program evaluation and strategic direction
- A Department that drives an accreditation process less focused on files and more focused on operational achievements
- A Department that enhances effective two-way communications both laterally and vertically throughout the organization
- A Department that works toward fulfillment of employee potential and increased employee satisfaction as measured through an employee satisfaction index
- A Department that prepares future leaders through a succession planning program that develops managerial and executive skills
- A Department that encourages cohesiveness, cooperation, and progressive thought; requires use of best practices and rewards risk-taking
- A Department that is fiscally responsible, maximizing efficiency while maintaining a high level of effectiveness

The strategic plan provides a basis for decision-making and brings the Department into focus. With a clear vision of where we want to go and a plan to get us there, the Department will achieve consistently higher levels of performance.

Priorities

- Attracting, Developing, Supporting, and Retaining Employees
- Ensuring On-going Security Enhancements and Staff Safety
- Improving Technology Resources, Management and Utilization
- Providing Effective Offender Management and Programming
- Improving Communications
- Improving Resource Planning and Allocation

- *Summary of Potential Impediments to Achievement*

Issues Affecting Efforts to Improve Public, Employee and Inmate Safety:

P&P Officer Caseload

- The Department continues to address the Community Corrections caseload annual growth of five percent. The Department is attempting to maintain 70 cases per officer (consistent with the funding provided in the 2004 General Assembly Session). However, with the growth of the population the current caseload is approximately 90 offenders per officer with a general caseload.

Virginia Information and Technology Agency (VITA) Costs

- The Department continues to experience cost increases and administrative fees associated with VITA. It is uncertain how long it will take before the Department begins to accrue cost reductions in term of real dollar savings once VITA begins to benefit from leverage created by its size in the marketplace.

Medical Services

- Cost increases are anticipated due to continued inflation of medical costs as well as higher expenses anticipated from contract renewals at eight DOC locations that are privately managed.

Gang Threat Group Funding

- DOC recognized the need to identify and track offenders affiliated with threat groups. Other State and Local agencies did receive financial assistance, yet the DOC continues to absorb costs associated with playing a pivotal role in coordinating gang control initiatives while taking a leadership role in initiating the control of gang threat activity.

Inadequate Staff Compensation

- The Department continues to request funds required both to recruit and retain staff. The DOC finds it difficult to offer beginning salaries necessary to attract a highly qualified and skilled workforce especially in specialized workgroups like Nursing Services, Building Trades, Dental Services and Information Technology. For existing staff, salary compression is an issue for our employees as many tenured staff are compensated at a rate similar to less seasoned employees. Ongoing pay-practice funding is required to help rectify this problem.

Unfunded Mandates

- The Department must implement a large number of initiatives because of mandates generated through Governor's administrative actions, legislation and federal regulations. Unfortunately, the Department receives little or no funding or personnel to implement nearly all of these mandates. This creates a situation where the Department is forced to maintain position vacancies in other areas (primarily in security which could cause a potential negative impact) in order to fund these responsibilities.

The Prison Rape Elimination Act (PREA)

- PREA is a complex and comprehensive bill passed by congress in 2003. The Act is broad and spans all areas of the Department that relate to detection, prevention, reduction and punishment of prison rape.

Increase Maintenance and Replacement Costs

- Many facilities within the Department are old and some are exceeding their useful lives. Facility Condition Assessments are being performed and in some cases replacement rather than repair may be indicated. Funding and the need for adding new bed space limit the Department's ability to implement replacement plans.

Facility Operational Costs

- DOC's annual cost of operations rises for a wide variety of mandated line items (utilities, fuel, rent, payment-in-lieu of taxes, etc.) yet receives no additional funding to relieve these growing liabilities. This puts DOC in the position of keeping critical positions vacant to absorb these unfunded expenses.

Evidenced Based Practices (EBP)

- Implementing EBP within facilities creates special training requirements for staff and inmates alike. The culture of a prison must support positive offender change through every aspect of its operations and programs. Each interaction between inmate and staff creates an opportunity for role modeling and teaching.

-EBP has also been implemented in 9 Probation and Parole district and 3 Detention/Diversion centers. The EBP districts have a 9.3% higher successful completion rate than control districts. We are working to implement EBP in more of our localities.

Issues Affecting Efforts to Improve Employees' and Organizational Effectiveness:

There are several major workforce challenges for the Department of Corrections in the next five years:

- The potential retirements in senior and executive management positions (specifically Wardens, Superintendents, and P&P Chiefs) and the Executive Team.
- Hiring skilled and qualified staff for the new and expanded facilities.
- Provide training and staff development programs in a manner that best meets the needs of the Department and its employees.
- Being able to offer a level of compensation that will attract and retain a high quality workforce. (The previous Appropriations Act provided enhanced compensation for Correctional Security Staff in FY08. The plan also included salary increases related to geographic location, salary increases for long term officers and supervisors in order to address salary compression issues, and additional compensation for officers serving in special roles that benefit their facility.)

Even with the additional compensation enhancement listed above, DOC is still placed at a disadvantage in continuing to retain and recruit qualified staff when compared with many local and regional jails and sheriff offices.

- Compensation disparities send the wrong message to DOC Correctional Staff.
- VALORS: During previous legislative sessions, DOC encouraged language changes that would have provided VALORS benefits to Wardens, Assistant Wardens, Superintendents and Investigators. Unfortunately, these language adjustments were not approved. DOC continues to believe this fringe benefit inequity needs to be addressed to ensure continued recruitment and retention of qualified personnel as our existing facility managers continue to age.

Products and Services

- *Description of the Agency's Products and/or Services:*

The Department of Corrections provides a wide variety of products and services throughout its many units (i.e. Virginia Correctional Enterprises and the Department's Agribusiness Operations, etc.). However, the Department's primary

service is the administration and operation of correctional institutions and community facilities to ensure the control and supervision of offenders to include the management and coordination of programs and services for offenders once they are released out into the Community.

- **Factors Impacting Agency Products and/or Services:**

Crime Rates, Sentencing/Releasing Practices, Legislation, Judicial and Correctional Resources

- **Anticipated Changes in Products or Services:**

Increases in offender populations are expected (i.e. Institutions' has expanded two existing facilities and built two new facilities with authorization to construct one additional facility. Community Corrections caseload is anticipated to continue to grow at a rate of 4% per year.

Finance

- **Financial Overview:**

The majority of the Department of Corrections' funding comes from general fund dollars (93%) and special funding (7%) created primarily from revenue generated from Virginia Correctional Enterprises' sale of products and services. Source document Chapter 781 (Appropriations Act).

- **Financial Breakdown:**

	FY 2011		FY 2012	
	General Fund	Nongeneral Fund	General Fund	Nongeneral Fund
Base Budget	\$957,682,951	\$67,004,963	\$957,682,951	\$67,004,963
Change To Base	\$20,533,529	\$0	\$25,309,053	\$0
Agency Total	\$978,216,480	\$67,004,963	\$982,992,004	\$67,004,963

This financial summary is computed from information entered in the service area plans.

Human Resources

- **Overview**

The Department of Corrections is a large public safety agency with 12,939 FTE positions (fiscal year 2010 per Chapter 781) to man 43 Probation and Parole districts, 30 Major Institutions, 15 Field Units/Work Centers, 3 Detention Centers, 4 Diversion Centers, 3 Regional Offices, an Academy for Staff Development, a Correctional Enterprise operation and an administrative headquarters. Geographically the Department of Corrections provides a wide range of services from community supervision to the highest level of secure incarceration throughout the Commonwealth of Virginia from the Chesapeake Bay to Bristol, from the North Carolina border to the Shenandoah Valley and Northern Virginia.

Please note in the Human Resource Level Chart below, the Department has a total of 221 wage employees as of July, 2009. However, these employees are located throughout the state and not identified by specific Service Area Plan.

- **Human Resource Levels**

Effective Date	9/1/2009	
Total Authorized Position level	12818.5

Faculty (Filled)	0	
Wage	0	
Contract Employees	0	
Total Human Resource Level	12,818.5	= Current Employment Level + Wage and Contract Employees

- **Factors Impacting HR**

There are several major workforce challenges for the Department of Corrections in the next few years.

1. The first is the potential retirements in senior and executive management positions (specifically Wardens, Superintendents, and P&P Chiefs) and the Executive Team.

The Department has placed additional emphasis on the development of middle and senior managers for the last several years. We are augmenting the general development of all staff with a specific program to prepare middle managers for senior management positions. The Department of Corrections created a leadership council in August 2004 and empowered it to provide a comprehensive program to enhance the knowledge and skills of selected middle managers to prepare them for the next level of management.

The Department is refocusing its training for senior managers to assist them not only in providing the leadership and management that they need in their current positions but also to prepare them to step into the broader and higher Executive team role as positions become available.

Additionally, new training programs are preparing new supervisors for their roles and experienced supervisors to further develop their skills to move into management positions.

2. The second is the staffing of the new and expanded facilities.

As funding becomes available to open Phase II of St. Brides Correctional Center as well at the new Grayson County prison which is scheduled to be completed in the summer of 2010, the Department will begin the hiring and training of staff to operate these facilities. This will open many new promotional opportunities for Department staff creating the need to back-fill many positions at other locations throughout the agency.

Fortunately, the Department has experience in opening new facilities. This experience will help us develop the plans necessary for the recruitment, selection, and training of new and replacement staff throughout the Department.

3. The third is to be able to offer a level of compensation that will attract and retain a high quality workforce.

The third challenge is for the Department to be able to offer the beginning salaries necessary to attract a highly qualified and skilled workforce and to provide increases in salary that will recognize the contributions of employees and the service they have given the Commonwealth. Salary compression is an issue for our employees. Many tenured employees are compensated at a rate similar to less seasoned employees. Employees have accepted employment believing that there will be salary progression during their tenure and this has not been the case. Our first line Corrections Officers are not compensated on par with many deputy sheriffs and regional jail officers throughout the Commonwealth. Our Probation Officers also receive lower salaries than comparable local government positions. This causes recruitment and retention issues for the Department. However, raising hiring ranges is only part of the issue because it will exacerbate the salary compression issue if we do not or cannot make other adjustments. The Department did receive funding to begin to address the security staffing issue but it is only enough to take an initial step on improving compensation. Additional compensation will need to be forthcoming to more appropriately align our positions to those of the localities. The Department will also need additional funding to be able to attract and retain staff in many other areas such as nursing, building and trades, technology, psychology and other career areas where the salaries offered by the Commonwealth are not comparable to those offered by other employers who are our competitors.

The Department will continue to conduct career group reviews to confirm key skills needed for each occupational area to keep pace with technology, policy, and program changes.

The Department will also continue to implement human capital programs at the unit level to improve work environments and organizational efficiencies that will promote engagement and retention of our highly diverse workforce.

4. The fourth is to provide training and staff development programs in a manner that best meets the needs of the Department and its employees.

The Department with its employees located in all sections of the Commonwealth has the challenge of meeting those employees' training and development needs while at the same time minimizing to the extent possible the amount of travel time used by the employees and maximize the amount of time employees can spend on the job and on their posts. The establishment of a satellite training facility in Southwest Virginia would be a significant step in meeting this goal.

Additionally, the Department will need to continue to develop and expand its use of distance learning and other technology to facilitate training across its broad geographic locations. The Academy in Goochland will continue to be the location for the majority of training but other alternatives will continue to be explored.

- **Anticipated HR Changes**

The challenges outlined above are where the majority of changes in human resources will take place in the next several years. Additionally, the development of a Commonwealth enterprise-wide HR system that meets the needs of the operating agencies appears to be coming. This will allow both the Department and other agencies to make better decisions based on current (real time) data and will improve the efficiency of the HR function that was significantly impacted by budget reductions.

Information Technology

- **Current Operational IT Investments:**

The core mission of the Virginia Department of Corrections is the supervision of offenders in the community as well as in facilities. Several software applications that support this mission are archaic using legacy technologies, are not integrated, and are becoming more difficult and costly to support. In March 2006 the Department completed the first phase of a major project (VirginiaCORIS) to replace these legacy applications with a single, integrated, current technology application. In October 2008 the second phase of VirginiaCORIS was released and is now the primary management tool for Community Corrections. An additional release for Community Corrections was implemented in May, 2009, and the final release for Community as well as the replacement for the Virginia Parole Board will go live in September, 2009. The next release is scheduled for January 2010 and will replace current institutional databases. At this point, DOC will be using VirginiaCORIS as its single offender management system. The CTSU is also charged with the responsibility to act as the clearinghouse for all DOC technology initiatives, including those impacting operational issues. CTSU supports the DOC Public Safety Mission by providing leadership and expertise in the development and application of technology, delivering effective and cost efficient technology solutions, ensuring the integrity and security of the network, maintaining collaborative and cooperative relationships with the IT Partnership, and creating and maintaining collaborative partnerships with state agencies and external organizations.

Several proposed initiatives and unfunded investments outlined in the Strategic Plan required to support the agency's performance measures include, but are not limited to, Electronic Healthcare Medical Records, LiveScan and Mug Shots, Offender KIOSKS, Web-Based GIS for Offender Data, and Datamart – Business Intelligence Reporting. The Financial, Human Resources, Manufacturing, and other administrative areas of the Department are also underserved in IT. There is no ERP application in place to support these areas of the Department. Staff inefficiently enters redundant data in multiple applications; many business processes are handled in a manual fashion; and management has insufficient real time access to quality data for essential decision making functions.

CTSU is staffed by private sector consultants who support the implementation of Virginia CORIS and the Virginia Parole Board.

- **Factors Impacting the Current IT:**

The VITA/NG IT Partnership commenced service in 2005 and maintains and supports the network infrastructure on which most of the Department's IT services run. The transformational activities initiated by the IT Partnership agreement, such as messaging services, moving the mainframe, refreshing PCs and Laptops, upgrading the Commonwealth's network, IT security monitoring and response, and voice and video services are impacting the Department in several ways. But over the next several year there will be additional work effort involved with transformation activities which require DOC staff involvement. These transformation activities have proven to be both costly and time consuming. To date, all transformation activities have been staffed with in-house DOC employees which takes them away from working on DOC technology initiatives.

DOC is underfunded for technology initiatives. The CTSU technology staff has less than 25 full time employees to support a multitude of applications, and almost 9,000 users. Recent budget cuts have precluded DOC from investing in additional technology resources that could further to modernize the DOC technology applications. Public Safety initiatives such as requiring a LiveScan palm and 10 fingerprints as well as an official mugshot on every offender in which we supervise or manage, have not been funded. Often, DOC must choose between operational initiatives and

technology to fund critical activities such as these.

Homeland security issues and law enforcement activities at all levels of government are creating additional pressures for sharing information between agencies. This requires work on improving and standardizing infrastructure, databases, and data exchange methods. The CTSU staff is being required to develop new skill sets to operate in the new environment; this increases training demands and creates new recruitment/retention issues.

- **Proposed IT Solutions:**

The VirginiaCORIS Project is providing enhanced functionality for offender management and gives the Department a platform that can grow with the expected but unpredictable demands of the future. The single comprehensive database will enable data sharing that previously has not been easy to provide. VirginiaCORIS is being deployed in multiple stages, with the final phase being implemented in FY2010.

CTSU has partnered with the Virginia State Police, as well as the National Institute of Justice, Bureau of Justice Programs, and the FBI to improve information sharing initiatives. DOC sees the improvements in interoperability between law enforcement agencies and public safety agencies as being one of the cornerstones of our future technology initiatives. DOC would like to add technology staff in this areas to support these efforts. DOC also takes information security very seriously and is looking to add security staff and programs to ensure best practice and VITA security compliance. The Department also has a critical need for several major and non-major IT projects and procurements as summarized below.

* An agency-wide Enterprise Resource Planning (ERP) solution for Human Resources Management and Financial Systems in FY10/12 (\$4M). DOC's major financial and human resources systems utilize obsolete technology and do not provide the functionality necessary to perform day-to-day ERP initiatives (e.g. real-time interoperability, integrated web interface, and connectivity to electronic communications and automated workflow tools). A new ERP system implementation will facilitate information sharing between organizational units, provide enhanced interoperability, self-service access and business process support, improve workflow for major administrative tasks, increase efficiency through integration of major functions within the Department, and will provide internet-based access to services for staff and customers.

* An Electronic Contents Management (ECM) system in FY10/12 (\$4M) to control the creation, receipt, maintenance, use and disposition of records associated with offender and administrative files in local facilities/offices and central headquarters. The ECM solution will support the identification, classification, archiving, preservation and destruction of Department records including the processes for capturing and maintaining evidence of and information about business activities and transactions in the form of records.

* An Electronic Healthcare Medical Records system in FY10/11 (\$4M). Utilize electronic medical records to track all of an offender's healthcare examinations from intake to release, while providing documentation of services throughout the entire process. The use of this technology will result in greater accuracy, improved services, reduced liability and cost to the Department of Corrections.

The Electronic Healthcare Medical Records System will impact the following line of business: 103 Correctional Activities - The investment will support offender healthcare by providing accurate and timely medical documentation from the time of inmate intake to inmate release.

* Implementation of Offender KIOSKs within the Correctional Centers in FY10/12 (\$2M), to offer offenders banking and medical services, the ability to purchase commissary goods, provide greater access to family members who live potentially hundreds of miles apart the ability to spend quality time together in a virtual mode via video visitation. This also improves service delivery and proactive supervision by allowing Officers to focus on more high-risk/high need offenders.

The Offender KIOSKs system will impact the following line of business: 103 Correctional Activities - The investment will provide banking, medical services, commissary goods, video visitation and other resources to convicted criminals.

* Complete installation of Live Scan Biometric devices to include mug shot images in the Correctional Centers and Probation and Parole Offices in FY11 (\$2M). The Department of Corrections would like to have the ability to transmit for submission scars, marks, tattoos and mug shot images in accordance with standards set forth by the Virginia State Police and work with national law enforcement agencies to transmit such data.

The Live Scan Biometric devices will impact the following line of business: 103 Correctional Activities - the investment will support Correctional Activities which involves offender identification to all state activities that ensure the effective incarceration and rehabilitation of convicted criminals.

* Enhanced Business Intelligence Reporting System in FY11 (\$750K) to continue to build out the Virginia CORIS data mart used for research and forecasting, as well as business analytics. The DOC has implemented a centralized data repository, or Data Mart which will provide Management the ability to access data from any approved source or sources and automatically present it in a report format, in addition to providing the opportunity to make better informed decisions in managing offenders. Appropriate tools and staffing are critical for this initiative.

* Enhanced Geographic Information System in FY11 (\$750K) for the DOC to support operational, management and control efforts in offender management. This enhanced GIS system will provide web-enabled data tracking tools to support monitoring, classification and housing trends of offenders in accordance with security level and facility locations.

- **Current IT Services:**

Estimated Ongoing Operations and Maintenance Costs for Existing IT Investments

	Cost - Year 1		Cost - Year 2	
	General Fund	Non-general Fund	General Fund	Non-general Fund

[Appendix A](#) - Agency's information technology investment detail maintained in VITA's ProSight system.

Capital

- Current State of Capital Investments:**

The Department's current capital investment portfolio includes 17 Work Centers and Field Units, 33 major facilities and 9 DOC owned community corrections facilities. These facilities located across the state represent approximately 2,000 buildings containing approximately 15 million square feet of Department-owned space. One additional major facility, Wallens Ridge State Prison, is owned by the Big Stone Gap Redevelopment and Housing Authority and will be conveyed to the State upon repayment of the bonds. The Department also owns over 19,000 acres associated with these facilities, much of which is farmed through the Agribusiness program.

The Administrative Headquarters and the Agribusiness Farmer's Market and Distribution Center in Jarratt are all housed in capital leased space. (Other activities such as probation and parole offices are in leased space, considered operating leases.)

The total appropriation for capital and maintenance reserve projects (excluding major facility construction) for the 2008-09 biennium was \$100.9 million.

Funding for a new major facility in Grayson County was authorized in 2007 with a total appropriation of \$106,000,000. This project is nearing completion, and not included in the summary information above.

In the 2010 Six-Year Plan, a total of 66 capital and 26 maintenance reserve projects with an estimated cost of \$380,000,000 were requested for improvements and repairs to physical plants. The projects fall into the categories of security, roofing, electrical/mechanical, building renovations, additions and demolitions, site, and environmental. Also included were another 33 capital requests totaling \$832,000,000 for new construction projects.

- Factors Impacting Capital Investments:**

Obtaining funding for new prison construction in order to keep up with the need for bed space to house State Responsible offenders is an ongoing issue.

External factors related to new prisons sites, such as public opinion, obtaining approval of local governing bodies, and finding good building sites complicate and lengthen the process of adding beds.

Many facilities are old and some are exceeding their useful lives. Facility Condition Assessments are being performed and in some cases replacement rather than repair may be indicated. Funding and the need for adding new bed space limit the Department's ability to implement any replacement plans.

Capital and maintenance reserve projects are requested for owned facilities on an on-going basis in an effort to keep up with maintenance needs. Funding and staffing limit the ability to keep up with repair and maintenance demands, resulting in faster deterioration of facilities.

DOC is investing in facility condition assessments and capital planning and budgeting software in order to better define and prioritize maintenance and capital renewal needs, however, due to the magnitude of the capital portfolio, it is costly to the agency and no funds have been appropriated for this purpose.

- Capital Investments Alignment:**

The Department's capital investment program aligns with the agency's mission by providing safe and secure work sites that protect staff, offenders, and the public. These investments align with Virginia's long-term objective to protect the public's safety and security.

Agency Goals

Goal 1

Improve public, employee and inmate safety.

Goal Summary and Alignment

Improve public, employee and inmate safety by providing national leadership in public safety, by being a model agency through effective and efficient management, control, and supervision of offenders, and by identifying, implementing and evaluating cost effective, quality programs and services that provide offenders opportunities to demonstrate pro-social behaviors.

Goal Alignment to Statewide Goals

- Protect the public's safety and security, ensuring a fair and effective system of justice and providing a prepared response to emergencies and disasters of all kinds.

Goal 2

Improve employees' and organizational effectiveness.

Goal Summary and Alignment

Improve employees' and organizational effectiveness by recruiting, developing, supporting, and retaining a highly effective workforce which has the highest professional standards and by having the right people in the right place with the right tools at the right time.

Goal Alignment to Statewide Goals

- Be recognized as the best-managed state in the nation.

Goal 3

Improve financial performance.

Goal Summary and Alignment

Improve financial performance by continually assessing operations to ensure that limited resources are allocated efficiently and effectively and in support of the strategic plan.

Goal Alignment to Statewide Goals

- Be recognized as the best-managed state in the nation.

Goal 4

Improve communications.

Goal Summary and Alignment

Improve communications by sharing the Department's vision, mission, operations and achievements with our employees, stakeholders, and the public.

Goal Alignment to Statewide Goals

- Be recognized as the best-managed state in the nation.

Goal 5

Strengthen the culture of preparedness across state agencies, their employees and customers.

Goal Summary and Alignment

This goal ensures compliance with federal and state regulations, policies and procedures for Commonwealth preparedness, as well as guidelines promulgated by the Assistant to the Governor for Commonwealth Preparedness, in collaboration with the Governor's Cabinet, the Commonwealth Preparedness Working Group, the Department of Planning and Budget and the Council on Virginia's Future. The goal supports achievement of the Commonwealth's statewide goal of protecting the public's safety and security, ensuring a fair and effective system of justice and providing a prepared response to emergencies and disasters of all kinds.

Goal Alignment to Statewide Goals

- Protect the public's safety and security, ensuring a fair and effective system of justice and providing a prepared response to emergencies and disasters of all kinds.

Department of Corrections (799)

3/11/2014 11:01 am

Biennium: 2010-12 ▼

Probation and Parole Services (799 351 06)

This activity enables the Department of Corrections (DOC) to investigate and supervise sentenced felons and multi-misdemeanants. Through Probation and Parole Services, the Division of Community Corrections provides professional supervision of the offender in the community under conditions of Probation, Post-Release or Parole, and special conditions as set by the Court or the Parole Board. Parole was abolished for felonies committed on or after January 1, 1995, but over 75% of the "no parole" offenders have supervised probation following incarceration. Duties within this activity include: case supervision, surveillance, assuring safety and security of staff, providing transitional services to offenders returning to communities, home visits, investigations and other work in support of the Courts, arrest record checks, urinalysis, referral to or direct provision of treatment services, maximizing the use of technology, and support for transfer of supervision to other localities or states. The objectives of these services are to assure that an offender does not pose a threat to the community, to offer offenders opportunities to modify behavior and attitudes, and to effect positive changes in offenders through supervision and intervention.

Mission Alignment and Authority

- This service area directly aligns with DOC's mission of enhancing public safety by providing effective programming and supervising sentenced offenders in a humane, cost-efficient manner, consistent with sound correctional principles and constitutional standards.

- Code of Virginia, 53.1-10 provides the Director of the DOC authority to supervise and manage correctional facilities, implement the standards and goals of the Board, to employ personnel and to develop and implement programs.

Agency Customer Group	Customer	Customers served annually	Potential annual customers
Citizens of the Commonwealth.	Citizens of the Commonwealth.	7,500,000	7,500,000

The Department of Corrections' customer base is the Citizens of the Commonwealth and does not anticipate any changes to that base. It is important to note that the Department does not consider offenders remanded to the custody of the Director through either Institutions or Community Corrections as customers. However, workload along with the size of its service areas is determined by the number and type of offenders under the Department's supervision.

[None entered]

[Nothing entered]

- [Nothing entered]

- Implementation of Judicial Orders and Parole Board decisions; Supervision of state responsible probationers and parolees.

The majority of the Department of Corrections' and this Service Area's funding is provided through general funds. Approximately \$1.1 million in non-general funds provided for supplemental salary appropriation for localities and funding for Certified Substance Abuse Counselor operations.

Human Resources

- Human Resources Overview**

The Department of Corrections is a large public safety agency with 12,939 FTE positions (fiscal year 2010 per Chapter 781) to man 43 Probation and Parole districts, 30 Major Institutions, 15 Field Units/Work Centers, 3 Detention Centers, 4 Diversion Centers, 3 Regional Offices, an Academy for Staff Development, a Correctional Enterprise operation and an administrative headquarter. Geographically the Department of Corrections provides a wide range of services from community supervision to the highest level of secure incarceration throughout the Commonwealth of Virginia from the Chesapeake Bay to Bristol, from the North Carolina border to the Shenandoah Valley and Northern Virginia.

Please note in the Human Resource Level Chart below, the Department has a total of 221 wage employees as of July, 2009. However, these employees are located throughout the state and not identified by specific Service Area Plan.

- Human Resource Levels**

Effective Date	9/1/2009

Total Human Resource Level	1,052.0

breakout of Current Employment Level

= Current Employment Level + Wage and Contract Employees

- Factors Impacting HR**

The following challenges outlined below comprise the majority of factors impacting human resources in the next few years: (For more on these factors and information regarding steps taken by the Department to manage these issues, please see our "Agency Strategic Plan".)

- Potential retirements of senior and executive management positions (specifically Wardens, Superintendents, and P&P Chiefs) and the Executive Team.
- Staffing of new and expanded facilities.
- The ability to offer a level of compensation that will attract and retain a high quality workforce.
- The ability to provide training and staff development programs in a manner that best meets the needs of the Department and its employees.

- Anticipated HR Changes**

The development of a Commonwealth enterprise-wide HR system that meets the needs of the operating agencies will allow both the Department and other agencies to make better decisions based on current (real time) data. This will improve the efficiency of the HR function which have been significantly impacted by previous budget reductions.

Service Area Objectives

- Provide appropriate public safety programs to promote successful re-entry and offender compliance with supervision plans.

Objective Description

Through the use of Probation and Parole Services in the Supervision of Offenders and Re-entry Services, provide appropriate public safety programs to promote successful re-entry and offender compliance with supervision plans.

Alignment to Agency Goals

- Agency Goal: Improve public, employee and inmate safety.

Objective Strategies

- Complete a pilot test of evidence based practices in 4 district offices.
- Assign a level of community supervision within 90 days to all new cases based on a risk/needs assessment.
- Review cases regularly for compliance with supervision standards.
- Employ a variety of services and sanctions.

Link to State Strategy

- nothing linked

Objective Measures

- Increase the number of EBP Probation and Parole sites.

Measure Class: Other Measure Type: Outcome Measure Frequency: Annual Preferred Trend: Up

Measure Baseline Value: 9 Date: 6/30/2009

Measure Baseline Description: current number of EBP sites

Measure Target Value: 21 Date: 6/30/2011

Measure Target Description: increase to half of the total number of Probation and Parole Districts

Data Source and Calculation: We will increase the number of Probation and Parole EBP sites each calendar year until all 43 Districts are using EBP.

- Of the supervised probation and parole cases that are closed during a year, we will increase the percentage of cases that are closed successfully.

Measure Class: Measure Type: Measure Frequency: Preferred Trend:

Frequency Comment: Percent of cases closed successfully

Measure Baseline Value: Date:

Measure Baseline Description: 80% successful case closures for FY2009.

Measure Target Value: Date:

Measure Target Description: Increase percent successful case closures by 1% in FY11.

Data Source and Calculation: Using DOC's Corrections Information System (CORIS) database, identify all probation and parole cases that were closed successfully during the quarter. Compute a % for successful case closures.

Human Resources

- Human Resources Overview**

The Department of Corrections is a large public safety agency with 12,939 FTE positions (fiscal year 2010 per Chapter 781) to man 43 Probation and Parole districts, 30 Major Institutions, 15 Field Units/Work Centers, 3 Detention Centers, 4 Diversion Centers, 3 Regional Offices, an Academy for Staff Development, a Correctional Enterprise operation and an administrative headquarter. Geographically the Department of Corrections provides a wide range of services from community supervision to the highest level of secure incarceration throughout the Commonwealth of Virginia from the Chesapeake Bay to Bristol, from the North Carolina border to the Shenandoah Valley and Northern Virginia.

Please note in the Human Resource Level Chart below, the Department has a total of 221 wage employees as of July, 2009. However, these employees are located throughout the state and not identified by specific Service Area Plan.

Service Area Objectives

- Provide appropriate public safety programs to promote successful re-entry and offender compliance with supervision plans.

Objective Description

Through the use of Community Residential Programs in the Supervision of Offenders and Re-entry Services, provide appropriate public safety programs to promote successful re-entry and offender compliance with supervision plans.

Alignment to Agency Goals

- Agency Goal: Improve public, employee and inmate safety.

Objective Strategies

- Maintain a waiting list for offenders eligible for residential services.
- Increase utilization to appropriated amounts.

Link to State Strategy

- nothing linked

Objective Measures

- Utilization of Community Adult Residential Care Program (CRP) Contract Bed funding.

Measure Class: Measure Type: Measure Frequency: Preferred Trend:

Measure Baseline Value: Date:

Measure Baseline Description: Amount expended in FY2009.

Measure Target Value: Date:

Measure Target Description: 100% CRP funding expended.

Data Source and Calculation: Utilizing internal data sources, determine the CRP bed expenditures and divide by the CRP allocation.

Department of Corrections (799)

Biennium: 2010-12 ▼

Administrative Services (799 351 09)

This activity within the Department of Corrections (DOC) involves Community Corrections Administration (Deputy Director/Regional Directors/Chief of Operations/Parole Support Administrator, Central Office Program and administrative support). The services provided include: planning, management and direction of the Division at the central office and three (3) administrative regions, staff support to the Parole Board, tracking absconders, contract preparation and monitoring, policy and procedure development, budget management and processing parole violations.

Mission Alignment and Authority

- This service area directly aligns with DOC's mission of enhancing public safety by providing effective programming and supervising sentenced offenders in a humane, cost-efficient manner, consistent with sound correctional principles and constitutional standards.

- Code of Virginia, 53.1-10 provides the Director of the DOC authority to supervise and manage correctional facilities, implement the standards and goals of the Board, to employ personnel and to develop and implement programs.

The Department of Corrections' customer base is the Citizens of the Commonwealth and does not anticipate any changes to that base. It is important to note that the Department does not consider offenders remanded to the custody of the Director through either Institutions or Community Corrections as customers. However, workload along with the size of its service areas is determined by the number and type of offenders under the Department's supervision.

Measure Target Description: 100% payments released in 5 business days.

Data Source and Calculation: Monitor reimbursement payments to identify the number of days from the time Accounts Payable date stamps authorizing payment until the time supervisor releases payment to the Dept. of Accounts to ensure it is within 5 business days.

Department of Corrections (799)

3/11/2014 11:01 am

Biennium: 2010-12 ▼

Community Facility Management (799 361 01)

Within the Department of Corrections (DOC), Diversion Centers house non-violent felon offenders and provide a range of programs to serve these offenders, who are referred to specific centers by the Courts. Services require that offenders meet eligibility criteria, be mentally and physically able to do activities of daily living, have detention center assignments as a condition of probation in lieu of incarceration, and be suitable for a minimum-security environment. Program services include remedial education, substance abuse education, life skills (e.g. job readiness), parenting and other special topic groups, support for employment in the private sector, community service, and urinalysis to detect drug abuse. The stay of a successful offender in a Diversion Center ranges from four to six months. Detention Centers also house non-violent offenders who require more supervision than Diversion Centers offer and provide a range of services to care for these offenders. As above, the offenders are referred to specific centers by the Courts. Program services include a military-style regimen, remedial education, life skills, substance abuse education and urinalysis, and work on public projects. Facility management in both programs involves planning, management and direction, staffing, food service, medical care, housing, clothing, transportation, building and grounds maintenance, compliance with Board of Corrections' standards and fiscal management.

Mission Alignment and Authority

- This service area directly aligns with DOC's mission of enhancing public safety by providing effective programming and supervising sentenced offenders in a humane, cost-efficient manner, consistent with sound correctional principles and constitutional standards.

- Code of Virginia, 53.1-10 provides the Director of the DOC authority to supervise and manage correctional facilities, implement the standards and goals of the Board, to employ personnel and to develop and implement programs.

Agency Customer Group	Customer	Customers served annually	Potential annual customers
Citizens of the Commonwealth.	Citizens of the Commonwealth.	7,500,000	7,500,000

Human Resources

• Human Resources Overview

The Department of Corrections is a large public safety agency with 12,939 FTE positions (fiscal year 2010 per Chapter 781) to man 43 Probation and Parole districts, 30 Major Institutions, 15 Field Units/Work Centers, 3 Detention Centers, 4 Diversion Centers, 3 Regional Offices, an Academy for Staff Development, a Correctional Enterprise operation and an administrative headquarter. Geographically the Department of Corrections provides a wide range of services from community supervision to the highest level of secure incarceration throughout the Commonwealth of Virginia from the Chesapeake Bay to Bristol, from the North Carolina border to the Shenandoah Valley and Northern Virginia.

Please note in the Human Resource Level Chart below, the Department has a total of 221 wage employees as of July, 2009. However, these employees are located throughout the state and not identified by specific Service Area Plan.

breakout of Current Employment Level

• Factors Impacting HR

The following challenges outlined below comprise the majority of factors impacting human resources in the next few years: (For more on these factors and information regarding steps taken by the Department to manage these issues, please see our "Agency Strategic Plan".)

- Potential retirements of senior and executive management positions (specifically Wardens, Superintendents, and P&P Chiefs) and the Executive Team.
- Staffing of new and expanded facilities.
- The ability to offer a level of compensation that will attract and retain a high quality workforce.
- The ability to provide training and staff development programs in a manner that best meets the needs of the Department and its employees.

- *Anticipated HR Changes*

The development of a Commonwealth enterprise-wide HR system that meets the needs of the operating agencies will allow both the Department and other agencies to make better decisions based on current (real time) data. This will improve the efficiency of the HR function which have been significantly impacted by previous budget reductions.

Service Area Objectives

- Provide appropriate public safety programs to promote successful re-entry and offender compliance with supervision plans.

Objective Description

Through the use of Community Facility Management in State Residential Community Corrections Facilities, provide appropriate public safety programs to promote successful re-entry and offender compliance with supervision plans.

Alignment to Agency Goals

- Agency Goal: Improve public, employee and inmate safety.

Objective Strategies

- Continue to utilize the offenders and staff from the Statewide Diversion and Detention Centers to ensure that the service needs of the Local Communities are met.

Link to State Strategy

- nothing linked

Objective Measures

- Hours of Community Service Performed.

Measure Class: Measure Type: Measure Frequency: Preferred Trend:

Measure Baseline Value: Date:

Measure Baseline Description: FY2009 total number of hours of community service - 106,411

Measure Target Value: Date:

Measure Target Description: 1% increase in community service hours

Data Source and Calculation: Accumulate the total number of hours for Community Service performed at the Diversion and Detention Centers.

Department of Corrections (799)

Biennium: 2010-12 ▼

Supervision and Management of Probates (799 361 02)

This activity within the Department of Corrections (DOC) provides a safe and controlled environment for the probate population and staff within community facilities and for the citizens of the Commonwealth. Duties within this activity include in-service training for officers (Corrections Officer through Corrections Major), rotation of officers through posts within the community program and on the perimeter, supervision, transportation and surveillance of the probate population, employee and visitor searches, installation and maintenance of security equipment, uniform weaponry use, key control, tool control, participant counts, and constant communication. Other supporting tasks include maintenance and enforcement of guidelines and procedures, treatment program support, providing adequate supplies, materials and equipment to implement the activity, providing probates pay for hours worked, providing security audits to assure compliance with guidelines, and maintenance of post audits to assure proper assignment of security personnel.

Mission Alignment and Authority

- This service area directly aligns with DOC's mission of enhancing public safety by providing effective programming and supervising sentenced offenders in a humane, cost-efficient manner, consistent with sound correctional principles and constitutional standards.

- Code of Virginia, 53.1-10 provides the Director of the DOC authority to supervise and manage correctional facilities, implement the standards and goals of the Board, to employ personnel and to develop and implement programs.

Agency Customer Group	Customer	Customers served annually	Potential annual customers
Citizens of the Commonwealth.	Citizens of the Commonwealth.	7,500,000	7,500,000

The Department of Corrections' customer base is the Citizens of the Commonwealth and does not anticipate any changes to that base. It is important to note that the Department does not consider offenders remanded to the custody of the Director through either Institutions or Community Corrections as customers. However, workload along with the size of its service areas is determined by the number and type of offenders under the Department's supervision.

Partner	Description
[None entered]	

[Nothing entered]

- [Nothing entered]

- Implementation of Judicial Orders and Parole Board decisions, Supervision of state responsible probationers and parolees.

The majority of the Department of Corrections' and this Service Area's funding is provided through general funds. \$2.1 million in non-general funds is provided for insurance recoveries for Community Corrections and appropriation for probationer to reimburse Diversion Centers for operating costs.

Rehabilitation and Treatment Services (799 361 03)

Within the Department of Corrections (DOC), Diversion Centers house non-violent felon offenders and provide a range of programs to serve these offenders, who are referred to specific centers by the Courts or Parole Board. Services require that offenders meet eligibility criteria, be mentally and physically able to do activities of daily living, have detention center assignments as a condition of probation in lieu of incarceration, and be suitable for a minimum-security environment. Services include remedial education, substance abuse education, life skills (e.g. job readiness), parenting and other special topic groups, support for employment in the private sector, community service, and urinalysis to detect drug abuse. The stay of a successful offender in a Diversion Center ranges from four to six months. Detention Centers also house non-violent offenders, generally considered to require more supervision than Diversion Centers and provide a range of services to care for these offenders. As above, the offenders are referred to specific centers by the Courts. Services include a military-style regimen, remedial education, life skills, substance abuse education and urinalysis, and work on public projects.

Mission Alignment and Authority

- This service area directly aligns with DOC's mission of enhancing public safety by providing effective programming and supervising sentenced offenders in a humane, cost-efficient manner, consistent with sound correctional principles and constitutional standards.

- Code of Virginia, 53.1-10 provides the Director of the DOC authority to supervise and manage correctional facilities, implement the standards and goals of the Board, to employ personnel and to develop and implement programs.

Service Area Objectives

- Provide appropriate medical care for incarcerated offenders.

Objective Description

Through the use of Medical and Clinical Services in State Residential Community Corrections Facilities, provide appropriate medical care to incarcerated offenders.

Alignment to Agency Goals

- Agency Goal: Improve employees' and organizational effectiveness.

Objective Strategies

- Review offender medical and dental treatment plans annually.
- Expand capacity for ambulatory care, skilled level of care, inpatient acute care and emergency care.

Link to State Strategy

- nothing linked

Objective Measures

- Provide annual Health, Vision, Hearing and Dental treatment to offenders at a cost lower than the annual premiums for the same treatment provided to an employee of the Commonwealth of Virginia enrolled in a "single" medical coverage plan.

Measure Class: Other Measure Type: Output Measure Frequency: Annual Preferred Trend: Maintain

Frequency Comment: costs are analyzed on an annual basis

Measure Baseline Value: 5736 Date: 6/30/2009 Measure Baseline Description: Annual premium for a single State employee's Health, Vision, Hearing and Dental (\$478 X12 = \$5736).

Measure Target Value: 5450 Date: 6/30/2011

Measure Target Description: Annual state premium for individual less 5%. (5450 is 5% less than 5736).

Data Source and Calculation: Through the use of internal reports, determine the average medical cost for offenders versus the premium costs for an employee of the Commonwealth of Virginia enrolled in a "single" medical coverage plan. Offender cost should be 5% or more below employee single cost.

Department of Corrections (799)

3/11/2014 11:01 am

Service Area 10 of 20

Description

- preparation of twenty one meals per week for a population of over 30,000 individuals
- acquisition and proper storage of food and other supplies
- management of adequate and trained food service staff
- maintenance of food service equipment which meets Departmental standards
- providing guidance and training in food and dietary services
- evaluating meal preparation and services at correctional institutions
- establishing a uniform system of food preparation through cycle menus and standardized recipes
- establishing job details for inmate food service personnel
- providing guidance to various procurement agencies and units regarding the needs of the department
- providing emergency equipment for food preparation and services monitoring food usage at each institution to evaluate efficiencies and limit waste
- maintaining a food inventory control system with monthly reviews of operational costs.

Customers

Agency Customer Group	Customer	Customers served annually	Potential annual customers
Citizens of the Commonwealth.	Citizens of the Commonwealth.	7,500,000	7,500,000

The Department of Corrections' customer base is the Citizens of the Commonwealth and does not anticipate any changes to that base. It is important to note that the Department does not consider offenders remanded to the custody of the Director through either Institutions or Community Corrections as customers. However, workload along with the size of its service areas is determined by the number and type of offenders under the Department's supervision.

[Nothing entered]

- *Listing of Products and/or Services*

- The Food Services Unit serves approximately 94,600 meals per day and approximately 34,500,000 meals a year. Food Services follow a statewide, 28-day menu cycle which is reviewed every six months and is approved by a Registered Dietitian. The Department provides job training for offenders as cooks, bakers, vegetable preparers and many other related jobs. Food Services is the largest employer of inmates within DOC.

The majority of the Department of Corrections' and all of this Service Area's funding is provided through general funds.

Human Resources

- Human Resources Overview**

The Department of Corrections is a large public safety agency with 12,939 FTE positions (fiscal year 2010 per Chapter 781) to man 43 Probation and Parole districts, 30 Major Institutions, 15 Field Units/Work Centers, 3 Detention Centers, 4 Diversion Centers, 3 Regional Offices, an Academy for Staff Development, a Correctional Enterprise operation and an administrative headquarter. Geographically the Department of Corrections provides a wide range of services from community supervision to the highest level of secure incarceration throughout the Commonwealth of Virginia from the Chesapeake Bay to Bristol, from the North Carolina border to the Shenandoah Valley and Northern Virginia.

Please note in the Human Resource Level Chart below, the Department has a total of 221 wage employees as of July, 2009. However, these employees are located throughout the state and not identified by specific Service Area Plan.

- Human Resource Levels**

Effective Date	9/1/2009	
Total Authorized Position level	11	
Vacant Positions	0

Total Human Resource Level	11.0	= Current Employment Level + Wage and Contract Employees

- Factors Impacting HR**

The following challenges outlined below comprise the majority of factors impacting human resources in the next few years: (For more on these factors and information regarding steps taken by the Department to manage these issues, please see our "Agency Strategic Plan".)

- Potential retirements of senior and executive management positions (specifically Wardens, Superintendents, and P&P Chiefs) and the Executive Team.
- Staffing of new and expanded facilities.
- The ability to offer a level of compensation that will attract and retain a high quality workforce.
- The ability to provide training and staff development programs in a manner that best meets the needs of the Department and its employees.

- Anticipated HR Changes**

The development of a Commonwealth enterprise-wide HR system that meets the needs of the operating agencies will allow both the Department and other agencies to make better decisions based on current (real time) data. This will improve the efficiency of the HR function which have been significantly impacted by previous budget reductions.

Service Area Objectives

- Be recognized as innovative leaders in the comprehensive, complex correctional food service profession.

Objective Description

Through the use of Food Services in State Residential Community Corrections Facilities, be recognized as innovative leaders in the comprehensive, complex correctional food service profession.

Alignment to Agency Goals

- Agency Goal: Improve employees' and organizational effectiveness.

Objective Strategies

- Monitor ServSafe certifications annually to ensure each food service staff has completed and maintained their certification.
- Provide corrective action plan for any facility found to have uncertified food service staff.

Link to State Strategy

- nothing linked

Objective Measures

- Percentage of food service staff that complete and maintain their ServSafe National Restaurant Association Education Foundation certification.

Measure Class: Other Measure Type: Input Measure Frequency: Annual Preferred Trend: Maintain

Measure Baseline Value: 100 Date: 6/30/2009

Measure Baseline Description: 100% of food service staff were certified as of 6/30/2009.

Measure Target Value: 100 Date: 6/30/2011 Measure Target Description: 100% of food service staff will be certified on 6/30/2011.

Data Source and Calculation: For all Detention and Diversion food service staff, identify all certifications and divide by number of food service staff employed 6 months or more.

Department of Corrections (799)

3/11/2014 11:01 am

Biennium: 2010-12 ▼

Physical Plant Services (799 361 06)

As of May 2007, the Department of Corrections provides a safe, secure and constitutionally adequate environment for the supervision and custody of 84,854 state responsible offenders, as well as a workplace for over 13,000 DOC employees. The Department's oldest correctional facilities were constructed prior to the 1950's, and require extensive maintenance efforts to extend useful life. Activities which provide an appropriate physical environment also provide daily jobs and training for many inmates and keep these offenders occupied constructively. Duties and tasks within this activity include: providing coordination and maintenance services for the Department's facilities according to required local, state and federal standards; providing electricity and other contractual services necessary to operate the physical plant, planning, scheduling and operation of all major maintenance projects in accord with a system of regular inspections; procurement of supplies, material, equipment and services; and provision and training of staff with appropriate technical skills. The Department can not afford to shut down a facility or compromise public safety due to inadequate maintenance.

Mission Alignment and Authority

- This service area directly aligns with DOC's mission of enhancing public safety by providing effective programming and supervising sentenced offenders in a humane, cost-efficient manner, consistent with sound correctional principles and constitutional standards.

- Code of Virginia, 53.1-10 provides the Director of the DOC authority to supervise and manage correctional facilities, implement the standards and goals of the Board, to employ personnel and to develop and implement programs.

Agency Customer Group	Customer	Customers served annually	Potential annual customers
Citizens of the Commonwealth.	Citizens of the Commonwealth.	7,500,000	7,500,000

The Department of Corrections' customer base is the Citizens of the Commonwealth and does not anticipate any changes to that base. It is important to note that the Department does not consider offenders remanded to the custody of the Director through either Institutions or Community Corrections as customers. However, workload along with the size of its service areas is determined by the number and type of offenders under the Department's supervision.

Service Area Objectives

- Provide and maintain safe and secure work sites that protect staff, offenders, and the public.

Objective Description

Through the use of Supervision and Management of Inmates in Secure Correctional Facilities, provide and maintain safe and secure work sites that protect staff, offenders, and the public.

Alignment to Agency Goals

- Agency Goal: Improve public, employee and inmate safety.

Objective Strategies

- Follow serious assault prevention measures per Department policy and American Correctional Association (ACA) Accreditation Standards.

Link to State Strategy

- nothing linked

Objective Measures

- Inmate on inmate serious assaults on a Department-wide level.

Measure Class: Measure Type: Measure Frequency: Preferred Trend:

Frequency Comment: rate per 1,000

Measure Baseline Value: Date:

Measure Baseline Description: FY2005 rate

Measure Target Value: Date:

Measure Target Description: projected FY2011 rate

Data Source and Calculation: Provide the rate of inmate on inmate serious assaults on a Department-wide basis for each year. Data source is the Incident Report.

- Manage the offender population to ensure that offenders are provided secure confinement and appropriate supervision in accordance with the security level of the facility and the risk posed to the community.

Objective Description

Through the use of Supervision and Management of Inmates in Secure Correctional Facilities, manage the offender population to ensure that offenders are provided secure confinement and appropriate supervision in accordance with the security level of the facility and the risk posed to the community.

Alignment to Agency Goals

- Agency Goal: Improve public, employee and inmate safety.

Objective Strategies

- Unit Heads will ensure that all facilities will pass security assessments and scheduled audits.

Link to State Strategy

- nothing linked

Objective Measures

- We will have no escapes from confinement .

☐ ☐ ☐ ☐

Measure Class: Measure Type: Measure Frequency: Preferred Trend: Measure Baseline

Description: In 2007 there were 0 escapes.

Measure Target Value: Date:

Measure Target Description: The target is 0 escapes in FY2011.

Data Source and Calculation: From the "Monthly Escape Report" provide number of escapes from secure perimeter of facilities. Does not include escapes from work release, road gangs, farm work etc.

- The Department of Corrections will provide efficient secure confinement services as measured by annual per capita costs. Cost controls should limit per capita cost increases to less than 5%.

Measure Class: Measure Frequency: Preferred Trend:

Measure Baseline Value: Date:

Measure Baseline Description: 2008 per capita cost

Measure Target Value: Date:

Measure Target Description: \$25,548 is the FY2009 cost containment target (2008 percapita cost multiplied by 5%)

Data Source and Calculation: The DOC has experienced percapita cost increases in 8 of the past 13 years. The average of the increases is 5.17%. Offender maintenance costs are continuously monitored for each correctional facility. At the end of each fiscal year a percapita cost is computed by dividing total operational costs by the average daily population. Year to year percapita costs will be analyzed to determine if increased costs are within the 5% requirement.

- **Anticipated HR Changes**

The development of a Commonwealth enterprise-wide HR system that meets the needs of the operating agencies will allow both the Department and other agencies to make better decisions based on current (real time) data. This will improve the efficiency of the HR function which have been significantly impacted by previous budget reductions.

Service Area Objectives

- Provide Therapeutic Community programming which provide opportunities for offenders to change criminal behaviors

Objective Description

Through the use of Rehabilitation and Treatment Services in Institutions, provide therapeutic treatment to offenders which promotes life skills instrumental in preparing inmates to succeed in living productive, crime free lives.

Alignment to Agency Goals

- o Agency Goal: Improve public, employee and inmate safety.

Objective Strategies

- o Provide evidence-based programs to match offender needs.
- o Develop comprehensive transition plans for releasing participants.

Link to State Strategy

- o nothing linked

Objective Measures

- o We will operate a Therapeutic Community Treatment program that will maintain recidivism rates.

Measure Class: Measure Type: Measure Frequency: Preferred Trend:

Measure Baseline Value: Date:

Measure Baseline Description: 9.4% is the recidivism of TC program completers in CY2007.

Measure Target Value: Date:

Measure Target Description: Our target is to maintain or lower the recidivism of offenders completing TC in CY2009.

Data Source and Calculation: The recommitment status of Therapeutic Community graduates is computed in February of each year. The Therapeutic Community graduates have been released in an observation range of approximately 12-24 months prior to the development of the recommitment rate statistics listed below. Data for the 2009 cohort will be available in April 2011.

- Maintain the current level of offender programming capacity to provide opportunity for offenders to change criminal behaviors.

Objective Description

Through the use of Rehabilitation and Treatment Services in Secure Correctional Facilities, maintain the current level of offender programming capacity to provide opportunity for offenders to change criminal behaviors.

Alignment to Agency Goals

- o Agency Goal: Improve employees' and organizational effectiveness.

Objective Strategies

- o Maintain Director's policy commitment to programming.
- o Ensure current resources remain committed to programming.
- o Administratively approve prison programs at the Department level to ensure need and quality.
- o Conduct an annual survey of program operations, capacity and frequency by Program Managers.

Link to State Strategy

- o nothing linked

Objective Measures

- o The average number of hours program-eligible offenders participate in program activities each week.

Measure Class: Measure Type: Measure Frequency: Preferred Trend:

Measure Baseline Value: Date:

Measure Baseline Description: 26 average weekly program hours in CY 2008.

Measure Target Value: Date:

Measure Target Description: 28 hours per week for CY2010 is the DOC target.

Data Source and Calculation: Utilizing the Inmate Pay System and maintaining program surveys of institutions, management staff will determine programs operating capacity and weekly meeting hours. Due to the unavailability of resources as defined in the Code of Virginia 53.1-32.1, the baseline will be maintained at 26 hours per week. The Department will strive to maintain 26 hours per week until additional resources allow the Department to achieve the 40-hour average per offender per week mandate.

Department of Corrections (799)

Biennium: 2010-12 ▼

Prison Management (799 398 05)

This activity within the Department of Corrections (DOC) includes the administrative management and direction for the institutions at three levels: centrally, regionally and in the institutions themselves. Central direction includes such items as overall security planning and statewide program preparation. The Department has three regions with each having a regional office set-up that interprets and implements central policy. At the institution level, the Warden's Office and the business office are considered administrative support, along with human resource functions and the Ombudsman. This function additionally includes linen and laundry services which provide clean linen and serves the fundamental purpose of personal hygiene and clean sleeping areas while providing work opportunities for the inmates. Lastly, the Department provides recreational opportunities at all facilities which house inmates. Gymnasiums, sports equipment, inside recreational space and, in some cases, structured recreational programs, are key resources for this program.

Mission Alignment and Authority

- This service area directly aligns with DOC's mission of enhancing public safety by providing effective programming and supervising sentenced offenders in a humane, cost-efficient manner, consistent with sound correctional principles and constitutional standards.

- Code of Virginia, 53.1-10 provides the Director of the DOC authority to supervise and manage correctional facilities, implement the standards and goals of the Board, to employ personnel and to develop and implement programs.

Agency Customer Group	Customer	Customers served annually	Potential annual customers
Citizens of the Commonwealth.	Citizens of the Commonwealth.	7,500,000	7,500,000

The Department of Corrections' customer base is the Citizens of the Commonwealth and does not anticipate any changes to that base. It is important to note that the Department does not consider offenders remanded to the custody of the Director through either Institutions or Community Corrections as customers. However, workload along with the size of its service areas is determined by the number and type of offenders under the Department's supervision.

[Nothing entered]

- [Nothing entered]

- Employees are provided with policy and program implementation guidance. Employees in the each region have access to human resource information and the inmates in the facilities have access to information regarding their inmate pay accounts and the support of the facility Ombudsman. Overall security planning; creation and enforcement of established Department procedures; policy interpretation and implementation; planning and statewide program preparation; budgeting; cash projections; monitoring inmate pay accounts; financial analysis; human resources; ombudsman; management of daily activities and functions.

The majority of the Department of Corrections' and this Service Area's funding is provided through general funds. A small amount of non-general fund appropriation is provided for insurance recoveries and recyclable materials.

- [illegible]

Human Resources

The Department of Corrections is a large public safety agency with 12,939 FTE positions (fiscal year 2010 per Chapter 781) to man 43 Probation and Parole districts, 30 Major Institutions, 15 Field Units/Work Centers, 3 Detention Centers, 4 Division Centers, 3 Regional Offices, an Academy for Staff Development, a Correctional Enterprise operation and an administrative headquarter. Geographically the Department of Corrections provides a wide range of services from community supervision to the highest level of secure incarceration throughout the Commonwealth of Virginia from the Chesapeake Bay to Bristol, from the North Carolina border to the Shenandoah Valley and Northern Virginia.

- *Human Resource Levels*

- *Factors Impacting HR*

The following challenges outlined below comprise the majority of factors impacting human resources in the next few years: (For more on these factors and information regarding steps taken by the Department to manage these issues, please see our "Agency Strategic Plan".)

- Potential retirements of senior and executive management positions (specifically Wardens, Superintendents, and P&P Chiefs) and the Executive Team.
- Staffing of new and expanded facilities.
- The ability to offer a level of compensation that will attract and retain a high quality workforce.
- The ability to provide training and staff development programs in a manner that best meets the needs of the Department and its employees.

- **Anticipated HR Changes**

The development of a Commonwealth enterprise-wide HR system that meets the needs of the operating agencies will allow both the Department and other agencies to make better decisions based on current (real time) data. This will improve the efficiency of the HR function which have been significantly impacted by previous budget reductions.

Service Area Objectives

- Operate model correctional facilities that provide secure confinement, programs, and services appropriate to the custody needs of assigned offenders and to the security level of the facility or unit.

Objective Description

Through the use of Prison Management in Secure Correctional Facilities, operate model correctional facilities that provide secure confinement, programs, and services appropriate to the custody needs of assigned offenders and to the security level of the facility or unit.

Alignment to Agency Goals

- Agency Goal: Improve public, employee and inmate safety.

Objective Strategies

- Monitor compliance with ACA Standards and Board of Corrections' standards.
- Prepare and follow-up corrective action plans for any deficiencies noted.

Link to State Strategy

- nothing linked

Objective Measures

- The percentage of eligible facilities achieving at least 90 percent compliance with non-mandatory ACA and Board of Corrections standards.

Measure Class: Measure Type: Measure Frequency: Preferred Trend:

Measure Baseline Value: Date:

Measure Baseline Description: 100% of DOC facilities were accredited in FY 2009

Measure Target Value: Date:

Measure Target Description: 100% of DOC facilities will be accredited in FY2011

Data Source and Calculation: ACA Accreditation and Board of Corrections Standards. Note: Some facilities are not eligible for ACA Accreditation as cost constraints on physical plant infrastructure prohibit ACA Accreditation.

Service Area Strategic Plan

Department of Corrections (799)

3/11/2014 11:01 am

Biennium: 2010-12

Service Area 15 of 20

Food Services (799 398 07)

Description

Within the Department of Corrections (DOC), nutritionally balanced and wholesome meals contribute to the health and wellbeing of all individuals served. Cost control methods are used to provide a food service program consistent with Department of Corrections' standards. Due to institutional needs, some kitchens operate up to 24 hours each day. Duties within this activity include:

- preparation of nineteen meals per week for a population of over 30,000 individuals
- acquisition and proper storage of food and other supplies
- management of adequate and trained food service staff
- maintenance of food service equipment which meets Departmental standards
- providing guidance and training in food and dietary services
- evaluating meal preparation and services at correctional institutions
- establishing a uniform system of food preparation through cycle menus and standardized recipes
- establishing job details for inmate food service personnel
- providing guidance to various procurement agencies and units regarding the needs of the department
- providing emergency equipment for food preparation and services
- monitoring food usage at each institution to evaluate efficiencies and limit waste
- maintaining a food inventory control system with monthly reviews of operational costs.

Background Information

Mission Alignment and Authority

- *Describe how this service supports the agency mission*
This service area directly aligns with DOC's mission of enhancing public safety by providing effective programming and supervising sentenced offenders in a humane, cost-efficient manner, consistent with sound correctional principles and constitutional standards.
- *Describe the Statutory Authority of this Service*
Code of Virginia, 53.1-10 provides the Director of the DOC authority to supervise and manage correctional facilities, implement the standards and goals of the Board, to employ personnel and to develop and implement programs.

Department of Corrections (799)

3/11/2014 11:01 am

Biennium: 2010-12

Service Area 16 of 20

Medical and Clinical Services (799 398 10)

Description

Within the Department of Corrections (DOC), medical treatment activity provides all inmates in DOC-operated prisons with medical treatment through Department or outside health care providers, including contract psychiatric services. The efforts include use of supplies and equipment directly associated with health services. Some of the tasks within this activity include ambulatory care, skilled level of care, inpatient acute care and emergency care. Medical services are available 24 hours per day, seven days per week. The Department's dental treatment activity provides a range of dental services designed to maintain or improve the offender oral health. These efforts include staff, supplies and equipment directly associated with dental services. Routine and emergency dental care is provided and includes preventive and hygiene services, restorative services, oral surgery, endodontics (root canals), and prosthetic (denture) services. Each offender is provided a mandatory dental examination and dental classification at the Department's reception centers. Staff is on call twenty-four hours per day, seven days per week for emergency service if needed. Finally, each offender is charged a medical co-payment of five dollars per medical condition to help ensure the offender does not abuse the availability of medical services.

3/11/2014 11:01 am

Biennium: 2010-12 ▼

Service Area 17 of 20

Agribusiness (799 398 11)

Description

This activity within the Department of Corrections (DOC) incorporates the functions of dairy operations, meat processing, hydroponics, fruit and vegetable farming, fish processing, farmers market (produce distribution center), sawmills and a freeze plant. Additionally, activities support the staff, supplies and equipment directly associated with operating agricultural programs at select major institutions, field units and work centers. By diversifying, the Department avoids the higher cost of purchasing food totally on the open market. Inmates are also provided with work opportunities and associated skills.

Background Information

Mission Alignment and Authority

- *Describe how this service supports the agency mission*

This service area directly aligns with DOC's mission of enhancing public safety by providing effective programming and supervising sentenced offenders in a humane, cost-efficient manner, consistent with sound correctional principles and constitutional standards.

- *Describe the Statutory Authority of this Service*

Code of Virginia, 53.1-10 provides the Director of the DOC authority to supervise and manage correctional facilities, implement the standards and goals of the Board, to employ personnel and to develop and implement programs.

Human Resources

- Human Resources Overview**

The Department of Corrections is a large public safety agency with 12,939 FTE positions (fiscal year 2010 per Chapter 781) to man 43 Probation and Parole districts, 30 Major Institutions, 15 Field Units/Work Centers, 3 Detention Centers, 4 Diversion Centers, 3 Regional Offices, an Academy for Staff Development, a Correctional Enterprise operation and an administrative headquarter. Geographically the Department of Corrections provides a wide range of services from community supervision to the highest level of secure incarceration throughout the Commonwealth of Virginia from the Chesapeake Bay to Bristol, from the North Carolina border to the Shenandoah Valley and Northern Virginia.

Please note in the Human Resource Level Chart below, the Department has a total of 221 wage employees as of July, 2009. However, these employees are located throughout the state and not identified by specific Service Area Plan.

- Human Resource Levels**

Effective Date	9/1/2009	
Total Authorized Position level	102	
Vacant Positions	0

- Factors Impacting HR**

The following challenges outlined below comprise the majority of factors impacting human resources in the next few years: (For more on these factors and information regarding steps taken by the Department to manage these issues, please see our "Agency Strategic Plan".)

- Potential retirements of senior and executive management positions (specifically Wardens, Superintendents, and P&P Chiefs) and the Executive Team.
- Staffing of new and expanded facilities.
- The ability to offer a level of compensation that will attract and retain a high quality workforce.
- The ability to provide training and staff development programs in a manner that best meets the needs of the Department and its employees.

- Anticipated HR Changes**

The development of a Commonwealth enterprise-wide HR system that meets the needs of the operating agencies will allow both the Department and other agencies to make better decisions based on current (real time) data. This will improve the efficiency of the HR function which have been significantly impacted by previous budget reductions.

Service Area Objectives

- To provide a significant proportion of the prison's food needs through agribusiness activities.

Objective Description

Through the use of the Department's Agribusiness Unit, provide a significant percentage of the food needs of the institutions.

Alignment to Agency Goals

- o Agency Goal: Improve employees' and organizational effectiveness.

Objective Strategies

- o Monitor internal reports provided by Food Services Department.

Link to State Strategy

- o nothing linked

Objective Measures

- Total agribusiness sales.

Measure Class: Other Measure Type: Output Measure Frequency: Annual Preferred Trend: Up

Measure Baseline Value: 15M Date: 6/30/2007

Measure Baseline Description: Total agribusiness sales in FY2007 totaled approximately \$15 million.

Measure Target Value: 21M Date: 6/30/2011

Measure Target Description: \$21 million in total agribusiness sales in FY2011.

Data Source and Calculation: Utilizing internal data sources, provide total sales figures for all agribusiness operations on a fiscal year basis.

Service Area Strategic Plan

Department of Corrections (799)

Biennium: 2010-12

Service Area 18 of 20

Correctional Enterprises (799 398 12)

Description

The Department of Corrections (DOC) created Virginia Correctional Enterprises (VCE) which functions similarly to a private business yet operates under the controls and constraints of a government agency. VCE is responsible for producing products and services in three major areas. First, VCE reduces inmate idleness via prison employment in Virginia's prisons. VCE's inmate employment program is a critical component of inmate management. Second, VCE reduces offender re-offense risks via job skills and job programs for offenders. VCE has formed a partnership with the Department of Correctional Education to support formal training through VCE production programs. Third, VCE produces finished goods for sale to the Commonwealth of Virginia. Twenty-two operations at fourteen DOC institutions employ approximately 1,300 inmates who produce products and services enumerated below. Participation in VCE programming reduces inmate idleness which increases safety for staff and inmates within Virginia prisons, reduces risk of recidivism through job experience and training, and provides finished goods for sale to the Commonwealth.

Background Information

Mission Alignment and Authority

- Describe how this service supports the agency mission*
This service area directly aligns with DOC's mission of enhancing public safety by providing effective programming and supervising sentenced offenders in a humane, cost-efficient manner, consistent with sound correctional principles and constitutional standards.
- Describe the Statutory Authority of this Service*
Code of Virginia, 53.1-10 provides the Director of the DOC authority to supervise and manage correctional facilities, implement the standards and goals of the Board, to employ personnel and to develop and implement programs.

Customers

Agency Customer Group	Customer	Customers served annually	Potential annual customers
Citizens of the Commonwealth.	Citizens of the Commonwealth.	7,500,000	7,500,000

Anticipated Changes To Agency Customer Base
The Department of Corrections' customer base is the Citizens of the Commonwealth and does not anticipate any changes to that base. It is important to note that the Department does not consider offenders remanded to the custody of the Director through either Institutions or Community Corrections as customers. However, workload along with the size of its service areas is determined by the number and type of offenders under the Department's supervision.

Service Area 19 of 20

Physical Plant Services (799 398 15)

Description

As of May 2007, the Department of Corrections provides a safe, secure and constitutionally adequate environment for the supervision and custody of 84,854 state responsible offenders, as well as a workplace for over 13,000 DOC employees. The Department's oldest correctional facilities were constructed prior to the 1950's, and require extensive maintenance efforts to extend useful life. Activities which provide an appropriate physical environment also provide daily jobs and training for many inmates and keep these offenders occupied constructively. Duties and tasks within this activity include: providing coordination and maintenance services for the Department's facilities according to required local, state and federal standards; providing electricity and other contractual services necessary to operate the physical plant, planning, scheduling and operation of all major maintenance projects in accord with a system of regular inspections; procurement of supplies, material, equipment and services; and provision and training of staff with appropriate technical skills. The Department can not afford to shut down a facility or compromise public safety due to inadequate maintenance.

Background Information
